SUBJECT: Preliminary Plat of Windmill Ridge Estates - Shepherd Place Homes, Inc.
DATE: October 28, 1993

Issue:

We have reviewed the above referenced subject and offer the following comments:

Comments:

1. The residential use proposed for this site is not in agreement with the Comprehensive Plan. The Comprehensive Plan indicates this site as being commercial. However, the PD, developed in 1981, pre-exists the Comprehensive Plan, which was developed in 1984. The proposed preliminary plat is in compliance with zoning as approved for this location.
2. Woodcreek and Westwood Drive should be shown as through streets. The other streets should cul-de-sac.
3. The applicant will need to provide funds in lieu of parkland, at the time of final platting.
4. The appropriate street dedication, and the financial commitment as required by the City Engineer, will need to be provided.

SUBJECT: Rezoning of PD containing Windmill Ridge Estates
DATE: December 4, 1993

Comments:

1. The original PD required a minimum lot depth of 110 feet. Because of physical limitations placed upon this site, it has been determined that it is not possible to develop the site in accordance with the drawing provided in the PD. Therefore the applicant has proposed to revise the PD to allow lot depths of 100 feet minimum on nine lots.
2. We recommend that the applicant designate which lots are to be revised and that the drawing containing those lots be included as an exhibit with this zoning request.

PZ 93-37-Z Hold Public Hearing and Consider Recommending Approval of a Request from First Madison Bank for a change in Zoning from "MFG-15" Multi Family 15 and "GR" General Retail zoning classification to "PD" Planned Development zoning classification for a tract of land located at 1000 Yellowjacket Lane and further described as Canyon Ridge Apartments.

Van Ewing asked Dennis Mitchell to act as Chairman during the first case due to a conflict of interest as Van Ewing represents First Madison Bank on other properties in Rockwall.

Douphrate outlined the applicant's request for the commission and recommended approval of the request provided the maximum density of 22.3 be permitted and an As Built Development Plan be submitted for record.

Steve Church representing the First Worthington Company addressed the commission. He explained to the commission that the property had been foreclosed on and the prospective buyer was unable to get financing for the property until it conforms to proper zoning.

After considerable discussion regarding the case Dennis Mitchell made a motion to approve the request from "GR" to "PD" provided that a maximum density of 22.3 units per acre and an As Built Development Plan be submitted for record. Ginger Baugh seconded the motion. The motion was voted on and passed unanimously.

Van Ewing returned as Chairman.

PZ 93-38-PP Discuss and Consider Recommending Approval of a Request from Harold Evans for a Preliminary Plat for Windmill Ridge Estate/ Shepherd Place Homes for a tract of land located on FM 3097.

This case was tabled to a later date.

Agenda Date: December 9, 1993

Agenda Item: P&Z 93-38-Z - Hold Public Hearing and Consider Recommending Approval of a Request from Shepherd Place Homes for a change in an Amendment to Planned Development 13 to amend the minimum lot depth required on certain lots from 110 feet to 100 feet and consider Recommending Approval of a Request for a Preliminary Plat for property located at Windmill Ridge Estates

Item Generated By: Applicant, Shepherd Place Homes

Action Needed: Hold Public Hearing and Take Necessary Action.
Consider Recommending Approval to Amend Planned Development 13 "PD13" to amend the required minimum lot depth from 110 feet to 100 feet. Consider Recommending Approval of a Preliminary Plat for Windmill Ridge Estates.

Background Information: Due to the physical limitations placed upon the site, the applicant cannot adhere to the original PD Site Plan. The applicant is therefore requesting an amendment to the PD to allow nine (9) lots with a minimum of 100 feet in lot depth. Presently PD13 requires a minimum lot depth of 110 feet.

The proposed preliminary plat does not conform to the original site plan layout filed of record because of the physical restriction of property. The applicant has attempted to revise the layout maintaining the greatest number of lots having a minimum lot depth of 110 feet. The remaining lots being 100 feet in depth. The minimum area requirement for the PD is 6600 square feet. None of the proposed lots fall below the minimum requirement. Other comments from the planning Consultant are provided on the attached memorandum. The City will require the developer to escrow the cost to build 2 lanes of the proposed 6 lane divided thoroughfare since this property is shown to be located adjacent to the future thoroughfare. This escrow will be due when the final plat is submitted for approval.

Recommendations: Staff recommends approval of a Zoning Request provided the applicant designate on an exhibit drawing which 9 lots are to be revised. The exhibit will be filed for record with the PD. Staff recommends approval of the Preliminary Plat.

Therefore the applicant has proposed to revise the PD to allow lot depths of 100 feet minimum on nine lots.

