SPECIAL USE PERMIT DESIGN REQUEST NARRATIVE

On behalf of SPR Packaging, we are representing the Owner in the design of the new facility, SPR North, which will be north of their current facility at 1480 Justin Road. As you are maybe aware, their business involves the use of high bay extruder equipment to fabricate plastic bags. The extruders themselves are many, many feet tall. The section of the building that houses the extruder will need to have a roof level of 120' above finish floor. This exceeds the current allowable height for buildings by 60'. SPR had previously received a Special Use Permit for the 75' high extruder section for their existing building on Justin Road. Technology has changed, and the new equipment is now much larger and much taller, requiring the higher top of roof. Accordingly, the Owner requests the variance to allow the 120' maximum on the extruder roof areas only. This would apply for Phase 3, Phase 4, and Phase 5 Extruder Expansions. See Elevations and Site Plan.

Sincerely,

Mark Pross
President

RE: PROJECT #Z2019-002, SUP FOR SPR PACKAGING

Dear Mr. Gonzalez,

This letter is to inform you that after receiving initial comments from the Planning and Zoning Commission, the Owner feels that it would be beneficial to withdraw the request for a Special Use Permit for SPR Packaging at this time. We will be spending the next few weeks providing additional documentation, exhibits, and Revised Site and Elevation Drawings in order to present a better explanation as to the intent of the project and its effect on the surrounding residential development. It is our intent to resubmit on March 15, 2019, to initiate the SUP at that time. Should you have any questions, feel free to give me a call.

Sincerely,

Mark W. Pross
President
