APPLICATION FOR ZONING CHANGE

Case No. 93-43-PP Filing Fee \$ 482.50 Date 11-1-93

Applicant CARDON Lake Development Corp Phone 771 5253

Mailing Address: PO BX 369, Rockwall TX 75087.

LEGAL DESCRIPTION OF PROPERTY SOUGHT TO BE REZONED: (If additional space is needed for description, the description may be put on a separate sheet and attached hereto.)

38.25 Acres - see attached

I hereby request that the above described property be changed from its present zoning which is

D of Multi Family, Office, General Retail, Single Family District Classification to

SF7 District Classification for the following reasons: (attach separate sheet if necessary)

There (are) (are not) deed restrictions pertaining to the intended use of the property. Not yet drafted, but will be

Status of Applicant ² Owner X Tenant _____
Prospective Purchaser X

I have attached hereto as Exhibit "A" a plat showing the property which is the subject of this requested zoning change and have read the following concerning the importance of my submitting to the City a sufficient legal description.

Prospective Purchaser: Signed R. W. White, President
CARDON Lake Development Corp

owner: [Signature] Individually

Note:

1

The legal description is used to publish notice of the required hearing and in the preparation of the final ordinance granting the zoning change. The description must be sufficient so as to allow a qualified surveyor to take the description and locate and mark off the tract on the ground. Each applicant should protect himself by having a surveyor or his attorney approve his legal description. Failure to do so by the applicant may result in delay in passage of the final ordinance or the ordinance being declared invalid at some later date because of an insufficient legal description.

2

If the applicant is someone other than the owner, written acknowledgement by the owner of the zoning request must also be submitted.

NOW THEREFORE KNOW ALL MEN BY THESE PRESENTS:

THAT CARUTH LAKE DEVELOPMENT CORPORATION is the owner of said tract and does hereby adopt this plat designating the hereinabove described property as Caruth Lake Phase One, an Addition to the City of Rockwall, Rockwall County, Texas, and does hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction maintenance, or efficiency of their respective system on any of these easements strips; and any public utility shall have the right to public ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in this subdivision.

No house, dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until such time as the developer has complied with all requirements of the Platting Ordinance of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the acutal installation of streets with the required base and paving, curb and gutter, drainage structures, and storm sewers, all according to the specifications of the City of Rockwall.

It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer and storm drainage systems have been accepted by the City. The approval of a plat by the City does not constitute any representation, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, nor shall such approval constitute any representation, assurance or guarantee by the City of the adequacy and availability of water for personal use and fire protection within such plat, as required under Ordinance 83-54.

MEMORANDUM

TO: Dub Douphrate, P.E.
FROM: Dan C. Boutwell, AICP
SUBJECT: Caruth Lake Final Plat
DATE: February 7, 1994

Description:

The applicant proposes to construct Phase I of a 38 acre subdivision. Phase I consists of approximately 17.6 acres. We offer the following comments and recommendations:

1. The submitted Final Plat of Caruth Lake Addition is in agreement with the approved Preliminary Plat and is in compliance with the rules and regulations pertaining to the platting of land with in the City of Rockwall, with the exception of item 2 below.

2. Previous submittal of this Final indicated a divided entrance way into the subdivision. This entrance had the potential of being a traffic hazard. The applicant has subsequently submitted a revised Plat. Because the revisions has been submitted late, we would recommend that action relative to this application be delayed until adequate opportunity for review of the engineering elements has been provided. If the applicant does not agree to postpone action to a later date, we would recommend that the Final Plat be denied. The applicant would then have an opportunity to resubmit the Final Plat and provide sufficient time to review the engineering elements.

