Agenda Date:

Agenda No: V D.

Agenda Item:

P&Z 89-19-Z/PP - Hold Public Hearing and Consider Approval of a Request from George Nabholtz and an ordinance authorizing a Change in Zoning From "C" Commercial to "LI" Light Industrial on a 16.4 Acre Tract of Land Located on I-30 South and West of High School Drive and Approval of a Preliminary Plat (1st reading)

Item Generated By:

Applicant, George Nabholtz

Action Needed:

Hold public hearing and take action on the zone change request and the preliminary plat including the waiver to the escrow requirements and consideration of the ordinance on first reading

Background Information:

We have received a request for a change in zoning and preliminary plat approval for a 16 acre tract south of I-30 to the west of High School Drive. The property is currently zoned Commercial. The applicant has 5 acres under contract to an industrial buyer who plans to use the site for their plant and he plans to develop the remainder of the property into an industrial park. The industry manufactures electronic cable equipment for automated landscape sprinkler systems. They will bring approximately 150 jobs into the City. They had been negotiating for another site in Rockwall in PD-9 along FM-3097 but that site never materialized. We had approved a site plan for that location approximately a year ago. Our comments regarding the request are as follows:

Zoning

The Land Use Plan indicates commercial in this area. However, the proposed use across High School Drive is industrial. These uses generally reflected the existing zoning in the area. While it is likely the intersection of 205 and I-30 would remain commercial, industrial uses along the west side of High School Drive are not inappropriate. Since the Land Use Plan does indicate commercial in this area an amendment to the Plan should be recommended.

Preliminary Plat

You have included in your packet a preliminary plat for both the 5 acre site and the remainder of the property. Both plats generally conform to our requirements. Our requirements are as follows:

1. The existing power line needs an easement or plans need to be developed to relocate the line.
2. The plat for the 5 acres includes dedication for the future expansion of High School Drive. Under our subdivision regulations they would normally be required to escrow their half of the estimated cost for the expansion of High School. This would total approximately \$ _____. It is not planned to improve this section of High School Road in the near future. The buyers are requesting a waiver to the escrow requirement at this time. As the Commission is aware we have generally not granted waivers to nonresidential development. However, this facility will generate additional sales tax, and increase population should a number of the employees move to Rockwall. Additionally, it will hopefully encourage additional industrial development in this area. The Commission asked about the possibility of a Facilities Agreement with the buyers to require that their share of the road improvements be paid to the City at the time the road is improved. We have discussed this possibility with the buyer and they do not wish to be required to pay for any of the improvement to High School Road. Their moving costs to Rockwall will be significant and they are looking for ways to reduce their overall expenses in order to cost justify the move.

The Commission has recommended approval of the change in zoning, the preliminary plats, and the waiver of escrow requirements.