**City of Rockwall
City Council Agenda**

Agenda Date: December 20, 1993

Agenda Item: P&Z 93-38-Z - Hold Public Hearing and Consider Recommending Approval of a Request from Shepherd Place Homes for a Change in an Amendment to Planned Development 13 to Amend the Minimum Lot Depth Required on Certain Lots from 110 feet to 100 Feet and Consider Recommending Approval of a Request for a Preliminary Plat for Property Located at Windmill Ridge Estates.

Item Presented By: Applicant, Shepherd Place Homes

Action Needed: Hold Public Hearing and Take Necessary Action. Consider Recommending Approval to Amend Planned Development 13 "PD13" to Amend the Required Minimum Lot Depth From 110 Feet to 100 Feet. Consider Recommending Approval of A Preliminary Plat for Windmill Ridge Estates.

Background Information:

Due to the physical limitations placed upon the site, the applicant cannot adhere to the original PD Site Plan. The applicant requested the Commission to consider recommending an amendment to the PD to allow nine (9) lots with a minimum of 100 feet in lot depth. Presently, PD13 requires a minimum lot depth of 110 feet. The Commission denied the zoning change and proposed preliminary plat.

The preliminary plat submitted to the Commission did not conform to the original site plan layout filed of record because of the physical restriction of property. The applicant has since attempted to revise the layout. This revised plat is enclosed for review. The revised plat shows all of the lots to have a minimum lot depth of 110 feet. The Commission has not been given the opportunity to review the revised layout. The minimum area requirement for the PD is 6600 square feet. None of the proposed lots fall below the minimum requirement. Other comments from the Planning Consultant are provided on the attached memorandum. The City will require the developer to escrow the cost to build 2 lanes of the proposed 6 lane divided thoroughfare since this property is shown to be located adjacent to the future thoroughfare. This escrow will be due when the final plat is submitted for approval.

Recommendation: The Commission's recommendations are to deny the original zoning change and preliminary plat submitted. The Commission's major concern was deviating from the PD's minimum lot depth requirements of 110 feet. Staff recommends sending the revised preliminary plat layout back to the Commission for further consideration since they have not had the opportunity to review and comment on the revisions presented herein.

MEMORANDUM

TO: Dub Douphrate, P.E.
FROM: Dan C. Boutwell, AICP
SUBJECT: Rezoning of PD containing Windmill Ridge Estates
DATE: December 4, 1993

Comments:

1. The original PD required a minimum lot depth of 110 feet. Because of physical limitations placed upon this site, it has been determined that it is not possible to develop the site in accordance with the drawing provided in the PD. Therefore the applicant has proposed to revise the PD to allow lot depths of 100 feet minimum on nine lots.
2. We recommend that the applicant designate which lots are to be revised and that the drawing containing those lots be included as an exhibit with this zoning request.

MEMORANDUM

TO: Dub Douphrate, P.E.
FROM: Dan C. Boutwell, AICP
SUBJECT: Preliminary Plat of Windmill Ridge Estates - Shepherd Place Homes, Inc.
DATE: December 4, 1993