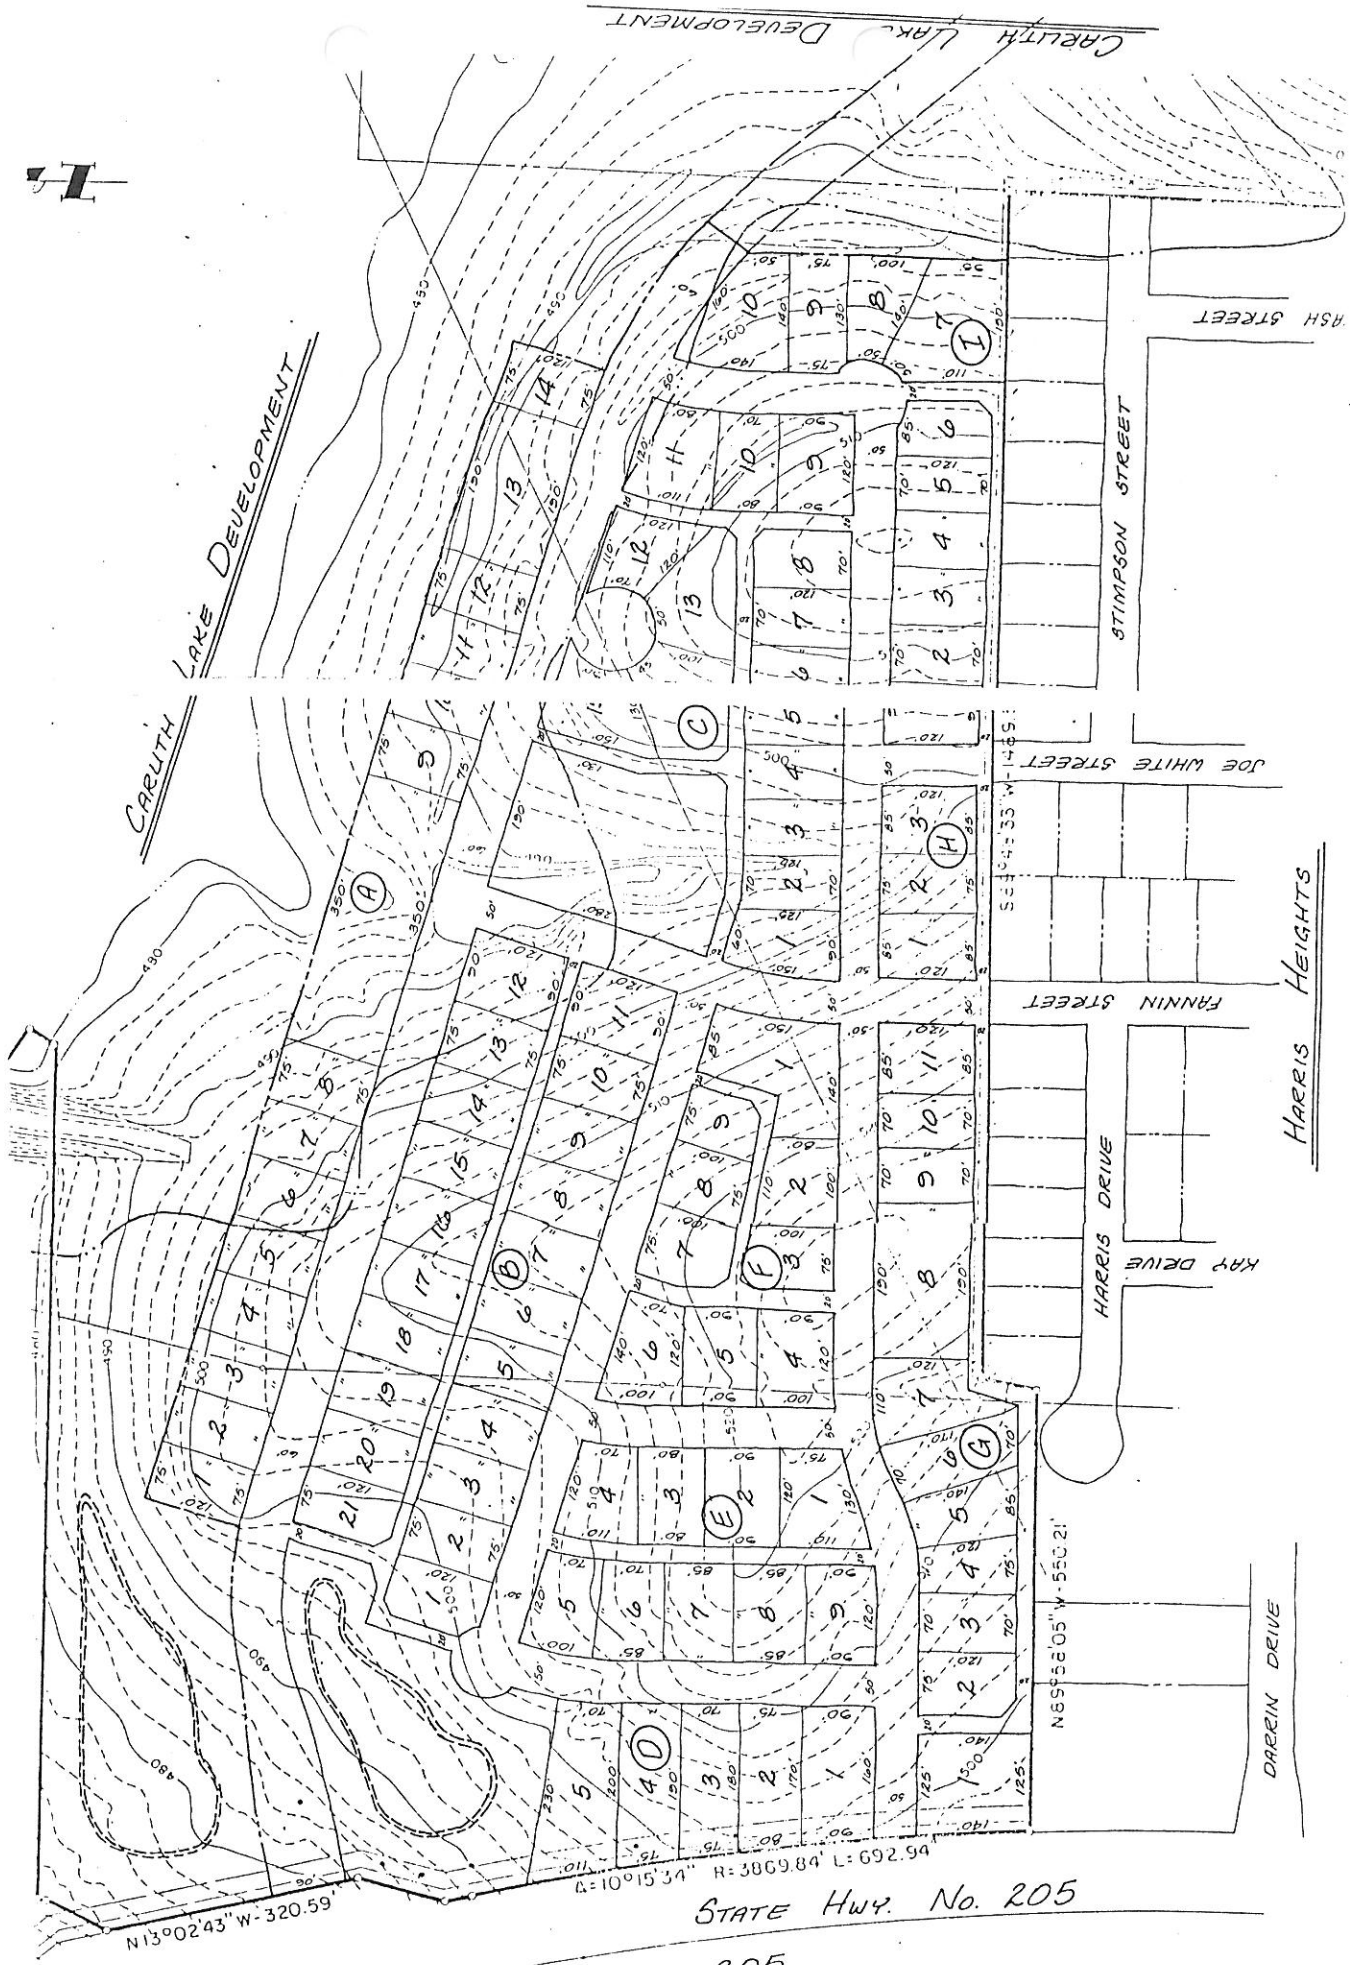

MEMORANDUM

DATE: February 25, 1994
TO: Members of the Planning & Zoning Commission
FROM: Julie Couch, City Manager
RE: Revised Agenda for February 28, 1994 meeting

Attached is a revised agenda for Monday night. As had been previously dismissed, both the active items that were to have been considered on February 10, 1994, and the work session items that would have been scheduled on February 24, 1994 are scheduled for Monday night. The only addition to the action items is the amendment to the thoroughfare plan and the final plat for the Caruth Development. The Chairman agreed to act on these items at the February 24, 1994 work session in order to allow the application to go forward to the Council at their March 7, 1994 meeting.

The amendment to the thoroughfare plan is to revise the alignment and width of Alamo Road from a 4 lane divided roadway to a 7 lane undivided collector. This alignment was approved in concept during the Zoning of the Caruth Development. We would recommend approval. A copy of the thoroughfare plan review is again included in your packet.

The final plat for Phase 1 of Caruth Lake has been revised in accordance with our requirements. We have not completely finalized the engineering review and we would recommend approval with the stipulation that engineering review be completed prior to council action.

Planning and Zoning Agenda**

Agenda Date: December 9, 1993

Agenda Item: P&Z 93-43-2 - Discuss and consider recommending approval of a preliminary plat and final plat for Foxchase Development located at SH 740.

Item Presented By: Carruth Lake Development Corp.

Action Needed: Consider recommending approval of an amendment to PD-13 to amend the approved land uses on two tracts from MF & GR to SF residential and consider recommending approval of a preliminary plat.

Background Information: The applicant is requesting to revise 38.5 acres of the current PD-5 zoning from multifamily and general retail to single family residential. A total of 119 lots are proposed. The minimum lot size is 7,500 square feet. The City staff requested a traffic consultant to analyze the current and future traffic patterns of this general area to determine if an arterial would still be required. The analysis was completed and determined the roadway would be reduced to an undivided collector. A portion of the collector is shown as part of the proposed preliminary plat. The original PD-5 also requires a park plan which is being developed and will be presented to the Park Board this week. Their recommendations will be forthcoming. The applicant is requesting the Commission to consider recommendations to approve a preliminary plat on the subject 38.5 acre tract.

Recommendation: The Staff recommends the PD-5 zoning be amended revising the current zoning of the 38.5 acre tract from MF & GR to SF with a minimum lot size of 7,500 square feet. The staff recommends approval of the preliminary plat contingent upon the following:

1. That the proposed park concept plan be approved with the preliminary plat and a facilities agreement outlining the park land dedication be submitted along with the final plat.
2. That the Thoroughfare Plan be revised when the final plat is submitted for approval.

TO: Dub Douphrate, P.E.
FROM: Dan C. Boutwell, AICP
SUBJECT: Caruth Lake Preliminary Plat
DATE: December 4, 1993

Description:

The applicant proposes to amend 38.5 acres of PD 5. This proposal will replace some multi-family and retail area that was proposed on the original PD. The applicant proposes to develop the area with 119 residential lots. The development is adjacent to Caruth Lake.

The original PD-5 indicated that at the time of development of the PD, the City would prepare a park plan defining the area required for park space. In accordance with the requirement of the PD, a Caruth Lake Park Development Plan has been prepared. As a result of the analyses, it has been determined that the development adjacent to the lake will have a significant impact on the character of the Park Development Plan for the lake. Therefore it would be beneficial, to the developer and the City alike, if land development plans adjacent to Caruth Lake could be coordinated with the proposed park plans.

In addition, a thoroughfare analysis has been completed by the City's traffic engineer. This analysis addresses the impact of the extension of Alamo, which is indicated on the Thoroughfare Plan as a M-4-D. The traffic engineer has determined that this roadway may be reduced to a collector category and adequately serve the community.

Comments:

1. The applicant has coordinated the lot layout in accordance with the proposed Caruth Lake Park Plan and with the preliminary findings of the traffic engineer relative to the extension of Alamo St.

Memorandum

Page 2 of 2

2. It is our opinion that the proposed development is in agreement with development trends for this area. We also feel that development of this portion of the PD would be compatible with future changes in the overall PD design.
3. However, significant changes to the original PD are expected because of other issues:
 - a. Caruth Lake Park
 - b. Possible revision of the M-4-D thoroughfare
 - c. Location of the By-pass through the PD.

Because we feel that these issues will significantly affect the overall design of the PD, we recommend that PD-5 be analyzed by the applicant and appropriate revisions to the PD be effected.

PLANNING AND ZONING COMMISSION
Regular Meeting Minutes
February 28, 1994

5

I. CALL TO ORDER

10 The meeting was called at to order at 7:00 p.m by James Greenwalt with the following members present; Art Ruff, Van Ewing, Pat Friend, Terry Raulston, and Ginger Baugh.

II. PUBLIC HEARINGS/ZONING REQUESTS

15 93-46-Z RECOMMENDING APPROVAL FOR A REQUEST FROM MAHR DEVELOPMENT FOR A CHANGE IN ZONING FROM "PD-11", PLANNED DEVELOPMENT CLASSIFICATION FOR SINGLE FAMILY USES AND APPROVAL OF A PRELIMINARY PLAN AND AREA REQUIREMENTS ON A TRACT OF LAND CONTAINING APPROXIMATELY 145 ACRES LOCATED EAST OF NORTH LAKESHORE AND SOUTH OF ALAMO ROAD.

20 The applicant reviewed the changes they had made and their request, which included adding additional SF-10 size lots and clarifying the proposed amenities.

Summary of Commissioners comments regarding this request:

25 Mr.Ewing, was in favor of the request but was not comfortable with homes backing up to a four lane undivided roadway.

Mr.Ruff, Read a memo, expressing his opposition to the request.

30 Mr.Friend made a motion to recommend approval of a request from MAHR Development for a change in zoning from "PD-11", Planned Development Classification for single family uses and approval of a preliminary plan and area requirements on a tract of land containing approximately 145 acres located east of North Lakeshore and south of Alamo Road with the following conditions;

35 *

40 That the land uses; area requirements, including restrictions on garages on front entry lots and a minimum masonry requirements; preliminary plan; and amenities as submitted or as amended be approved with the application

* That the land use acreage as submitted be generally approved

45 * That the Developer shall dedicate 10 feet of ROW along N.Lakeshore adjacent to the
development in addition to the ROW necessary for construction of the roadway, in
conjunction with the first phase of development. The Developer shall also submit for
approval by the Commission and City Council a detailed screening/landscape plan for
50 N.Lakeshore and Alamo Road in conformance with the application. The plan shall at a
minimum contain screening walls/fences; sidewalks, which shall be curvelinear along N.
Lakeshore; sprinkler systems to irrigate the parkway and other landscaping; and vertical
landscaping to include trees and shrubs. A minimum of one large tree for every 50 feet
of frontage, as defined by the City's landscape ordinance, shall be provided along N.
Lakeshore. The detailed plan shall provide a phasing plan of improvements.

55 * That the Developer shall provide a linear greenbelt along and generally in the
configuration as shown on the preliminary plan. The greenbelt shall be cleared by the
Developer as required by City. Prior to the development of the first phase the Developer
shall submit for approval by the Commission and City Council a detailed plan for the
60 greenbelt in conformance with the application. The plans, at a minimum, shall include
a phasing plan of the improvements, location and design of the paved hiking path at a
minimum width of 6 feet, cross sections of the drainway and adjacent parkway, design
of any required drainage improvements including headwalls as required by the City,
public streets located along both sides of the drainway, and overall dimensions of the
65 greenbelt. At that time the City shall determine if said greenbelt shall be dedicated to
the City or privately maintained.

* The Developer may, if approved by the City, construct an amenity center in conjunction
with the development for the exclusive use of the residents of the district, in accordance
70 with the preliminary plan. Any such facilities shall be proposed in conjunction with
development of the first phase.

