CITY OF ROCKWALL
Planning and Zoning Agenda

Agenda Date: March 12, 1992

Agenda No: III. B.

Agenda Item: **P&Z 92-2-CUP/FP** - Hold Public Hearing and Consider Recommending Approval of a Request from Allen Anderson for a Conditional Use Permit for a Car Wash in a General Retail District and Approval of a Site Plan and Final Plat for a Car Wash to be Located on Yellowjacket Lane West of SH-205

Item Generated By: Applicant, Allen Anderson

Action Needed: Hold public hearing and take any necessary action.

Background Information:

Mr. Anderson has submitted a request for a car wash to be located on Yellowjacket Lane, west of SH-205 behind the EZ Mart and north of Walmart. This site is a part of the old Independent Bank site. We have had problems with this property because it has been used for parking by large 18 wheel trucks in the past. The site is bounded by the Walmart drive and parking area on the west and south, and by an existing drive to the east. It fronts on Yellowjacket. Mr. Anderson owns the bank property and the vacant area to the east of this site, but only plans to develop this site at this time. Our comments are as follows:

CUP - A car wash is permitted as a conditional use in General Retail. This location has good access from both 205 and from Yellowjacket. The facility will have all brick walls with a metal mansard roof. The drying area to the rear of the wash bays will be roofed. The facility will be lit from under the roof and by wall mounted lights.

Site Plan/Final Plat - The site plan generally complies with our requirements. They need to add an additional 3 feet of depth along the frontage landscaping to meet the minimum area requirement. The site plan shows one drive entering the property from Yellowjacket. There is an existing drive adjacent to either side of this lot, which are both offsite. The western drive belongs to the shopping center and the owner does not have access rights to that drive. In fact there is a curb along that property line. The drive to the east belongs to Mr. Anderson as a part of the adjacent tract. These three drives, including the proposed new drive, are approximately 60 feet apart. Mr. Anderson has a total of 370 feet of frontage on Yellowjacket, which would allow him the opportunity for two drive openings on Yellowjacket. It has been indicated to Mr. Anderson that if this site plan is approved that the drive to the east will need to serve as his only access into that undeveloped lot to the east. This should be made a condition of approval if the site plan is approved. Mr. Anderson is aware of this condition.

Mr. Anderson is pursuing the possibility of not using the proposed drive but of rather obtaining permission from the shopping center for access onto their drive. If that is worked out Mr. Anderson would be willing to delete the drive onto Yellowjacket in order to allow him an opportunity for a future drive into the undeveloped eastern tract. He does not want this possible change to delay his construction.

The final plat meets our minimum requirements. He is providing right of way for the widening of Yellowjacket and he is providing an access easement on the eastern property line.

We would recommend approval of the request with the following conditions:

1. That development comply with the site plan and elevations as approved. Any significant change in the site plan must be approved by the Planning and Zoning Commission.
2. That any lighting used must be shielded so as not to glare onto any adjacent property or onto the street.
3. That the drive onto Yellowjacket into the car wash site is allowed only with the stipulation that there will be no additional drives permitted on the 370 feet of frontage along Yellowjacket, currently owned by Mr. Anderson. If Mr. Anderson is able to negotiate access from the shopping center drive he will eliminate the proposed drive off of Yellowjacket and he will then be able to utilize an additional drive on the undeveloped eastern lot.
4. The landscaped area along the frontage shall be increased to provide the required landscape.

Agenda Item: **P&Z 92-2-CUP/FP** - Hold Public Hearing and Consider Approval of an Ordinance Granting a Request from Allen Anderson for a Conditional Use Permit for a Car Wash in a General Retail District and Approval of a Site Plan and Final Plat for a Car Wash to be Located on Yellowjacket Lane West of SH-205

Item Generated By: Applicant, Allen Anderson

Action Needed: Hold public hearing and take any necessary action.

Background Information:

Mr. Anderson has submitted a request for a car wash to be located on Yellowjacket Lane, west of SH-205 behind the EZ Mart and north of Walmart. This site is a part of the old Independent Bank site. We have had problems with this property because it has been used for parking by large 18 wheel trucks in the past. The site is bounded by the Walmart drive and parking area on the west and south, and by an existing drive to the east. It fronts on Yellowjacket. Mr. Anderson owns the bank property and the vacant area to the east of this site, but only plans to develop this site at this time. Our comments are as follows:

CUP - A car wash is permitted as a conditional use in General Retail. This location has good access from both 205 and from Yellowjacket. The facility will have all brick walls with a metal mansard roof. The drying area to the rear of the wash bays will be roofed. The facility will be lit from under the roof and by wall mounted lights.

Site Plan/Final Plat - The site plan generally complies with our requirements. They need to add an additional 3 feet of depth along the frontage landscaping to meet the minimum area requirement. The site plan shows one drive entering the property from Yellowjacket. There is an existing drive adjacent to either side of this lot, which are both offsite. The western drive belongs to the shopping center and the owner does not have access rights to that drive. In fact there is a curb along that property line. The drive to the east belongs to Mr. Anderson as a part of the adjacent tract. These three drives, including the proposed new drive, are approximately 60 feet apart. Mr. Anderson has a total of 370 feet of frontage on Yellowjacket, which would allow him the opportunity for two drive openings on Yellowjacket. It has been indicated to Mr. Anderson that if this site plan is approved that the drive to the east will need to serve as his only access into that undeveloped lot to the east. This should be made a condition of approval if the site plan is approved. Mr. Anderson is aware of this condition.

Mr. Anderson is pursuing the possibility of not using the proposed drive but of rather obtaining permission from the shopping center for access onto their drive. If that is worked out Mr. Anderson would be willing to delete the drive onto Yellowjacket in order to allow him an opportunity for a future drive into the undeveloped eastern tract. He does not want this possible change to delay his construction.

The final plat meets our minimum requirements. He is providing right of way for the widening of Yellowjacket and he is providing an access easement on the eastern property line.