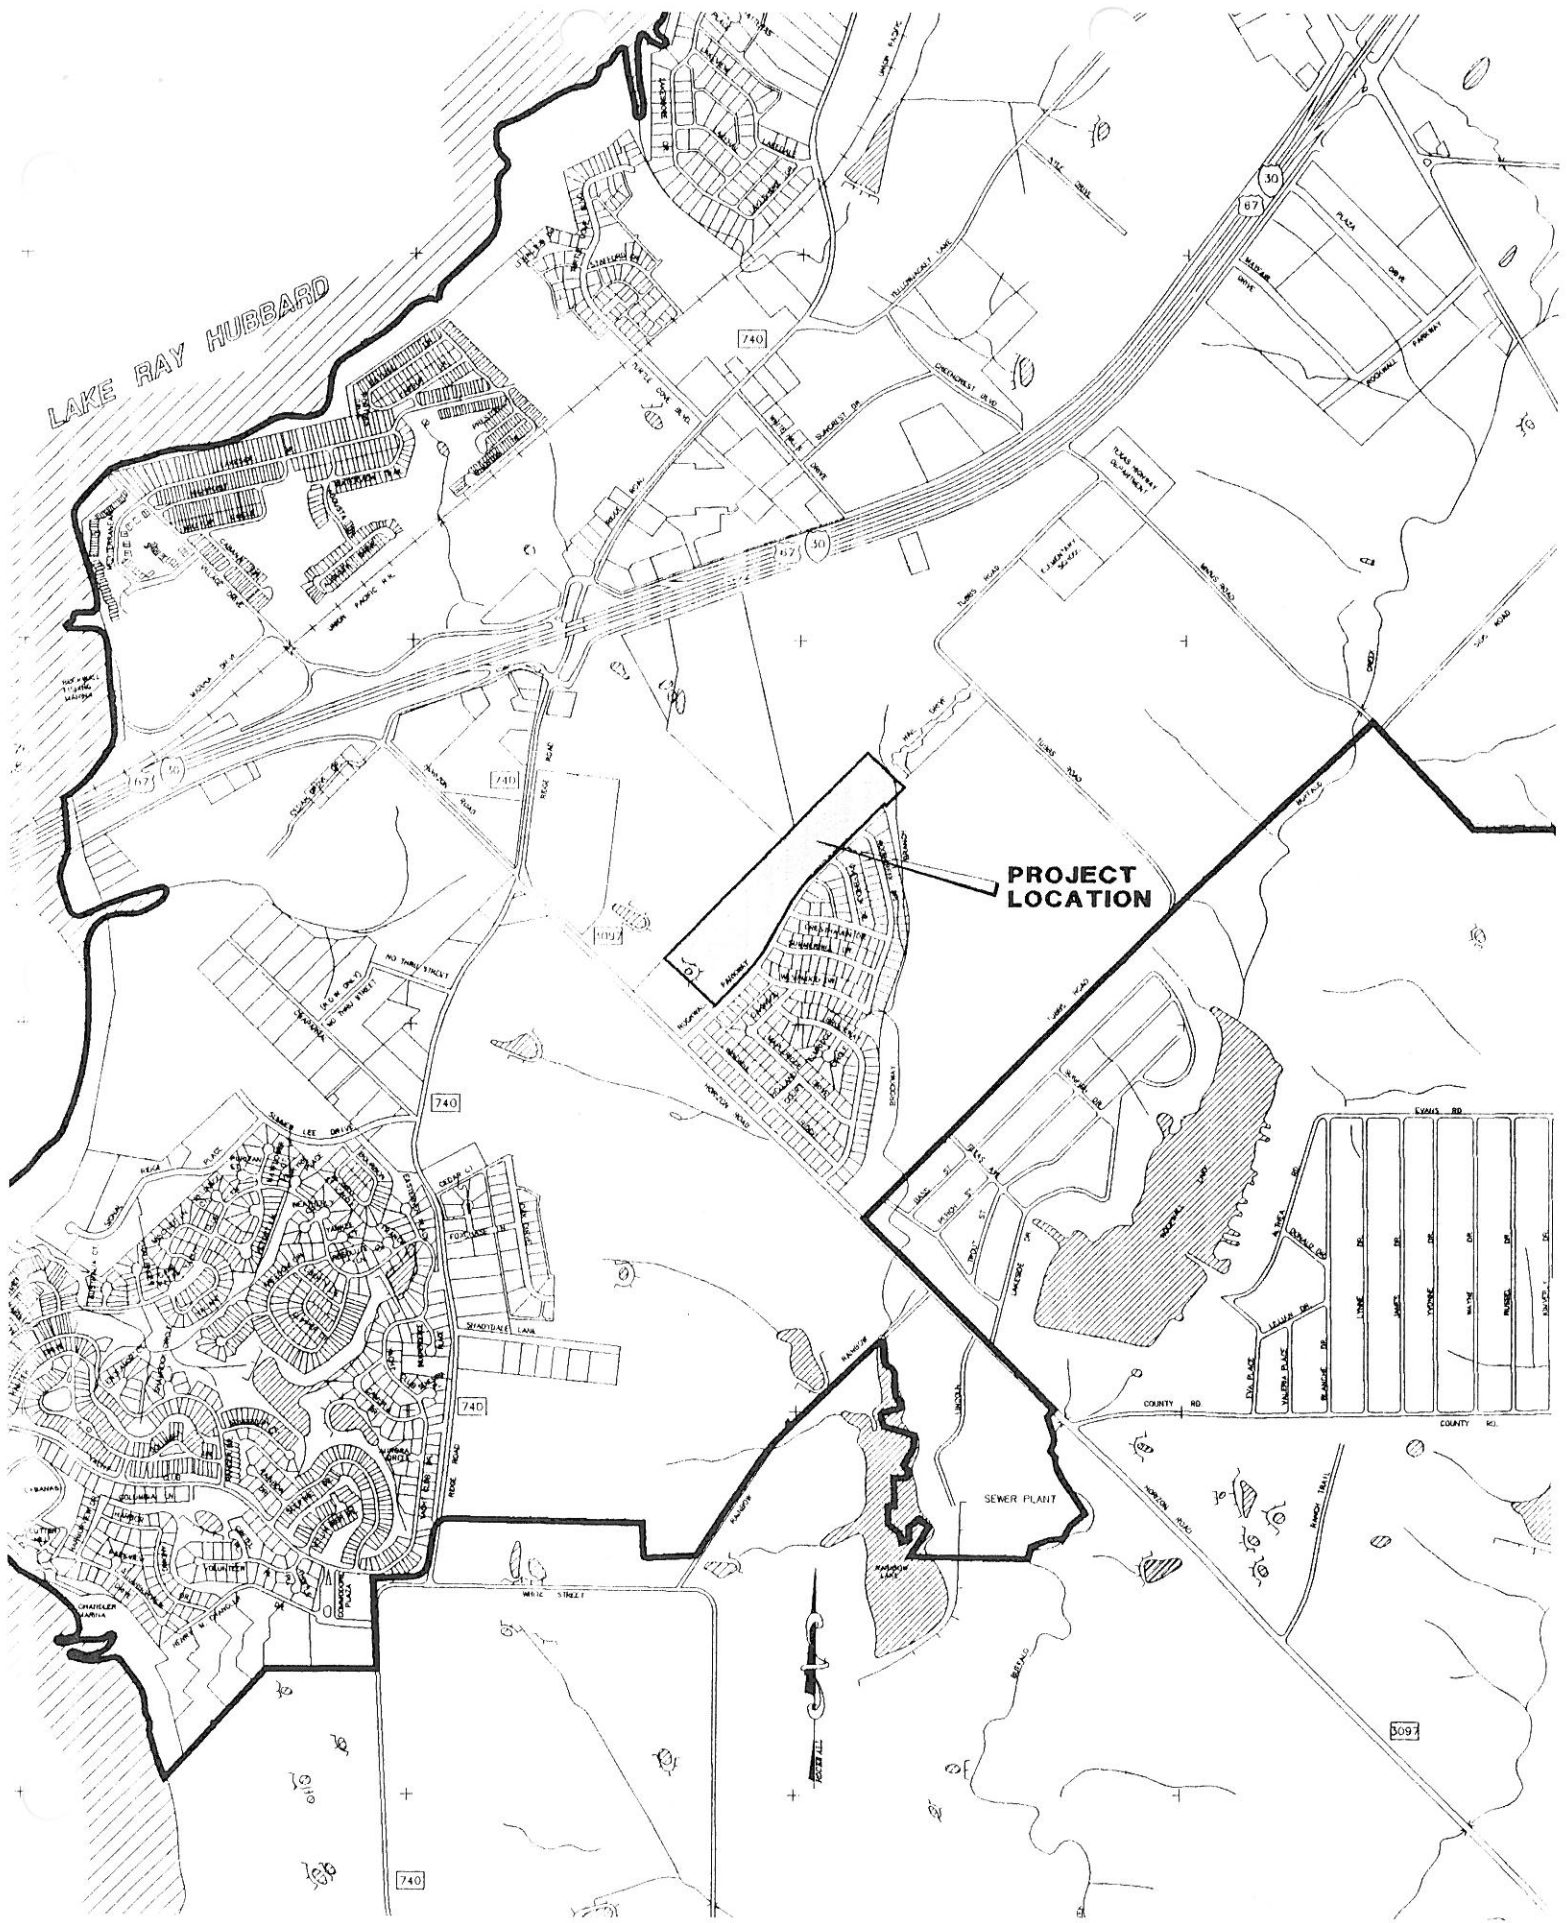

Issue:

We have reviewed the above referenced subject and offer the following comments:

Comments:

1. The residential use proposed for this site is not in agreement with the Comprehensive Plan. The Comprehensive Plan indicates this site as being commercial. However, the PD, developed in 1981, pre-exists the Comprehensive Plan, which was developed in 1984. The proposed preliminary plat is in compliance with zoning as approved for this location.
2. Several lots within this preliminary plat are not in compliance with the area requirement for depth as required in the PD. We would recommend that the applicant pursue revising the zoning on the PD to accommodate the proposed lot depths as proposed on the preliminary. The revision to the PD will need to be received prior to receiving approval of this preliminary plat.
3. The appropriate street dedication, and the financial commitment as required by the City Engineer, will need to be provided.
4. With the exception of the above listed items, this proposal appears to satisfy the original PD concept and the rules and regulations pertaining to platting of land by the City of Rockwall.

I am in favor of the request for the reasons listed below _____

I am OPPOSED to the request for the reasons listed below _____

1. The quality of the whole subdivision will diminish if the lot depth is changed from 110 feet to 100 feet. This means more houses could be built in the same amount of space. This would cause the aesthetically appealing "look" of the subdivision to be lost on that side. In other words, more houses being built in the same amount of space will cause the whole subdivision to look too crowded. This could even cause property values to go down on the side of the subdivision where residents currently have homes. The only reason the builder wants the lot depth changed is to make more money for himself - not to better the current subdivision. I see no reason why the lot depth should be changed.
2. There will be more pedestrian/vehicle accidents prone to happen since Rockwall Parkway will have more traffic than it is currently built to handle, i.e., more children playing and more vehicles do not equal safety.
3. Builders are currently working "around the clock" to finish the houses in the main subdivision area as it is. Current residents don't want another year (or two) of their subdivision being torn up, dirty, and in a state of disarray.