Mr.Ewing seconded the motion, the motion was voted on. The vote was 3 to 3 with Mr.Ewing,
Mr.Greenwalt, and Mr.Friend voted in favor and Mr. Ruff, Mr.Raulston, and Mrs.Baugh voting
75 in opposition.

Mr.Ruff stated he voted against the request due to the small lot sizes being requested.

80 Mr.Raulston stated he was opposed to the small lot size.

Mrs.Baugh stated she was also opposed to lot sizes under 10,000 square feet and was aware of
the public opposition regarding this request. She also had concerns with the lots backing up to
Alamo Road.

85 Mr.Friend stated to the Commissioners that there were other quality developments in Rockwall
with the same size lots.

Mr.Ewing stated he was in favor of the request.

Mr.Ruff stated he had talked to other people in the community that was opposed to the high density of the area due to the smaller lot sizes.

Mr.Greenwalt stated he was in favor of the request. He felt it was important to have the greenbelt, the landscaping and the buffering that the Developer has proposed

95 Mr.Ewing made a motion to move this case forward with the comments from the Commission to Council due to a the 3 to 3 vote.

Mr.Friend seconded the motion. The motion was voted on and passed unanimously.

100

**City of Rockwall
City Council Agenda**

Agenda Date: December 20, 1993

Agenda Item: P&Z 93-43-2 - Hold Public Hearing and Consider Recommending Approval for a Request from Carruth Lake Development Corp. for an Amendment to Planned Development 5 to amend the approved land uses on two tracts of land from Multi-Family and General Retail uses to Single Family residential on a portion of PD-5 and Consider Recommending Approval for a Preliminary Plat. The property is located North of Harris Heights Addition and East of SH 205.

Item Presented By: Carruth Lake Development Corp.

Action Needed: Hold Public Hearing and consider recommending approval of an amendment to PD-5 to amend the approved land uses on two tracts from MF & GR to SF residential and consider recommending approval of a preliminary plat.

Background Information: The applicant is requesting to revise 38.5 acres of the current PD-5 zoning from multifamily and general retail to single family residential. A total of 119 lots are proposed. The minimum lot size is 7,500 square feet. The City staff requested a traffic consultant to analyze the current and future traffic patterns of this general area to determine if an arterial would still be required. The analysis was completed and determined the roadway would be reduced to an undivided collector. A portion of the collector is shown as part of the proposed preliminary plat. The original PD-5 also requires a park plan which was developed and presented to the Park Board last week. Their recommendations are further described in the attached memorandum prepared by Mr. Rick Crowley, Director of Public Services. The applicant is requesting approval of a preliminary plat on the subject 38.5 acre tract.

Recommendation: The Commission recommends the PD-5 zoning be amended revising the current zoning of the 38.5 acre tract from MF & GR to SF with a minimum lot size of 7,500 square feet. The Commission recommends approval of the preliminary plat contingent upon the following:

1. That the proposed park concept plan be approved with the preliminary plat and a facilities agreement outlining the park land dedication be submitted along with the final plat.
2. That the Thoroughfare Plan be revised when the final plat is submitted for approval.

**MEMORANDUM**

TO: Dub Douphrate, P.E.
FROM: Dan C. Boutwell, AICP
SUBJECT: Caruth Lake Preliminary Plat
DATE: December 4, 1993

Description:

The applicant proposes to amend 38.5 acres of PD 5. This proposal will replace some multi-family and retail area that was proposed on the original PD. The applicant proposes to develop the area with 119 residential lots. The development is adjacent to Caruth Lake.

The original PD-5 indicated that at the time of development of the PD, the City would prepare a park plan defining the area required for park space. In accordance with the requirement of the PD, a Caruth Lake Park Development Plan has been prepared. As a result of the analyses, it has been determined that the development adjacent to the lake will have a significant impact on the character of the Park Development Plan for the lake. Therefore it would be beneficial, to the developer and the City alike, if land development plans adjacent to Caruth Lake could be coordinated with the proposed park plans.

In addition, a thoroughfare analysis has been completed by the City's traffic engineer. This analysis addresses the impact of the extension of Alamo, which is indicated on the Thoroughfare Plan as a M-4-D. The traffic engineer has determined that this roadway may be reduced to a collector category and adequately serve the community.

