Owner Tenant

Prospective Purchaser

Legal description of property for which Conditional Use Permit is requested (if additional space is needed, the description may be typed legibly on a separate sheet and attached hereto) 2
ATTACHED HERETO

I hereby request that a Conditional Use Permit be issued for the above described property for:
A Retail Mobile Home Sales Lot

The current zoning on this property is Agriculture.
There are/are not deed restrictions pertaining to the intended use of this property.

I have attached hereto as Exhibit A a plat showing the property which is the subject of this requested Conditional Use Permit and have read the following note concerning the importance of my submitting to the City a sufficient legal description.

Law Blankenship

1

If the applicant is someone other than the owner, written acknowledgement by the owner of the request must also be submitted.

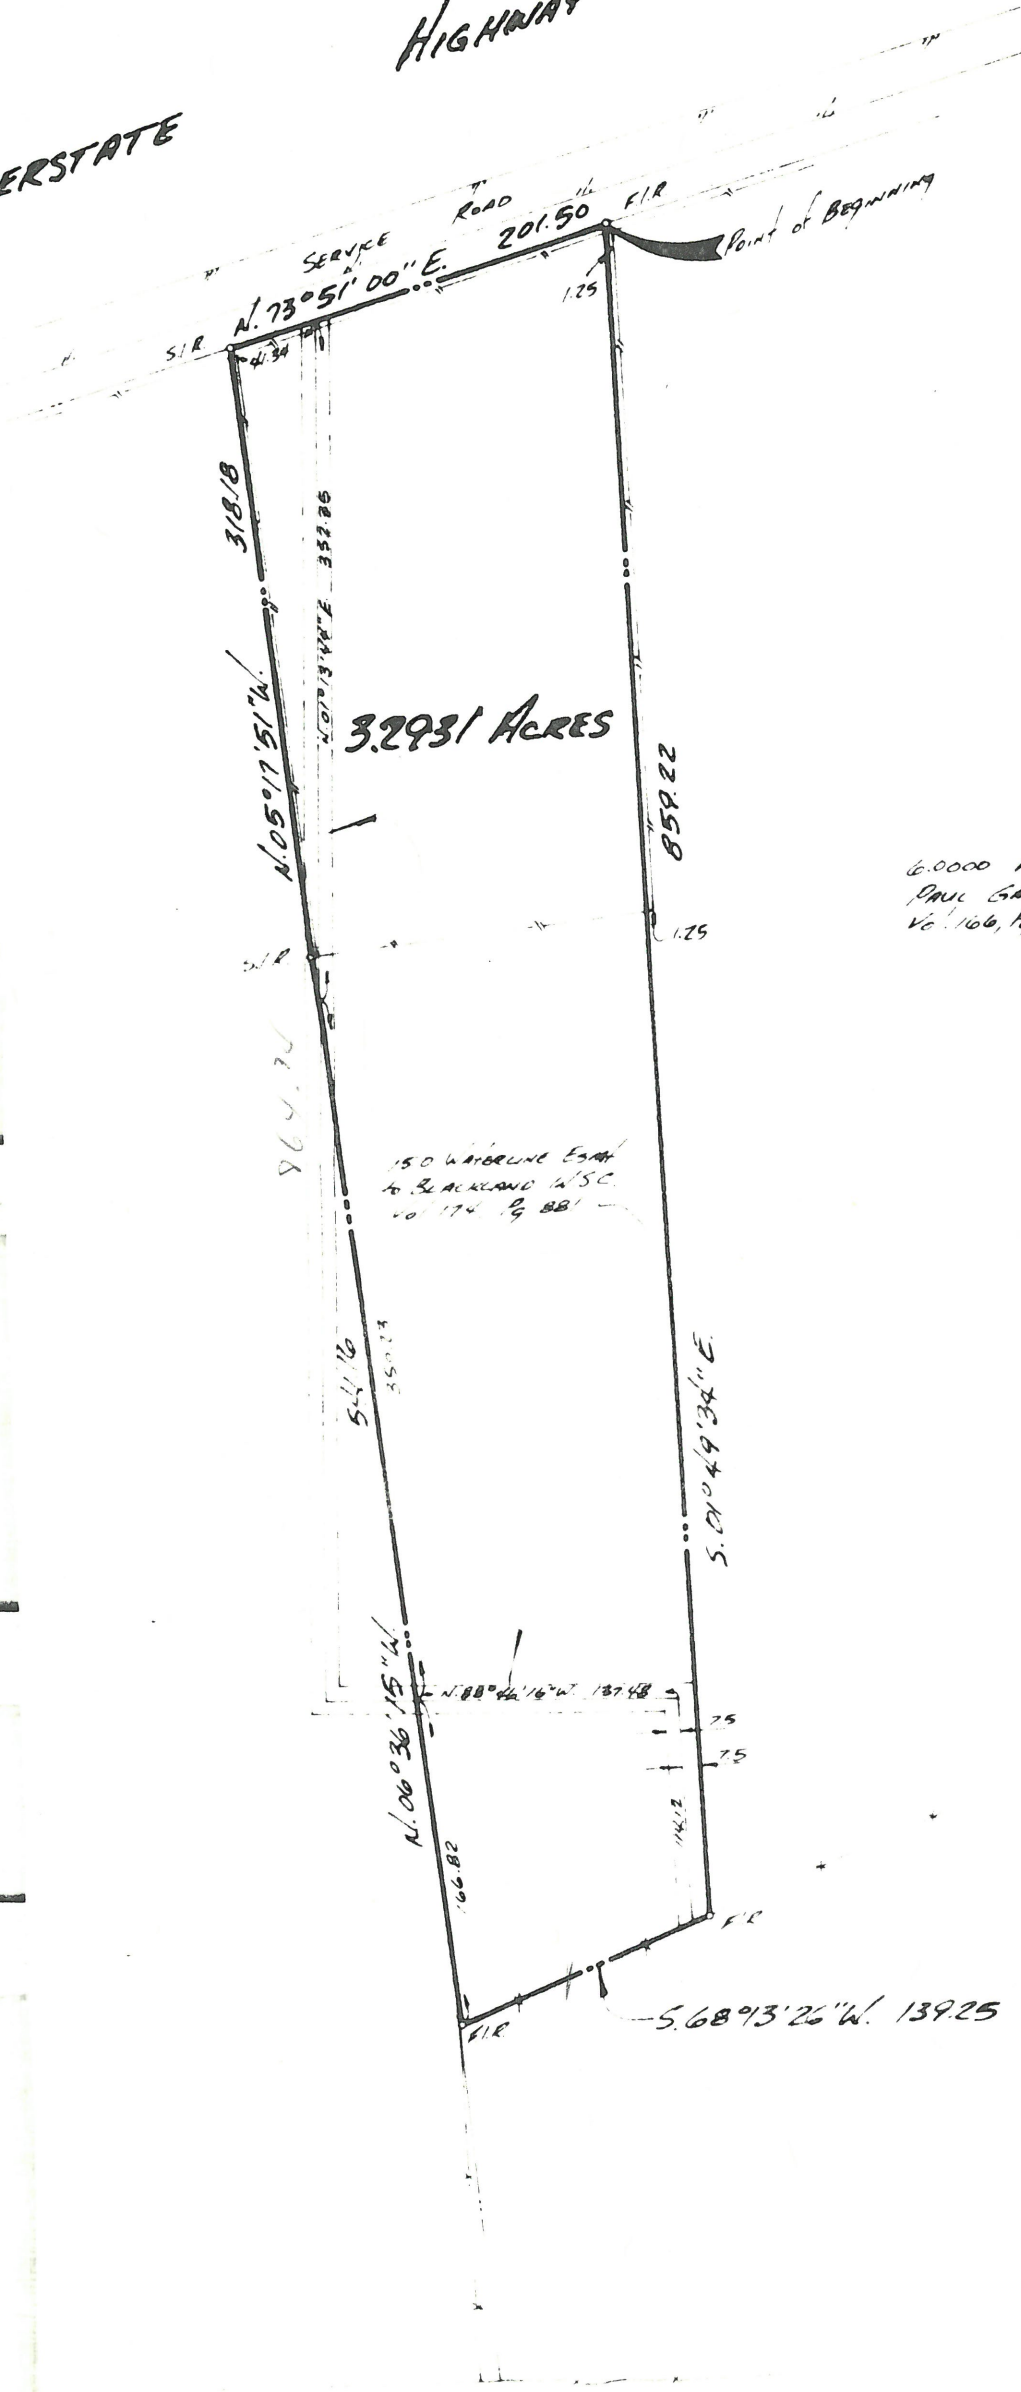

2

The legal description is used to publish the notice of the required hearing and in the preparation of the final ordinance granting the Conditional Use Permit. The description must be sufficient so as to allow a qualified surveyor to take the description and locate and mark off the tract on the ground. Each applicant should protect himself by having a surveyor or his attorney approve his legal description. Failure to do so by the applicant may result in delay in passage of the final ordinance or the ordinance being declared invalid at some later date because of an insufficient legal description.

Planning and Zoning Agenda

Agenda Date: August 12, 1993

Agenda No: III. B.

Agenda Item: P&Z 93-31-Z - Hold Public Hearing and Consider Reocmmending Approval of a Request from GAR Enterprises for a Change in Zoning from "A" Agricultura. to "Hwy C" Highway Commercial Zoning Classification and Approval of a Conditional Use Permit for the Outside Display of Large Inventory Items on 3.2 acre Tract of Land Located on I-30 East of SH-205

Item Generated By: Applicant, GAR Enterprises

Action Needed:

Background Information:

