**TO:** Planning and Zoning Commission  
**FROM:** David Gonzales, *Planning and Zoning Manager*  
**DATE:** October 27, 2020  
**SUBJECT:** SP2020-026; *Amended Site Plan for Primrose School*

---

The applicant, Clay Cristy of ClayMoore Engineering, is requesting the approval of an amended site plan for the purpose of changing the stone on the exterior building elevations of a previously approved daycare center (*i.e. Primrose School*). The site plan (*Case No. SP2020-005*) for proposed daycare facility was originally approved on June 9, 2020 by the Planning and Zoning Commission. At the time of approval, the applicant had requested and was granted two (2) variances to the [1] primary building façade articulation requirements and [2] to the amount of stucco proposed for the building (*i.e. stucco in excess of 50% of the building's exterior*). Staff should point out that the applicant's request does not change the building elevations, only the type of the natural stone being used from a *Leuder's Limestone* to a *Tuscany General Shale Thin Rock* (*i.e. Chopped Stone*). The purpose of this change is to better match the existing and adjacent retail shopping center (*i.e. Tom Thumb*). With this being said, the Architectural Review Board (ARB) will need to review the proposed change and forward a recommendation to the Planning and Zoning Commission at the October 27, 2020 meeting. This change being relatively minor, staff has placed this item on the consent agenda pending a positive recommendation from the ARB; however, should the ARB request changes be made to the exterior of the building, the item will need to be removed from the consent agenda and acted on at the November 10, 2020 Planning and Zoning Commission meeting.