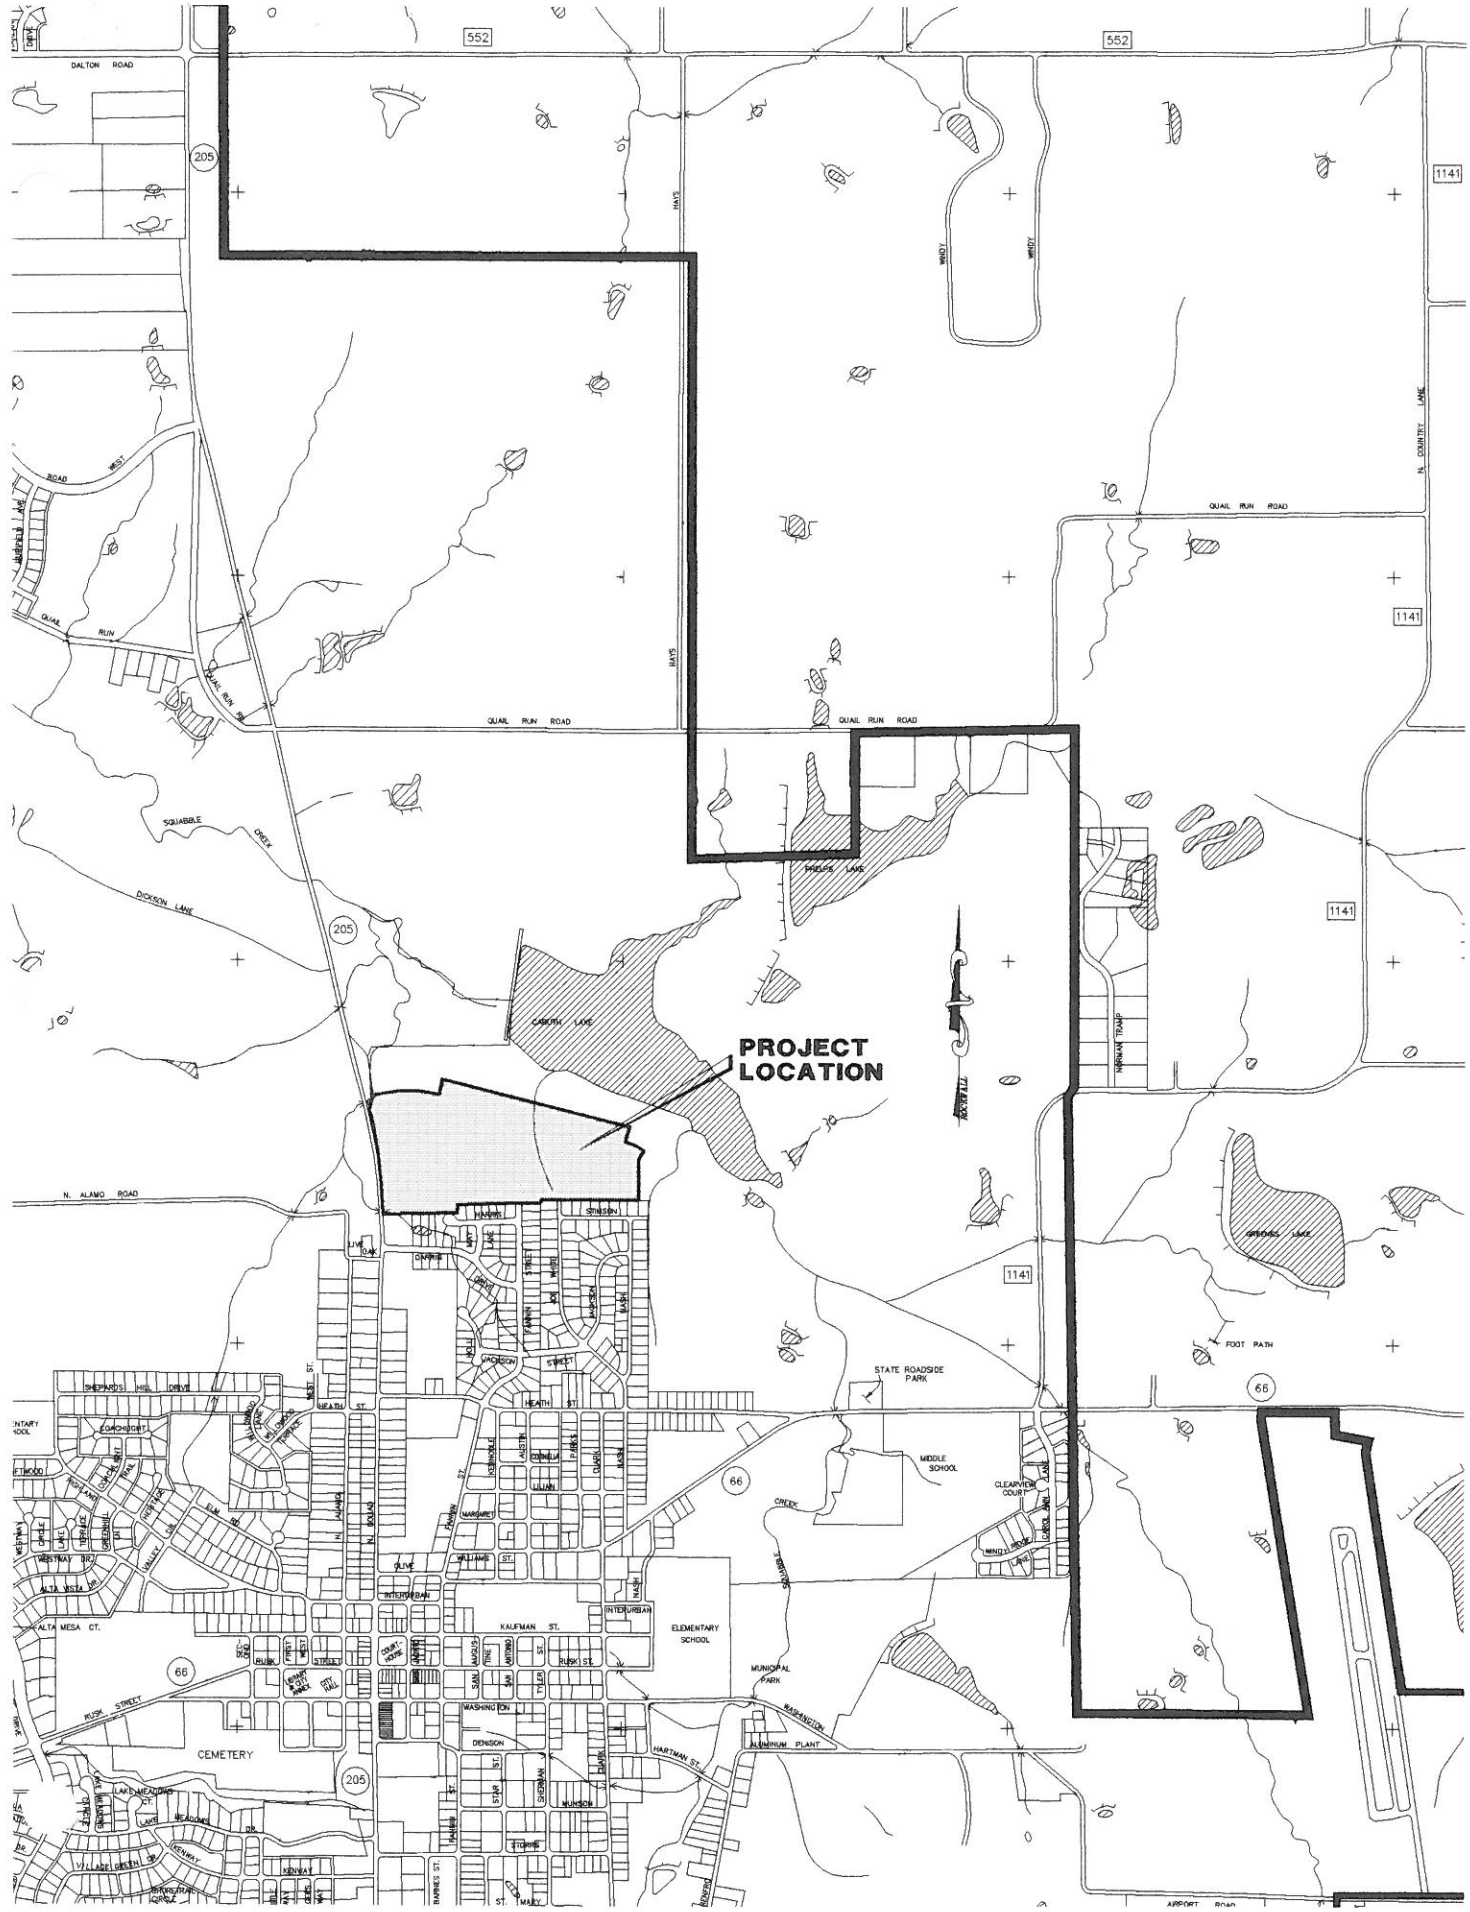

Comments:

1. The applicant has coordinated the lot layout in accordance with the proposed Caruth Lake Park Plan and with the preliminary findings of the traffic engineer relative to the extension of Alamo St.

Page 2 of 2

2. It is our opinion that the proposed development is in agreement with development trends for this area. We also feel that development of this portion of the PD would be compatible with future changes in the overall PD design.
3. However, significant changes to the original PD are expected because of other issues:
 - a. Caruth Lake Park
 - b. Possible revision of the M-4-D thoroughfare
 - c. Location of the By-pass through the PD.

Because we feel that these issues will significantly affect the overall design of the PD, we recommend that PD-5 be analyzed by the applicant and appropriate revisions to the PD be effected.

MEMORANDUM

DATE: December 15, 1993
TO: JULIE COUCH, CITY MANAGER
FROM: RICK CROWLEY, DIRECTOR OF PUBLIC SERVICES
SUBJECT: Agenda Item - Caruth Lake Preliminary Plat

The Parks and Recreation Board has reviewed the proposed preliminary plat for the Caruth Lake Addition, Phase I. The focus of the board's review relates to the Special Condition section of the ordinance for PD-5. These conditions contained the following general provisions:

- 1) That the developer would be responsible for providing a flood study to identify the 100-year flood plain; and
- 2) That the City would develop a park plan for use of the flood plain for parks and recreation purposes which would identify the area of the 100-year flood plain that would be appropriate for use as a park; and
- 3) The developer would dedicate the land determined appropriate for use as a park.

As you are aware the flood study has been completed, and the City has completed a proposed park plan. It should be noted that a trail through the PD-5 property is a very important key to implementation of the City's Parks Master Plan which was adopted in 1986. The trail shown in the plan would link with an extension of the Harry Myers Park trail through the school property to SH-66. At this point the trail would begin on the PD-5 property and follow the flood plain past Caruth Lake and across the dam (behind the YMCA) to SH-205 then turn North toward the future North Park indicated in the Master Plan.

The proposed plan showing a multi-purpose trail and passive park along the west side of Caruth Lake and a lesser trail forming a circular trail around the lake, as well as a trail leg which would go under the future by-pass to access Phelps Lake was presented to the Board. After discussion related to accessibility to the YMCA and whether this area would meet the needs of a neighborhood park, as well as serving as trail linkage, the Board heard from the developer. The developer indicated that he had reconfigured the lots shown on his original plat proposal to accommodate the trail/park plan. He advised the board that he was willing to agree contractually with the obligation running with the land to dedicate all of the flood plain property on the west side of the lake (including the larger 12-acre tract on the North and the larger 14-acre tract on the South part of the tract) and one half of the lake to the City. The agreement would provide that the land would be dedicated to the City as the City was ready to develop the park.

