Subject: Variance Request Letter

Dear Sir or Ma'am,

On behalf of Uncle Julio's Mexican from Scratch restaurant (Uncle Julio's of Texas, Inc., A Texas Corporation), I am submitting this letter of request for a variance from Unified Development Code SUBSECTION 03.05: ALCOHOLIC BEVERAGE SALES, A) Restaurants with Alcoholic Beverage Sales, (2):

*Restaurants that sell alcoholic beverages for on-premises consumption shall be subject to compliance with the Texas Alcoholic Beverage Code, as it exists or may be amended and must be located not less than 300 feet from a church, public school, private school (as defined by the Texas Alcoholic Beverage Code) or public hospital. For a church or public hospital, the 300 feet shall be measured along the property lines of the street fronts and from front door to front door, and in a direct line across intersections. **For public schools or private schools, the measurement of distance shall be in direct line from the property line of the public school or private school to the property line of the restaurant and in a direct line across intersections.** If the permit or license holder is located on or above the fifth story of a multistory building, in a direct line from the property line of the public or private school to the property line of the place of business, in a direct line across intersections, and vertically up the building at the property line to the base of the floor on which the permit or license holder is located. The City Council may grant a variance to the distance regulations if the City Council determines that enforcement of those regulations in a particular instance is not in the best interest of the public, constitutes waste of inefficient use of Land or other resources, creates an undue hardship on an applicant for a license or permit, does not serve its intended purpose, is not effective or necessary, or for any other reason the City Council, after consideration of the health, safety, and welfare of the public and the equities of the situation, determines is in the best interest of the community.*

The distance from the south property line of Rockwall High School to the property line of the restaurant is approximately 200'. Permission to serve alcohol is essential to Uncle Julio's operations as a full-service restaurant and bar.

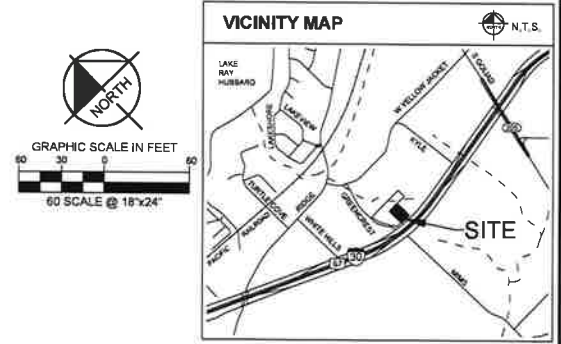

Compensatory Measures:

1. Additional Landscape Buffer along the IH-30 Service Road Right-of-Way (30' versus the minimum 10' required).
2. Increased Building Setbacks on all sides of the lot. +/-90'

Please feel free to contact me with any questions or concerns.

Sincerely,

Brian Nebel

Subject: Variance Request Letter

Dear Sir or Ma'am,

On behalf of Uncle Julio's Mexican from Scratch restaurant (Uncle Julio's of Texas, Inc., A Texas Corporation), I am submitting this letter of request for a variance from Unified Development Code SUBSECTION 03.05: ALCOHOLIC BEVERAGE SALES, A) Restaurants with Alcoholic Beverage Sales, (2):

*Restaurants that sell alcoholic beverages for on-premises consumption shall be subject to compliance with the Texas Alcoholic Beverage Code, as it exists or may be amended and must be located not less than 300 feet from a church, public school, private school (as defined by the Texas Alcoholic Beverage Code) or public hospital. For a church or public hospital, the 300 feet shall be measured along the property lines of the street fronts and from front door to front door, and in a direct line across intersections. **For public schools or private schools, the measurement of distance shall be in direct line from the property line of the public school or private school to the property line of the restaurant and in a direct line across intersections.** If the permit or license holder is located on or above the fifth story of a multistory building, in a direct line from the property line of the public or private school to the property line of the place of business, in a direct line across intersections, and vertically up the building at the property line to the base of the floor on which the permit or license holder is located. The City Council may grant a variance to the distance regulations if the City Council determines that enforcement of those regulations in a particular instance is not in the best interest of the public, constitutes waste of inefficient use of Land or other resources, creates an undue hardship on an applicant for a license or permit, does not serve its intended purpose, is not effective or necessary, or for any other reason the City Council, after consideration of the health, safety, and welfare of the public and the equities of the situation, determines is in the best interest of the community.*

The distance from the south property line of Rockwall High School to the property line of the restaurant is approximately 200'. Permission to serve alcohol is essential to Uncle Julio's operations as a full-service restaurant and bar.

Compensatory Measures:

1. Additional Landscape Buffer along the IH-30 Service Road Right-of-Way (30' versus the minimum 10' required).
2. Increased Building Setbacks on all sides of the lot. +/-90'

Please feel free to contact me with any questions or concerns.

Sincerely,

Brian Nebel
Property Development Manager