This request has been made by the applicant in order to open a retail mobil home sales office at this location. The site is located on the south side of I-30 east of High School Road. The site was annexed by the City in 1986 and at the time of annexation the site was occupied by a mobile home sales office. Since that time the site has been vacated and it has been determined that the nonconforming status of the property for a mobile home sales facility has ceased. The owner now wishes to reopen the original use and he has made application for Highway Commercial in order to do so. Under the provisions of the conditional use permit for such outside display there are several minimum conditions that must be met. Any parking lot lighting must be directed and not glare onto adjacent property or onto a roadway. The storage and display area must be paved to City standards. A 3 foot hedge must be planted along the road frontage to provide a buffer from the roadway. No more than 50 % of the front 100 feet of property depth can be used for display. The applicant has requested permission to use gravel parking rather than asphalt or concrete. A portion of the lot is currently rocked, but additional rock would have to be provided. Using the same per square foot estimate as was used in the request that was approved last month for a similar use, it is estimated that the cost of asphaltting one half of the front 100 feet of the site would total approximately \$14,500.

The issues that need to be addressed by the Commission are 1) do you wish to approve the land use as requested and 2) if approved, do you wish to grant a waiver to the parking lot standards. This site is approximately 1,450 feet from the existing moblie home sales facility located west of FM-549 and it is approximately 3100 feet from the site approved last month. It is also located next to a miniwarehouse facility on the west and an existing auction facility on the east.

If approval is recommended we would also recommend that the following requirements be established for the mobile home sales operation;

1. that all used structures be stored in the rear of the property behind a line parallel with the rear of the building.
2. that the property within 100 feet of the front property line to be used as display area be designated on the site with the use of decorative fencing or other decorative material.