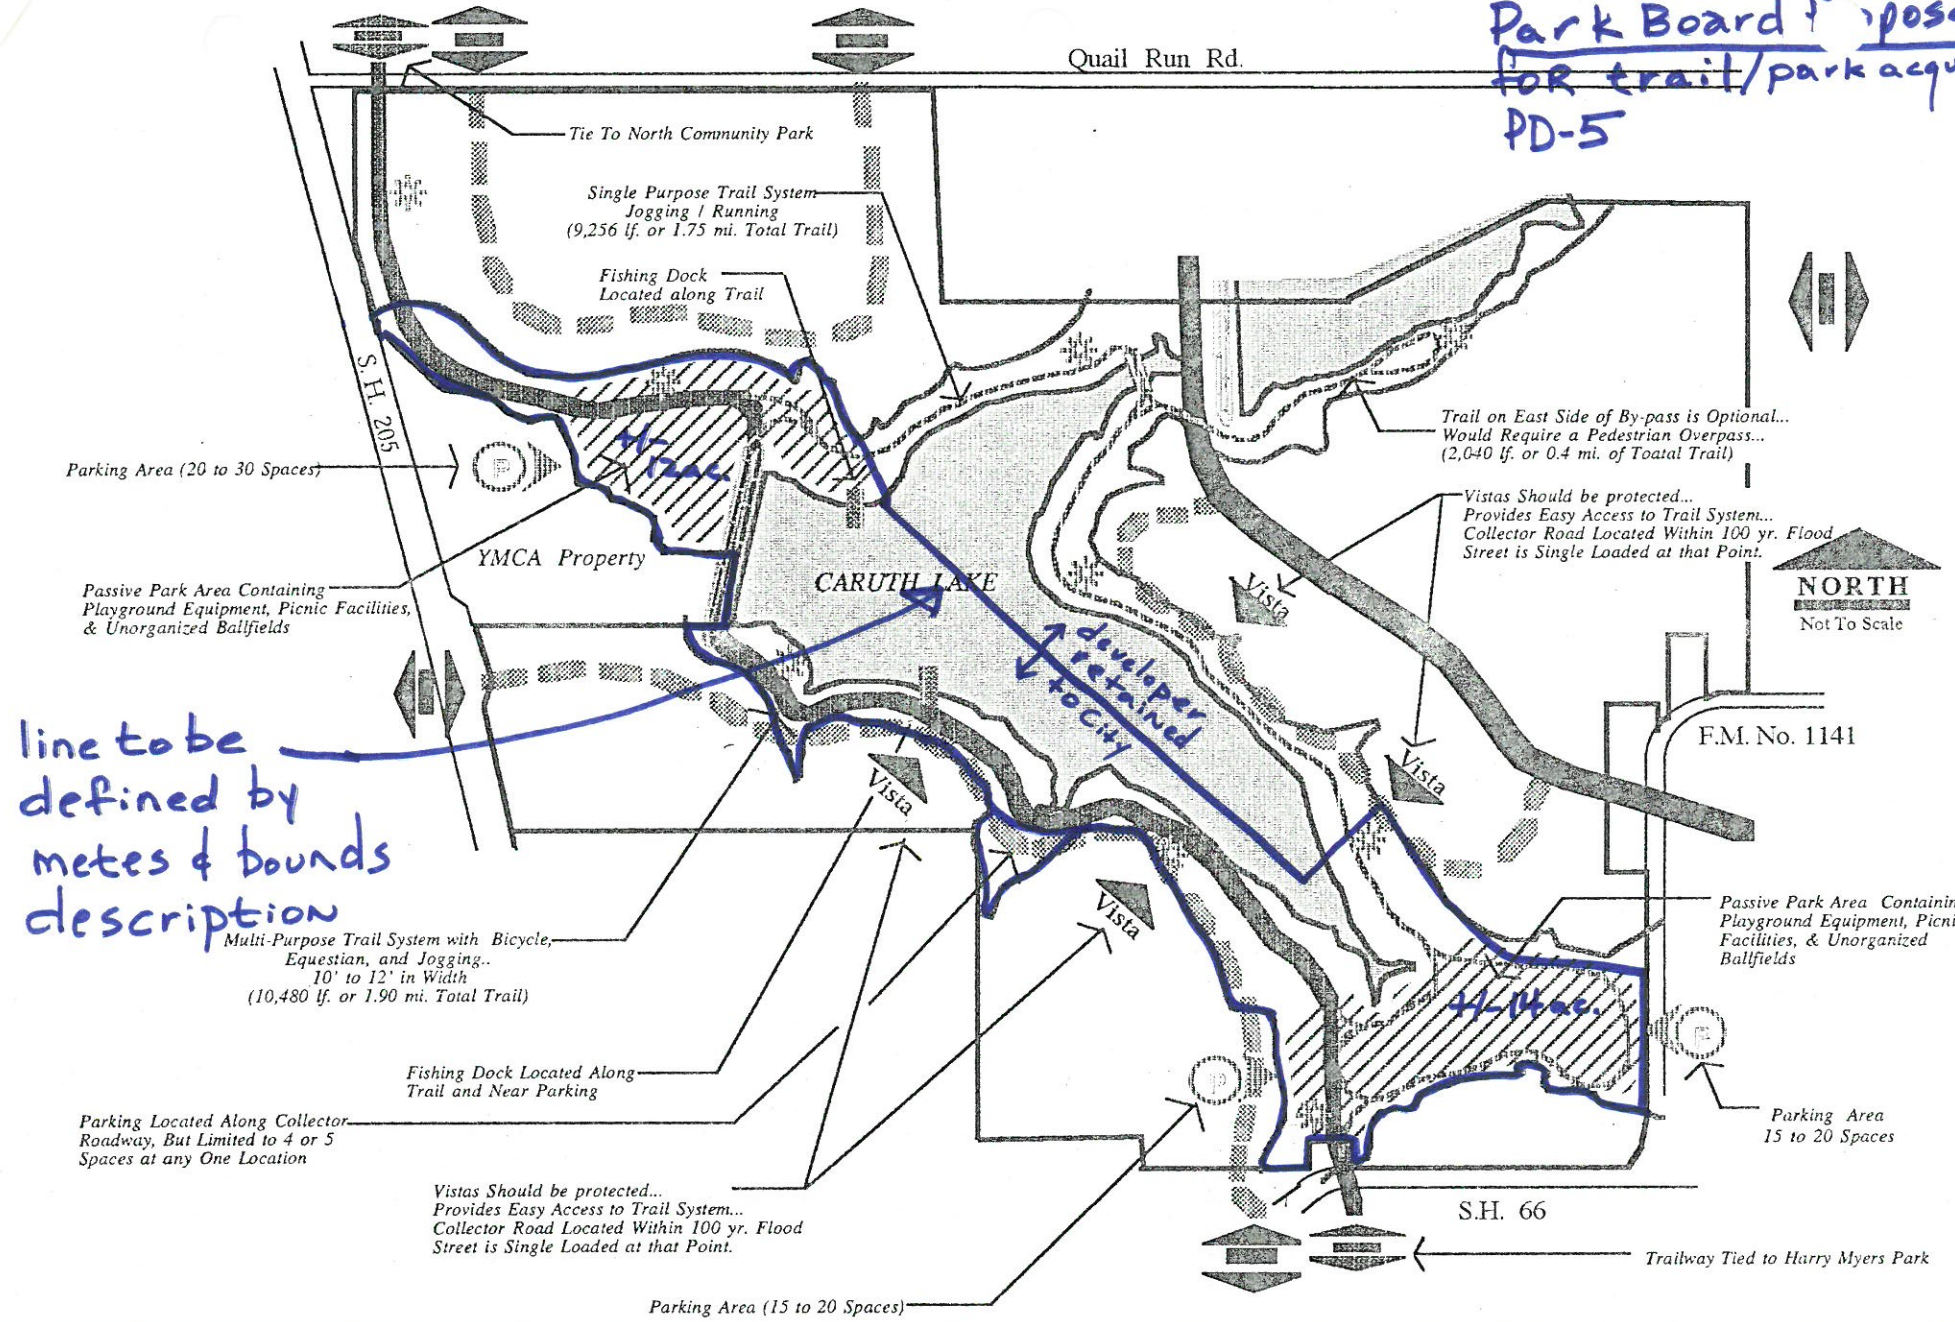

After considerable discussion the Board and the developer agreed to add a small amount of flood plain on the Southeast end of Caruth and a similar addition on the Northeast end of Caruth Lake to the property to be included in the contract for dedication. A drawing of the property to include in the Board's recommendation and the associated legal description is currently being prepared. The Board's recommendation is, therefore, that the plat be approved with the park dedication being finalized through a facilities agreement as above outlined. A general drawing is attached.

It should also be noted that this program for future acquisition comes about as a direct result of the special conditions of the PD-5 Zoning Ordinance which resulted from the previous owner's proposal during the development of that PD. If it were the case that this property were to be acquired as the result of a Mandatory Parkland Dedication ordinance, the value of the land would not be eligible for match under the terms of the Texas Parks and Wildlife's Grant Program. For this reason, the Board took action to recommend waiver of the requirements of the Mandatory Parkland Dedication ordinance for PD-5. It is recommended that the Council take this action to eliminate any question as to the terms under which the contribution will be made if the program is approved.

While the Board accepted the approach proposed by the developer as the means by which he would comply with the terms of the special conditions of the PD, there was discussion that the East side trail might be left in the plan despite the fact that the developer would not (if the Board's recommendation is approved) be responsible for providing that land area to the City.

Should the Council approve the Board's recommendation, a contract would be prepared in accordance with that approval.

50 Mayor Williams opened the public hearing regarding an ordinance granting a conditional use permit for a residence as an accessory to a permitted use within the Central Business District classification for a property located at 106 S. San Jacinto, Rockwall, Texas.

55 Beverly Jacobs, 106 S. San Jacinto, explained the request submitted for this property. She indicated that the request was for a temporary residence. No one else appeared before Council. Mayor Williams closed the public hearing.

60 Hatfield made a motion to approve the ordinance granting a conditional use permit for a residence as an accessory to a permitted use within the Central Business District classification with a two year review stipulation and a floor plan to be included as Exhibit "A". Pappa seconded the motion. The motion passed unanimously.

65 **P&Z 93-43-Z Hold a Public Hearing and Consider Approval of an Ordinance Granting an Amendment to Planned Development 5 to amend the approved land uses on two tracts of land from Multi-Family and General Retail uses to Single Family residential and Consider Approval of Conditions on a portion of PD-5 on Property Located North of Harris Heights Addition and East of SH-205 (1st reading) and Approval of a Preliminary Plat**

70 Couch commented on proposed development of land and reviewed the thoroughfare and park issues related to the proposed development. Ron Black with Kimley-Horn & Associates, consultants for the City, reviewed the study they completed regarding an amendment to the thoroughfare plan as it pertains to this property. He indicated that their review of the densities planned for this area and the proposed road system would allow the downgrade of a proposed 4 lane divided roadway to a 4 lane undivided collector. He also recommended that the collector ultimately be extended to intersect SH-66 rather than the future bypass. Some additional recommendations to revise the thoroughfare plan were noted by Mr. Black. Council discussed the need for an arterial connection from the bypass to SH-205, the distance between arterial roadways, and the need to ensure that other existing streets in the area are not overloaded in the future.

80 Dan Boutwell, consultant for the City, discussed the Master Park Plan as it relates to the proposed project. He summarized the Park Plan prepared for "PD-5" which included a multi-purpose trail system with bicycle, jogging and equestrian widths, activity stations, and passive area to provide playground equipment, picnic tables, and unorganized playing fields. He also reviewed how the revised road system worked with the park plan.

Mayor Williams opened a public hearing regarding approval of an ordinance granting an amendment to Planned Development 5 to amend the approved land uses on two tracts of land

0 from Multi-Family and General Retail uses to Single Family residential and approval of conditions on a portion of "PD-5" on property located north of Harris Heights Addition and east of SH-205.

95 Harold Evans, consulting engineer, and Rob Whittle, developer/landowner, appeared before Council to answer any questions. There being no one else to speak Mayor Williams closed the public hearing.

100 Welborn made a motion to amend "PD-5" on the proposed 38.3 acre tract to change the approved land uses on a portion of the tract from Multi-Family and General Retail to Single Family with a minimum lot size of 7,500 sq.ft. and to approve the preliminary plat and proposed park plan concept noting that a facilities agreement for the park dedication will be drafted and that hearings will be held to amend the thoroughfare plan at the time the final plat is submitted. The motion was seconded by Todd White and passed unanimously.

110 Couch familiarized Council with the owner's intention to expand his facility on the existing property. Applicant sought an approval of the site plan and the preliminary plat for the existing facility in conjunction with a conditional use permit allowing the existing office building which is located on that lot be increased in size from 5,000 sq.ft. to 7,600 sq.ft. In addition, the applicant wished to zone a portion of the adjacent lot to the south of the property as Heavy Commercial to allow for storage of trucks/equipment. Couch commented on the policy of requiring escrow from the developer at the time of preliminary platting and indicated that the applicant wished to have that requirement waived.

115 Mayor Williams opened the public hearing.

120 Gary Amerson, President of Texas Star Express, 2890 S. Goliad, summarized his request due to company's growth.

No one else appeared before Council. Mayor Williams closed the public hearing.

125 Following Council discussion regarding the escrow policy for roadway improvements and the waiver request, Welborn made a motion to approve the site plan and preliminary plat on the existing lot; to grant a conditional use permit for expansion of the existing building from 5,000 sq.ft. to 7,600 sq.ft.; and to approve a zoning change from Commercial and Agricultural on the property south of the existing site to Heavy Commercial, with the provision that the City and the owner enter into a facilities agreement to provide that the owner escrow funds for the improvement to Mims Rd. at the time the City is ready to construct the improvements. Todd White seconded the motion, which passed unanimously.

