Dear Ms. Spencer:

Thank you for providing us with the laboratory analysis for the following item:

- Nothing Bundt Cakes - Frosting

We have reviewed the information you submitted, and have determined that based on California Retail Food Code, section 113871; **this product is not potentially hazardous** because of the following:

- The food has an a_w (water activity) value of 0.85 or less
- The food has a pH level of 4.6 or below when measured at 75°F
- The food and its preparation method as described have been shown not to support the rapid and progressive growth of infectious or toxigenic micro-organisms that may cause food infections or food intoxications.

We have accepted this documentation for Riverside County and will distribute this information to our area offices. Please provide a copy of this letter to all locations using these products and notify us prior to any change of ingredients, processes or if you have any additional lab studies.

If you have any questions, please do not hesitate to contact Kristin Lorge with our Special Processes Committee at (951) 358-5172.

Sincerely,

Jeff Johnson, REHS
