Re: Site Plan and Plat for property owned by Thomas Haack
on Interstate 30

Dear Ms. Couch,

As you know, I represent Mr. Thomas Haack in the above referenced matter. In accordance with your conversation with my associate, Mark D. Smith, Mr. Haack and Mr. John Lindsey, on March 2, 1994, with this letter we submit our clients revised preliminary site plan and plat.

It is my understanding that this matter will go to the Planning and Zoning Commission on March 10, 1994 for consideration of an approval recommendation. It is our desire to submit the final plat and site plan to the Commission at the Work Shop session as discussed, assuming City Council approval of the preliminaries.

You will note that the preliminary site plan calls for a 24' wide "gravel" driveway. Please be advised that my client is requesting a variance from the city code/ordinance which would require this driveway to be paved asphalt or concrete. This variance would extend for a period of two (2) years from the date of approval of the Final site plan. My client will agree to pave the driveway with asphalt or concrete within this two (2) year time period.

Thank you for your attention and assistance with this matter.

Very Truly Yours,

Kim R. Williams

RE: Withdrawal of Request for Final Plat approval and
request for return of all paperwork.

Julie:

After further study we have been forced to decide against
the construction of a building located behind 1860 I 30 East.
We ask that the plat and boundaries remain intact as they
sit now. Thus we are withdrawing our request for approval
of final plat.

Please advise me where and when we can retrieve the documents
in your possession.

Thank you for all your help.

Respectfully,

Thomas E. Haack

Planning and Zoning Agenda**

Agenda Date: February 10, 1994

Agenda Item: P&Z-1-Z-PP-SP - Hold Public Hearing and Consider Recommending Approval of a request from Thomas Haack for a change in zoning from Agricultural to Light Industrial, and approval of a site plan and preliminary plat for property located at the Southside I-30 service road and west of Hwy. 549.

Item Presented By: Applicant, Thomas Haack

Action Needed: Hold Public Hearing and consider recommending approval of a zoning change from Agricultural to Light Industrial, and approval of a Site Plan, and Preliminary Plat.

Background Information: The applicant is requesting a change of zoning from "A" Agricultural to "LI" Light Industrial. The applicant has submitted a Site Plan/Preliminary plat for consideration of approval. The preliminary plat provides a 60' right-of-way between tracts I and II. The applicant has revised the original submittal in order to conform to the Thoroughfare Plan which indicates a collector to be constructed in this proximity. The applicant is also proposing to replat Lot 1, Block A in order to show a right-of-way dedication of 30 feet. Tract II will be platted in the future with the remaining 30 feet of right-of-way dedicated. The applicant will construct a portion of one-half the street as shown on the Site Plan. The remainder will be paved when development occurs to the south of this property. It has been the City's policy to require the developer to pave 50% of the street the entire length of the frontage being platted. It is the staff's position this would not be equitable for this particular street segment. When Tract II is platted the developer will be required to construct an equidistant section of pavement as indicated on Tract I.

Recommendation: Staff recommends approval of the zoning change and the Site Plan/Preliminary Plat provided the following:

1. The second gravel drive on the east side be eliminated.

Attachments:

1. PRG Memorandum from Dan Boutwell, AICP.
2. Site Plan.
3. Zoning Map.

**MEMORANDUM**

TO: Dub Douphrate, P.E.
FROM: Dan C. Boutwell, AICP
SUBJECT: P&Z 94-1-Z (Haack)
DATE: February 8, 1994

The applicant proposes to rezone a parcel of land from Agriculture to LI - Light Industrial. The property consist of 5.13 acres of land.

Comments:

1. The applicant is proposing to divide this parcel into two (2) tracts, and is proposing locating access easements on site. This property will be required to be platted and all public dedicated rights-of-way and/or easements should be indicated on the plat.
2. The applicant has provided parking spaces in excess to the zoning requirement, however, neither the dimensions of those spaces (including handicapped spaces) nor the drive lanes have been provided. The applicant must provide this information.
3. Although the Comprehensive Land Use Plan has indicated office/retail for this location, recent development trends adjacent to I-35, have indicated that Light Industrial land uses are appropriate for this site.
4. The thoroughfare plan indicates a future collector street to be located in the vicinity of this site. The relationship of the future collector street and this site must be resolved at the time of platting.