Couch summarized the request and indicated that the developer had revised the plan to bring all lots in conformance with the zoning ordinance. She also indicated that the Planning and Zoning Commission had not had an opportunity to review the revised site plan. Hatfield moved to remand the case back to the Planning and Zoning Commission for their review at the next Planning and Zoning meeting to be held on January 13, 1994. Pappa seconded the motion. After further discussion a vote on the motion was called, the following votes were cast:

Ayes: Morgan, Pappa, Williams, Oppermann, Hatfield, Welborn
Nays: White

The Mayor opened the public hearing to receive input from citizens regarding the amendment to "PD-13" Planned Development and indicated that citizens could speak at this meeting or wait and speak when the case is brought back to the Council on January 17, 1994.

No one appeared in regard to the hearing.

P&Z 93-42-P/FP Discuss and Consider Approval of a Request from Fox Chase Development for a Preliminary Plat/Final Plat for Fox Chase Development Corp. located at SH-740

City Manager reviewed the request with Council and indicated that the plat met all city requirements. Councilmember Morgan moved to approve the preliminary plat/final plat for Fox Chase Development. After discussion by Council the motion was seconded by Pappa and passed unanimously.

City Manager's Report

Julie Couch, City Manager, presented the monthly manager's report for December 1993. She reviewed police activity; proposed setting a worksession date on SH-205 for January 24, 1994 at 7:00 p.m. in the Council Chambers; explained the process for selecting a Volunteer Fire Chief; reported on the initiation of Lakeshore/Summit Ridge traffic control devices; and reviewed the preliminary report on Building Permits for the months of November and December. The Council agreed to the January 24 worksession date.

Chief Watkins explained the police activity including arrests, offenses and 9-1-1 hang up calls. Mayor Williams read two letters commending officers' community involvement and service.

Chief Watkins commented on the "Toys for Tots" program in which 600 area children were helped.

Action/Discussion Items

30 **Discuss and Consider Adoption of a Resolution Accepting a Bid for the Purchase of the City's Public Property Finance Contractual Obligations, Series 1993; and resolving Other Matters Incident Thereto (2nd reading)**

185 David Medanich with First Southwest discussed the bids received. He recommended awarding the bid to Community Bank, the apparent low bidder. Morgan made a motion to approve the resolution to accepting the recommended bid. The motion was seconded by Bruce Oppermann and passed unanimously.

190 **Discuss and Consider Adoption of an Ordinance Authorizing the Issuance and Sale of City of Rockwall, Texas, Public Property Finance Contractual Obligations, Series 1993; Levying a Tax in Payment Thereof; and Enacting Other Provisions Relating Thereto (2nd reading)**

195 Hatfield made a motion to adopt an ordinance authorizing the issuance and sale of City of Rockwall, Texas, Public Property Finance Contractual Obligations, Series 1993; levying a tax in payment thereof; and enacting other provisions relating thereto. White seconded the motion. The motion passed unanimously.

Discuss and Consider Park Board Recommendation Regarding Process to Develop Position on the City of Dallas' Lake Ray Hubbard Master Plan and Take Any Necessary Action

200 Rick Crowley outlined the Park Board proposal for developing a position regarding input into the City of Dallas' Lake Ray Hubbard Master Plan. He indicated that the Park Board recommended a joint workshop session with City Council, Planning and Zoning Commission, and Park Board to aide in identifying issues, setting goals and objectives, and finalizing position to be taken with Dallas.

205 After Council discussion, a workshop date was scheduled for Thursday, February 3, 1994 at 6:00 p.m.. It was indicated by staff that backup information will be sent to Council as it becomes available.

210 **Discuss Design Concepts for 1.0 MG Elevated Water Storage Tank and Take Any Necessary Action**

215 Julie Couch advised Council that the meeting held for interested citizens input yielded no response. She proposed a council worksession for Monday, January 10, 1994 to discuss design considerations for the water tower. This date was agreed upon.

Discuss Draft Capital Improvement Plan and Take Any Necessary Action

20 Couch reviewed the draft CIP, outlining the list of projects to be forwarded to the Capital Improvement Program Task Force for consideration. After discussion, it was the consensus of

Council that the CIP Task Force be allowed to review and develop recommendations to the City Council on all of the listed projects proposed by staff. Staff will provide informational data and Council concerns to the Task Force to aide in their deliberation.

225 The City Council convened into executive session at 10:08 p.m.

230 **Hold Executive Session Under Sections 551.074 and 551.072 V.A.C.S. to Discuss:
a) Personnel Regarding Historic Preservation Advisory Board, b) Personnel Regarding
Median Improvement Volunteer Coordinator, and c) Land Acquisition Regarding Future
Park Expansion**

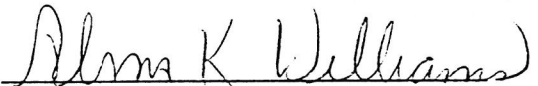

The City Council reconvened into regular session at 10:50 p.m.

235 **Take Any Necessary Action as a Result of the Executive Session**

No action was taken as a result of executive session.

The City Council adjourned at 11:00 p.m.

MEMORANDUM

TO: Mr. W.L. Douphrate II
City of Rockwall

FROM: Dean Henigsmann, P.E.,
Kimley-Horn and Associates, Inc.

