Mr. Steve Salazar  
Construction Inspector  
City of Rockwall, Engineering Department  
385 S. Goliad Street  
Rockwall, Texas 75087

**RE: Letter of Concurrence  
Dynamic Retail  
City of Rockwall, Texas**

Dear Mr. Salazar:

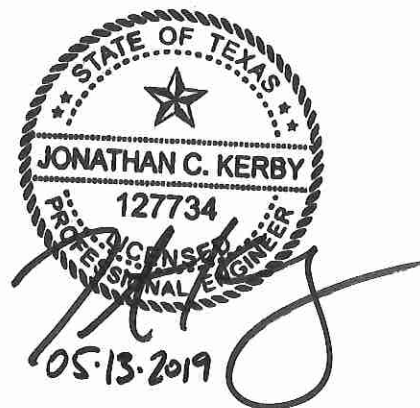

A representative of Kimley-Horn and Associates, Inc. visited the site and has visually verified to the best of the engineer's professional opinion, knowledge and belief, that based on their observations along with limited survey work performed by others conducted at the site, that the final grading and site drainage comply with the City approved plans and details.

It was noticed during the site walk that the light poles are located within a portion of the fire lane on the west side of the site, which was not shown on the City approved plans. Per the attached email from Commercial Construction Group, LLC, the Fire Marshal has approved these locations and has instructed CCG to stripe around the pole bases.

If you have any questions, please contact me at (972) 770-1370 or [jonathan.kerby@kimley-horn.com](mailto:jonathan.kerby@kimley-horn.com).

Sincerely,

Jonathan Kerby, P.E.  
KIMLEY-HORN AND ASSOCIATES, INC.
