# CITY OF ROCKWALL

## "THE NEW HORIZON"

June 20, 1989

Mr. Michael Stephenson  
Henry Africa, Inc.  
201 East I-30  
Rockwall, TX 75087

Dear Mr. Stephenson:

On June 19, 1989, the Rockwall City Council held a public hearing and considered approval of the following items in relationship to the proposed deck addition to Henry Africa: an ordinance expanding the existing Conditional Use Permit for a private club at Henry Africa to include the deck area, a site plan submitted as a part of that Conditional Use Permit request, and a replat of Lot 4, the Harbor to include the deck area. Each of these items was approved with certain conditions:

### Site Plan

1. that the additional landscaping on Lot 4 is approved with the addition of a minimum of 2 trees to be planted in the ground within the deck area. The location of the trees are at your discretion.
2. that the landscaping and parking materials requirements for the additional parking and drive be temporarily waived for a period of two years or the construction of Phase 2 of the Harbor development, whichever comes first. The temporary parking lot and drive will be constructed of a compacted rock base with a seal coat surface.
3. that lighting acceptable to the City will be provided for the additional parking area and access area to the parking
4. that adequate facilities for both the deck and for the beach use will be provided in the restrooms

### CUP Expansion

1. the entertainment on the deck is approved with the condition that the use of entertainment be reviewed at the end of one year

2. the private club shall meet all conditions for the issuance of private club permits set by the City Council in ordinance No. 85-2, No. 87-36, No. 88-8, and any future regulatory ordinances

Replat

1. that an access easement will be provided to the additional parking area prior to the filing of the plat at the County Clerk's Office by this office

As was the case with your beach CUP, the ordinance authorizing the expansion of the Henry Africa private club must be approved at two separate meetings of Council. The second reading is scheduled for July 10, 1989, in City Hall at 7:00 P.M. However, as I have previously notified you on May 25th, your current CUP for Henry Africa is in non-compliance due to failure to submit quarterly alcoholic beverage and food sales reports which is grounds for denial of the requested expansion.

An approved final plat, or replat in this case, must be filed by this office with the County Clerk not later than 120 days from the date of approval or the approval becomes void. Please submit 16 executed copies and two mylars to this office not later than September 28th (100 days). We cannot guarantee timely filing of plats received after this date. Please note, however, that no building permit may be issued until the plat is filed. You may wish to submit the required plats at your earliest convenience if you are planning to get a building permit in the near future.

Please contact Julie Couch at 771-1111 if you have any questions regarding these approvals.

Sincerely,

Mary Nichols

**Agenda Item:**

P&Z 89-14-FP/CUP - Hold Public Hearing and Consider Approval of a Request from Michael Stephenson for Extension of a CUP for a Private Club and a Replat of Lot 4, the Harbor, Phase I

**Item Generated By:**

Applicant, Michael Stephenson

**Action Needed:**

Hold public hearing and take any necessary action

**Background Information:**

As the Commission is aware, we have received a request from Mr. Stephenson to add to the existing CUP for a private club in order to construct a deck along the south side of Henry Africa. The deck will contain seating, a grill and bar, and restrooms that will be used for both the deck patrons and beach participants. Our comments concerning the request are as follows:

**CONDITIONAL USE PERMIT**

The request to expand the CUP for the private club does meet the minimum requirements for a private club. Our comments regarding the site plan for the deck are as follows:

1. With the addition of the deck area the required landscaping would increase by 11,088 sq. ft. The minimum landscaping for that area would be 15% or 1,664 sq. ft. The only area that would be available for landscaping would be along the inlet. This is planned at some future time to be used as a docking area to provide boat access to the development. It is also going to be approximately 4-5 feet below the deck when it is constructed. The applicant has been asked to address the issue of landscaping this area. They may request a waiver to those requirements. In light of the location of this deck with the proximity of the take line and the improvements that will be placed there, and due to the height of the deck additional landscaping would probably not enhance this area significantly. We will hear from the applicant Thursday night regarding this matter.
2. The parking will have to be increased to 75 spaces in order to meet the standard parking requirements. The parking will be installed at the time of construction of the deck.
3. They are proposing to place the required parking for the deck in the eastern part of PD-7 as shown on the site plan. The drive for this new parking needs to be realigned to tie into the site plan for Henry Africa. The landscaping ordinance requires that a parking lot with more than two rows of parking to have internal landscaping. We have asked them to provide the area within the parking lot. Again, they may request a delay from the landscaping requirements for the parking lot until their development reaches this area. They will address this Thursday night.
4. The applicant plans to utilize wood that has been salvaged from another building for the deck. If the wood meets the building code structural requirements it could be used, however if it cannot be rated it cannot be used.
5. There has been no indication by the applicant that they would want to be able to have entertainment on the deck such as bands or dancing, etc. We have requested them to indicate what, if any, entertainment they might want to utilize on the deck. The Commission may want to consider a condition in the permit regarding the provision of entertainment. We have in the past had some noise complaints from Lakeside Village regarding the bands at Culpepper's.