DATE: November 17, 1993

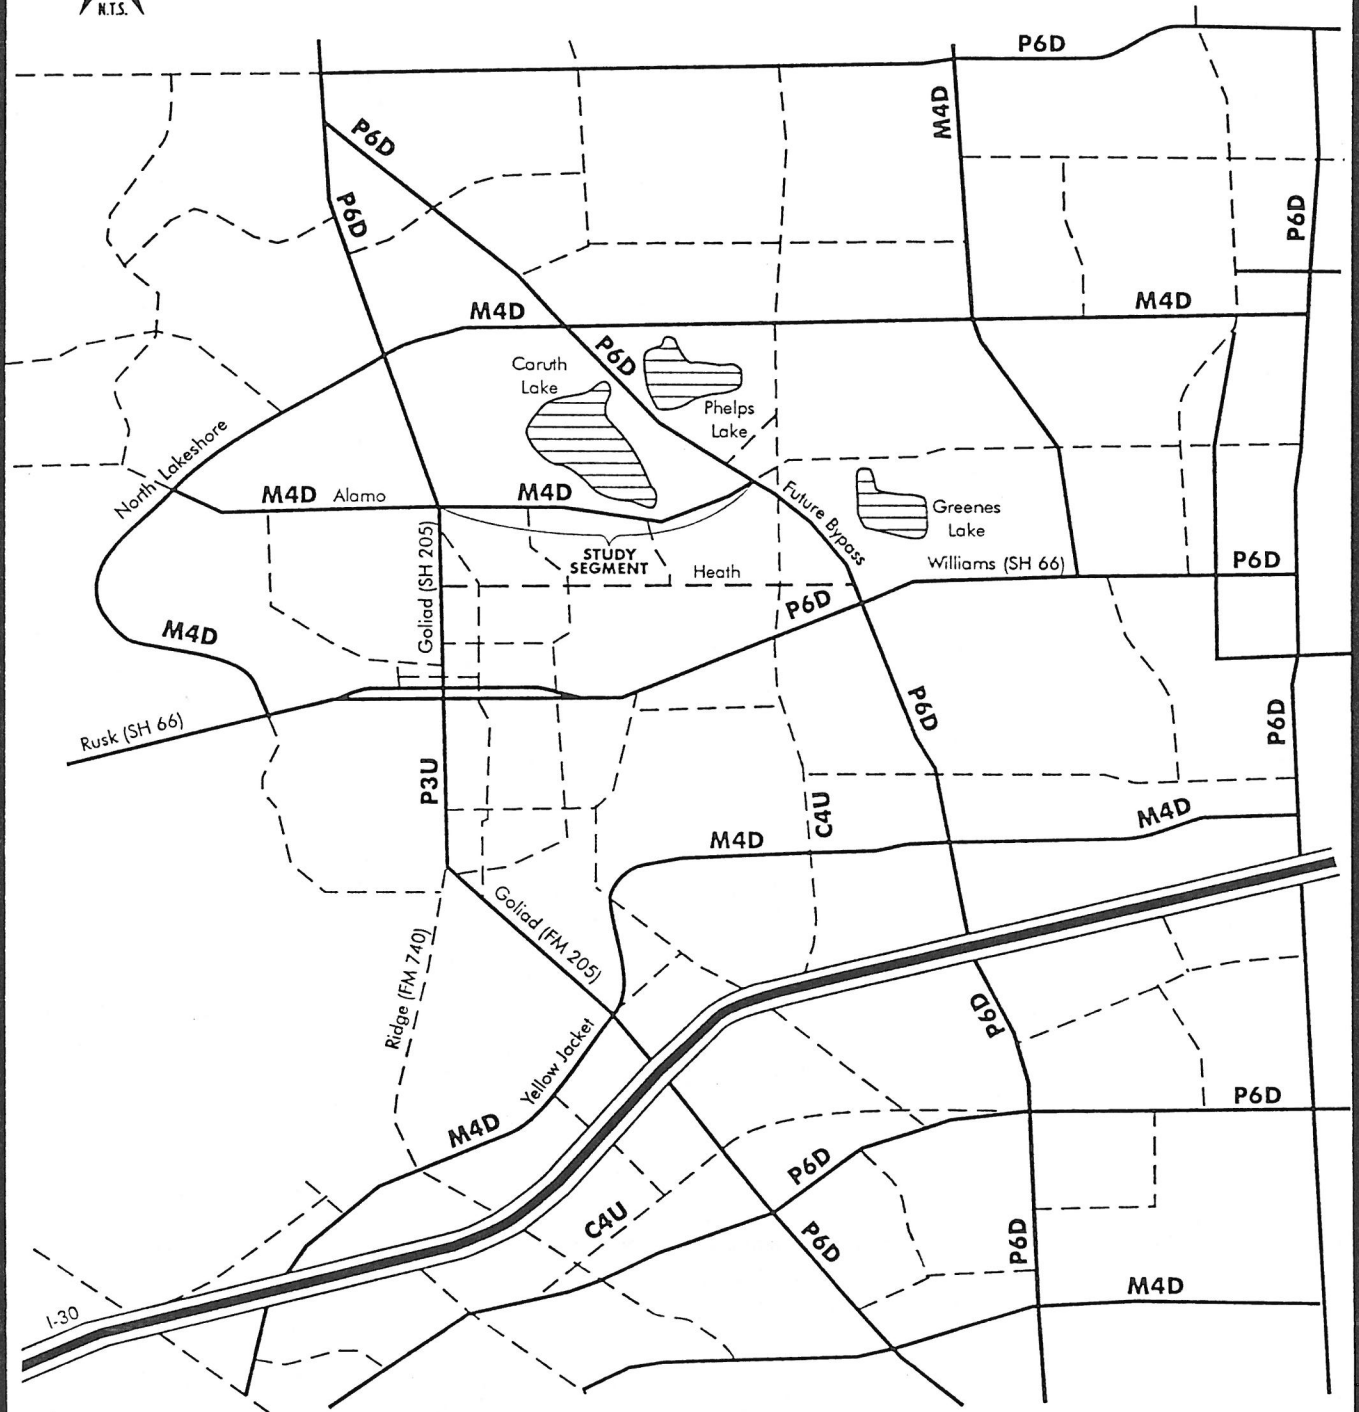

SUBJECT: Thoroughfare Plan Amendment for Alamo Road Extension; KHA #9750.00

Introduction

The purpose of this memorandum is to evaluate a proposed roadway section that currently appears on the City of Rockwall's Thoroughfare Plan. The roadway section in question is the future extension of Alamo Road, between FM 205 and the proposed bypass. The Thoroughfare Plan designates this section of roadway as a "M4D", or four-lane, divided minor arterial. **Exhibit 1** shows the City's Thoroughfare Plan, and **Exhibit 2** shows the study area and the roadway segment in question.

The evaluation of this future extension of Alamo Road is focused on two issues: 1) should the roadway be a four-lane divided facility; and 2) does it need to cross the floodplain area and connect FM 205 to the future bypass. The following sections summarize the analysis of these issues and the resulting recommendations.

Before beginning the discussion of the actual analysis, a brief review of how a thoroughfare plan should function is in order. There are generally four classifications of streets: local, collector, arterial and freeway. Many cities only include arterials and freeways on their Thoroughfare Plans, while others, such as Rockwall, also include collectors. Local streets are basically streets whose purpose is to provide access to the properties adjacent to them and to the collector street system. They are not meant to carry traffic other than that which is generated by the adjoining land-uses and their design should discourage high speeds and long trips.

Collector streets also serve the access needs of the land-uses fronting them, but they also act as the conduit for traffic from the local street system to the arterial network. The design of the collectors should permit slightly more capacity than local streets and they will generally cross and terminate at arterials.

Arterials serve to carry longer duration trips, particularly those between residential and commercial uses. The typical pattern for arterials is a grid pattern with a spacing of approximately one mile between arterials. These roadways are meant to carry the bulk of the home-based work trips and also act as the feeder system to the freeway network.

Freeways provide the regional access for the roadway network. They have limited access points that are usually at intersections with arterials.

Description of the Roadway Network

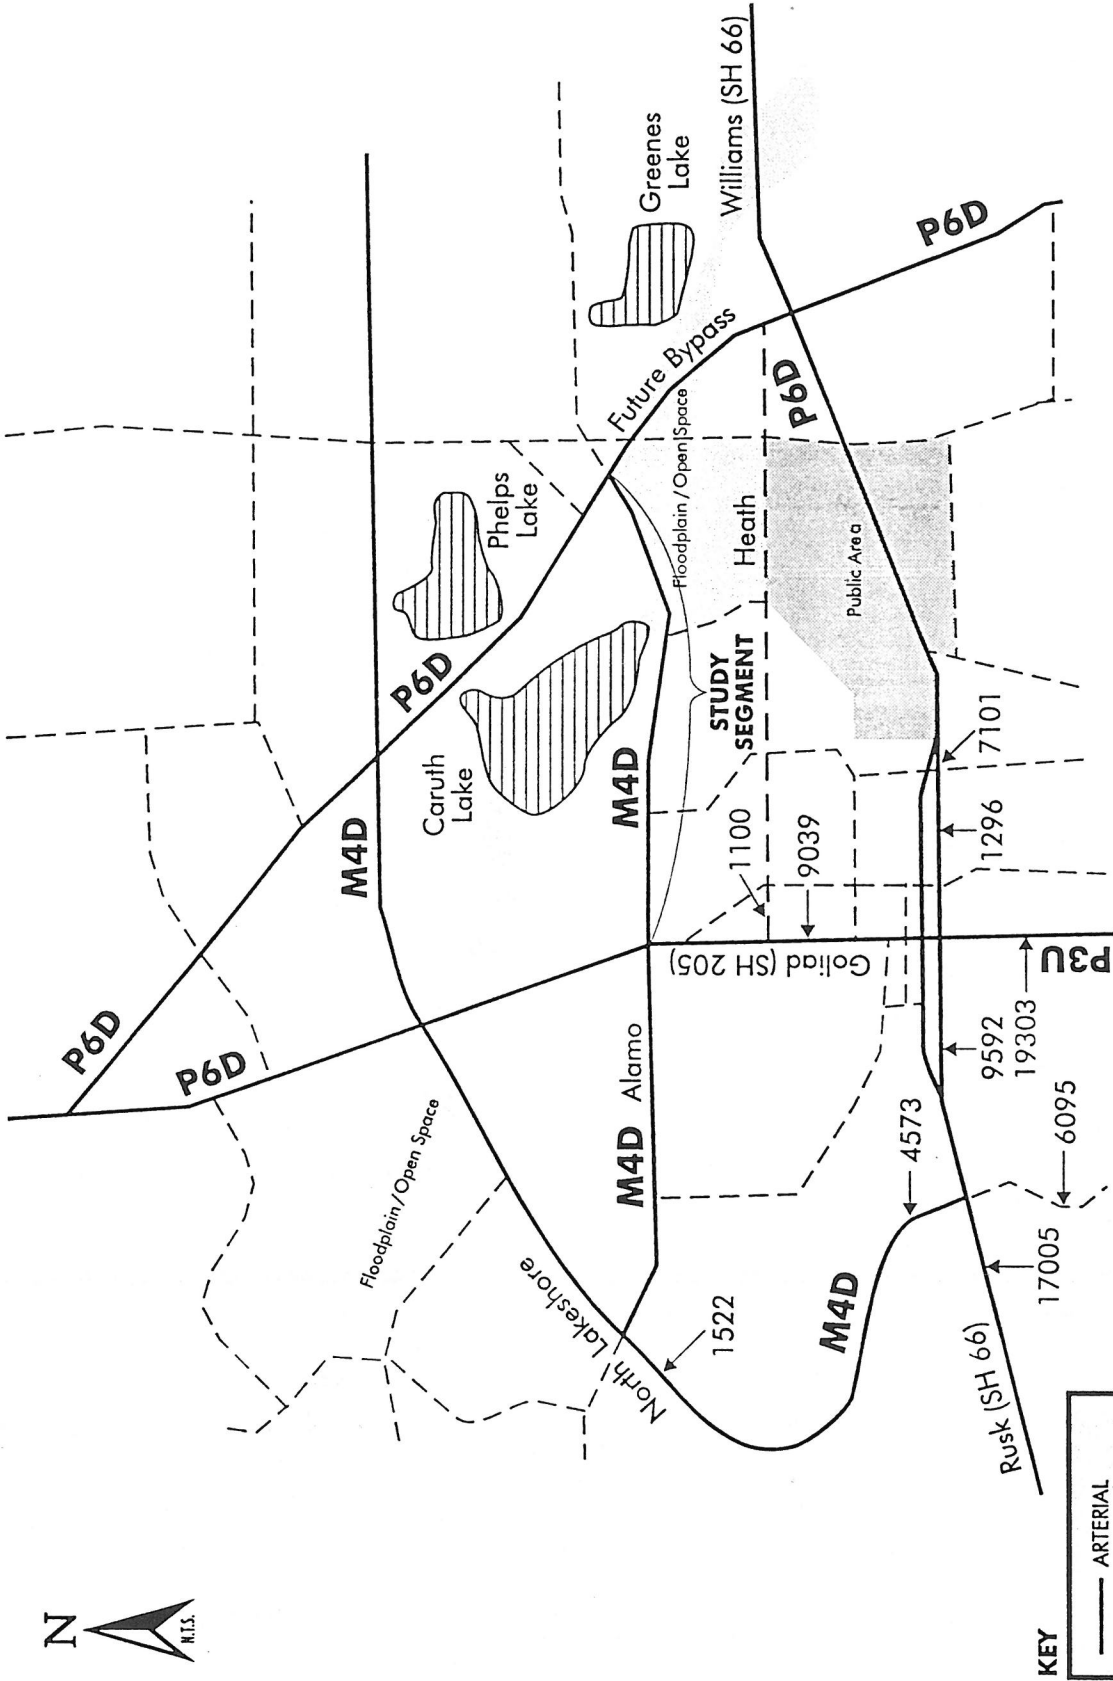

As shown in Exhibit 2, the study area will be served by a fairly extensive network of arterials and collectors. In addition to Alamo Drive, other east/west arterials include: a portion of North Lakeshore Drive, and Rusk Avenue (SH 66). North/south arterials include: FM 205, the future bypass, and North Lakeshore Drive. There is also an extensive collector system that supplements the arterial network. At present, traffic volumes on the existing street system are low, as shown in Exhibit 3.

For the roadways within the study area, the primary direction of travel will be north/south. This orientation is due to the presence of Lake Ray Hubbard which minimizes the number of through east/west roadways. Traffic coming to or leaving the study area will be primarily oriented to the west and the employment centers that are located in that direction. To go west, vehicles must first travel to one of the roadways that crosses Lake Ray Hubbard or to a roadway that is above or below the lake. Therefore, a considerable amount of traffic from the study area will have to go south to SH 66 or to IH 30. As a result, the primary direction of travel into and out of the study area is north/south. At present, this need is served by FM 205, and in the future, the proposed bypass will provide additional north/south access.

The roadway segment being analyzed in this study is the extension of Alamo Road between FM 205 and the future bypass. This roadway would pass just south of Caruth Lake, but will still cross a floodplain as shown in Exhibit 2.

Future Traffic Demand

Although current traffic volumes are low within on the street system, the study area has a considerable amount of development potential. Most of the land in the area is zoned as single-family, or is part of a planned development. Exhibit 4 shows a summary of the undeveloped land within the study area and the projected number of daily trips.

Although the anticipated growth in the area will produce a considerable number of additional trips on the roadway network, the orientation of the trips on the adjacent street network will still be north/south due to 1) Lake Ray Hubbard; 2) the location of employment and activity centers to the west; 3) the location of major east/west roadways. The additional traffic demand will be need to be split between FM 205 and the future bypass. The collector system and the east/west arterial system will primarily serve as feeders to these two roadways.

Analysis of Study Segment

As proposed on the Thoroughfare Plan, the extension of Alamo Road will primarily serve to act as a feeder to FM 205 and the future bypass. It will not provide a regional east/west transportation link since it does not cross the lake, and there is no anticipated demand to the east. It does provide a connection between FM 205 and the future bypass at the only possible location between North Lakeshore drive and Heath Street (due to Caruth Lake and the floodplain). The question, therefore is whether the feeder function must be served by an arterial roadway and is the connection across the floodplain needed?

The study segment will carry traffic generated by development located in the area bounded by North Lakeshore Drive, the future bypass, Heath Street and FM 205, as well as cut-through traffic generated by development to the east and west of these area. The cut-through component will be minimal since the only attraction for this type of trip would be commercial uses along FM 205 or the future bypass. There would be little need for this roadway segment to be carrying other types of trips from outside the adjacent neighborhood since most of these trips (ie. home-based work trips) will be primarily served by FM 205 and the future bypass. Since these are parallel

facilities with a common terminus point to the north, there is little need to provide a connection between them at this location. Traffic coming from the development located to the west of FM 205 is unlikely to travel all the way over to the future bypass, rather than use FM 205 for its north/south access needs. This rerouting will only occur if congestion on FM 205 becomes too severe as it passes through downtown Rockwall. Even if this situation does develop, SH 66, Heath Street and North Lakeshore Drive can provide the connection to the future bypass.

The traffic generated by the adjacent neighborhood will need to have access to the north/south arterial system. Since the development levels proposed for this area are not particularly dense nor include significant commercial areas, this function can be well served by several collectors, instead of the arterial currently being proposed. These collectors should be the only roadways to intersect the north/south arterials. All local streets should only have intersections with collectors and other local streets.

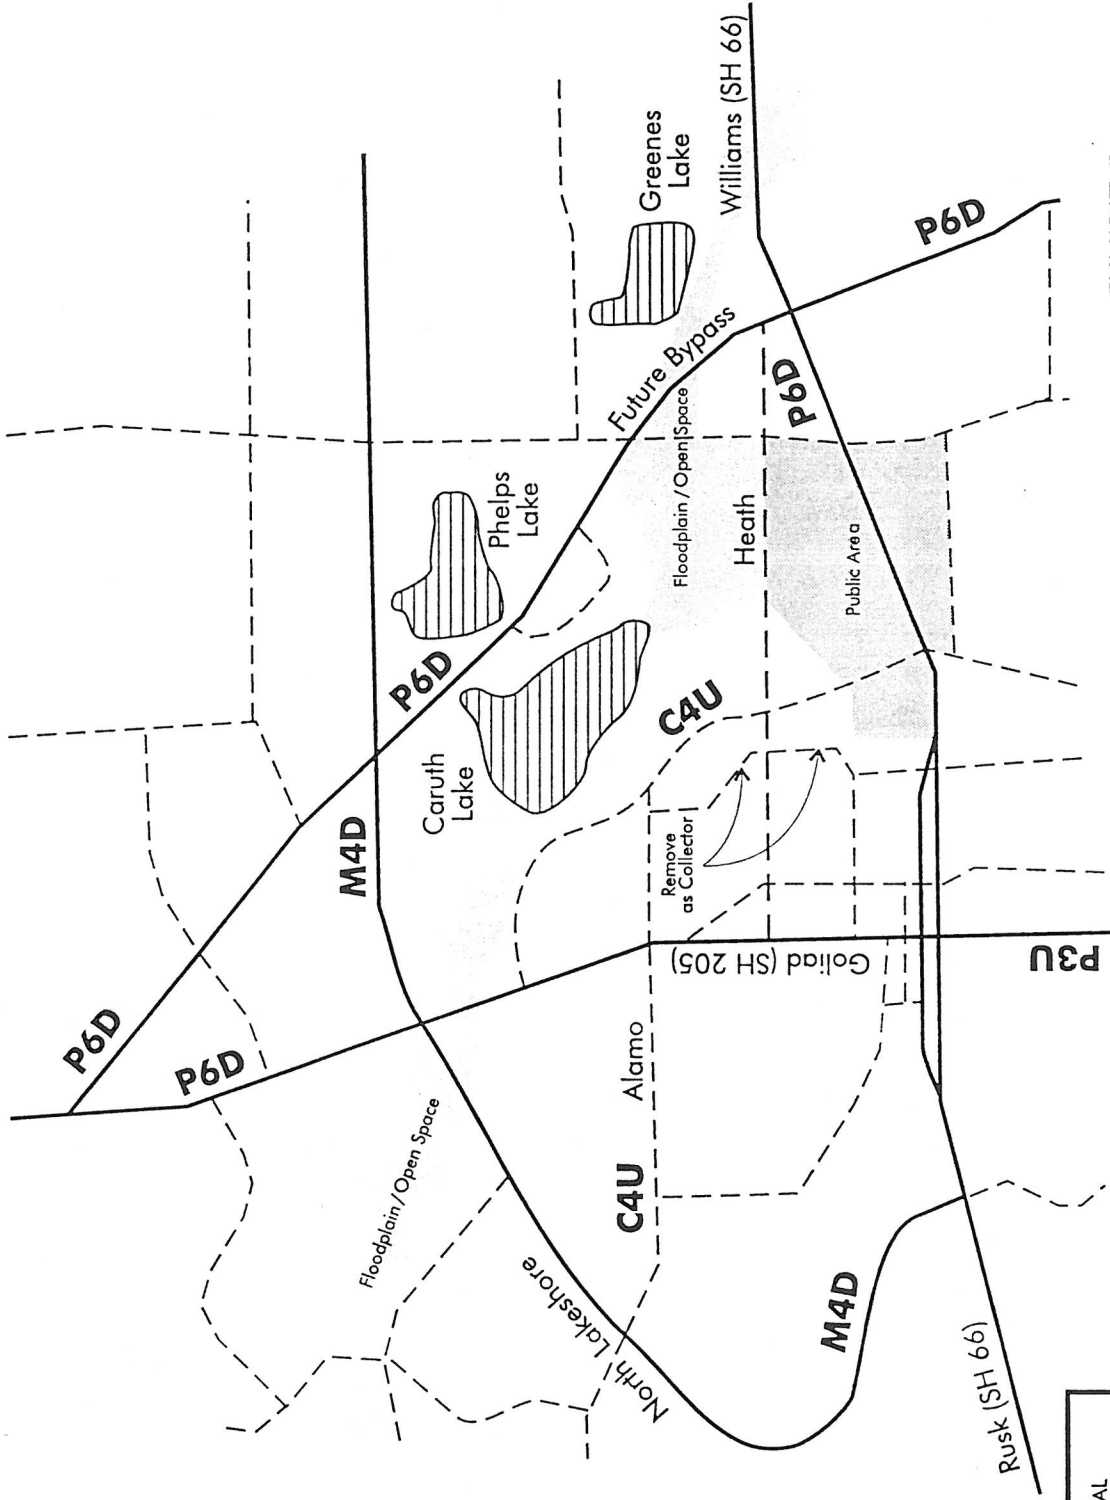

The potential elimination of the arterial also provides a benefit of not "breaking up" the neighborhood atmosphere between Heath Street and the future extension of North Lakeshore Drive. Arterials act as boundaries between neighborhoods. The extension of Alamo Road would divide the area into two distinct neighborhoods. This area is already split by the floodplain and lake. Eliminating the east/west arterial will help to maintain the integrity of the area located west of Caruth Lake and the floodplain.

Recommendations

Exhibit 5 shows the proposed Thoroughfare Plan amendments. In addition to the issue of the status of the "M4D" portion of Alamo Road, some additional recommendations were developed from this study. A summary follows:

- Remove the "M4D" section of Alamo Road between FM 205 and the future bypass. Replace it with a collector on the west side of Caruth Lake that intersects FM 205 and continues to the south, crossing Heath Street and terminating at SH 66, possibly aligning with a future extension of Renfro Street. This collector would also provide access to the proposed park area located north of SH 66. This collector is shown as a "C4U" on the exhibit which indicates that it should be built so that it could accommodate four-lanes, if needed. It is particularly important that this width be provided at intersections with arterials and other collectors.

To the east of Caruth Lake, a collector (rather several local streets) should be provided to minimize the number of intersection with the future bypass.

EXHIBIT 5
PROPOSED
THOROUGHFARE PLAN

Kimley-Horn

- The section of Alamo Road between FM 205 and North Lakeshore Drive is also designated as a "M4D". This roadway should remain with its present alignment, but can be downgraded to a "C4U", since its primary role will be to feed traffic to FM 205.
- The current Thoroughfare Plan shows Joe White as a collector. It is our understanding that it has been constructed with approximately a 30 foot cross-section. This is too narrow for a collector, and we recommend that it be downgraded to a local street.
- The short section of collector that was directly west of the floodplain and had termini at the Alamo Road extension and Heath Street can be eliminated from the Thoroughfare Plan entirely due to the new proposed "C4U" collector.
- The area near the intersection of the future bypass and FM 1141 should be "cleaned up". There are too many intersection of collectors and arterials within a very small area, as currently shown on the Thoroughfare Plan. Some of these should be eliminated. Exhibit 5 shows one possibility, but it is recommended that this problem be given additional consideration, since there may be some issues of which we were not aware.