**PLAT**

The replat of Lot 4 of the Harbor meets all of our requirements. We have indicated that an access easement will need to be provided on the area of the parking lot because it is not platted. This would need to be provided prior to filing the plat.

P&Z 89-14-FP/CUP - Hold Public Hearing and Consider Approval of an Ordinance Amending Ordinance 88-30 Authorizing an Expansion of the Conditional Use Permit Approving a Private Club on Lot 4, the Harbor Phase I and approving a Replat of Lot 4, the Harbor, Phase I (1st Reading)

**Item Generated By:**

Applicant, Michael Stephenson

**Action Needed:**

Hold public hearing and take any necessary action

**Background Information:**

As the Council is aware, we have received a request from Mr. Stephenson to expand the existing CUP for a private club in order to construct a deck along the south side of Henry Africa. The deck will contain seating, a grill and bar, and restrooms that will be used for both the deck patrons and beach participants. Our comments concerning the request are as follows:

**CONDITIONAL USE PERMIT**

The request to expand the CUP for the private club does meet the minimum requirements for a private club. Our comments regarding the site plan for the deck are as follows:

1. With the addition of the deck area the total lot area would increase by 11,088 sq. ft. The minimum landscaping for that area would be 15% or 1,664 sq. ft. The only area that would be available for landscaping would be along the inlet. This is planned at some future time to be used as a docking area to provide boat access to the development. It is also going to be approximately 4-5 feet below the deck when it is constructed. The applicant has requested approval for 940 sq. ft. of landscaping along the beach and south side of the deck. In light of the location of this deck with the proximity of the take line and the improvements that will be placed there, and due to the height of the deck additional landscaping would probably not enhance this area significantly.
2. The applicant will provide 85 additional parking spaces for the deck. The minimum parking requirements for the deck would be 75 spaces. The parking will be installed at the time of construction of the deck.
3. They are proposing to place the required parking for the deck in the eastern part of PD-7 as shown on the site plan. The drive for this new parking will tie into the site plan for Henry Africa. The landscaping ordinance requires that a parking lot with more than two rows of parking have internal landscaping. The parking area would also normally be constructed of concrete or asphalt. The applicant has requested a temporary waiver to the landscaping and materials requirements for the additional parking area because this area will probably be have to be redesigned when this area of PD-7 is developed. There will have to be a road in this area, either a collector or the extension of Summer Lea. Any improvements that might be done now would probably have to be removed and redone. They have requested permission to use a compacted rock base with a seal coat surface.
4. The applicant plans to utilize wood that has been salvaged from another building for the deck. If the wood meets the building code structural requirements it could be used, however if it cannot be rated it cannot be used.
5. The applicant has indicated that they would want to be able to have entertainment on the deck. We requested them to indicate if they did plan to have entertainment because we have in the past had some noise complaints from Lakeside Village residents regarding the bands at Culpepper's. This area is further south and lower than Culpeppers so it is less likely to cause a noise problem than Culpeppers.

PLAT

The replat of Lot 4 of the Harbor meets all of our requirements. We have indicated that an access easement will need to be provided on the area of the parking lot because it is not platted. This would need to be provided prior to filing the plat.

The Planning and Zoning Commission has recommended approval of the request with the following conditions:

1. That the additional landscaping on Lot 4 be approved as submitted with the stipulation that a minimum of 2 trees be planted in the ground within the deck area. The location of the trees would be decided by the applicant.
2. That the landscaping and parking materials requirements for the additional parking and drive be temporarily waived for a period of two years or the construction of Phase 2 of the Harbor development, whichever comes first. The temporary parking lot and drive will be constructed of a compacted rock base with a seal coat surface.
3. That adequate lighting will be provided for the additional parking area.
4. That adequate fixtures for both the deck and for the beach use will be provided in the restrooms.
5. The entertainment on the deck is approved with the condition that the use of entertainment would be reviewed at the end of one year.
6. The plat is approved with the condition that an access easement is provided on the additional parking area.
