TOTAL CALIPER INCHES OF TREES TO BE REMOVED: 158"

158 x 20% = 31.6 - 125" minimum to be planted as mitigation

A licensed arborist has determined that tree #12 is diseased and should be removed to prevent property damage.

The intent of this drawing is to show existing trees to be preserved or removed in order to develop the proposed project. Property owner will be responsible for any fees or penalties levied at the discretion of The City of Rockwall. Demolition contractor is responsible for ensuring all required permits and paperwork from the City of Rockwall are in place before beginning demolition.

Refer to The City of Rockwall - Article IX - TREE PRESERVATION

also The City of Rockwall - Article VIII - LANDSCAPE STANDARDS

THE ARE THREE EXISTING FEATURE TREES ON THIS SITE (ie. 25" caliper or more of the protected species) THESE TREES ARE TO BE REMOVED.

NOTE:
ALL BOUNDARY TREES ALONG THE SOUTH PROPERTY LINE ARE TO REMAIN. PROTECT ANY TREES THAT ARE CLOSE PROXIMITY TO GRADING OR CONSTRUCTION ACTIVITIES.

SECTION 5 - TREE MITIGATION REQUIREMENTS

The tree mitigation requirement for all properties that do not fall under the exemptions listed in section I.3. Exemptions, of this article. In addition, if a tree mitigation requirement is placed above the number of a protected or feature tree, the applicant and/or property owner shall account for the number of inches of tree being removed using the following criteria:

1. Primary protected trees. Primary protected trees measuring four inches through 25 inches DBH shall be replaced on an inch for inch basis (i.e. the total number of caliper inches of trees being replaced shall equal the total number of inches of inches being replaced).

2. Secondary protected trees. Hawkberry and Live Oak trees measuring 11 inches through 24 inches DBH shall be replaced with a half-inch for every inch removed (i.e. the total number of inches of trees being replaced shall be half of the inches being removed).

3. Feature trees. Feature trees (i.e. all trees greater than 25 inches) shall be replaced with twice the number of inches being removed (i.e. the total number of caliper inches of trees being replaced shall be twice the number of caliper inches being removed).

4. Non-protected trees. Non-mitigation will be required for the removal of any tree that is less than four inches DBH or less than 11 inches DBH for hickory and cedar trees. In addition, no mitigation shall be required for the removal of any tree that is less than 11 inches DBH for all other trees.

5. Tree mitigation credits. For each tree one inch or one-half inch DBH or less than 25 inches DBH or greater the mitigation balance can be reduced on an inch-for-inch basis up to 70 percent of the total mitigation balance (i.e. total mitigation balance - Total eligible tree preservation credits = Total mitigation balance). Total mitigation balance (i.e. mitigation balance - tree preservation credits + Total mitigation credits) may be satisfied through one or a combination of the following:

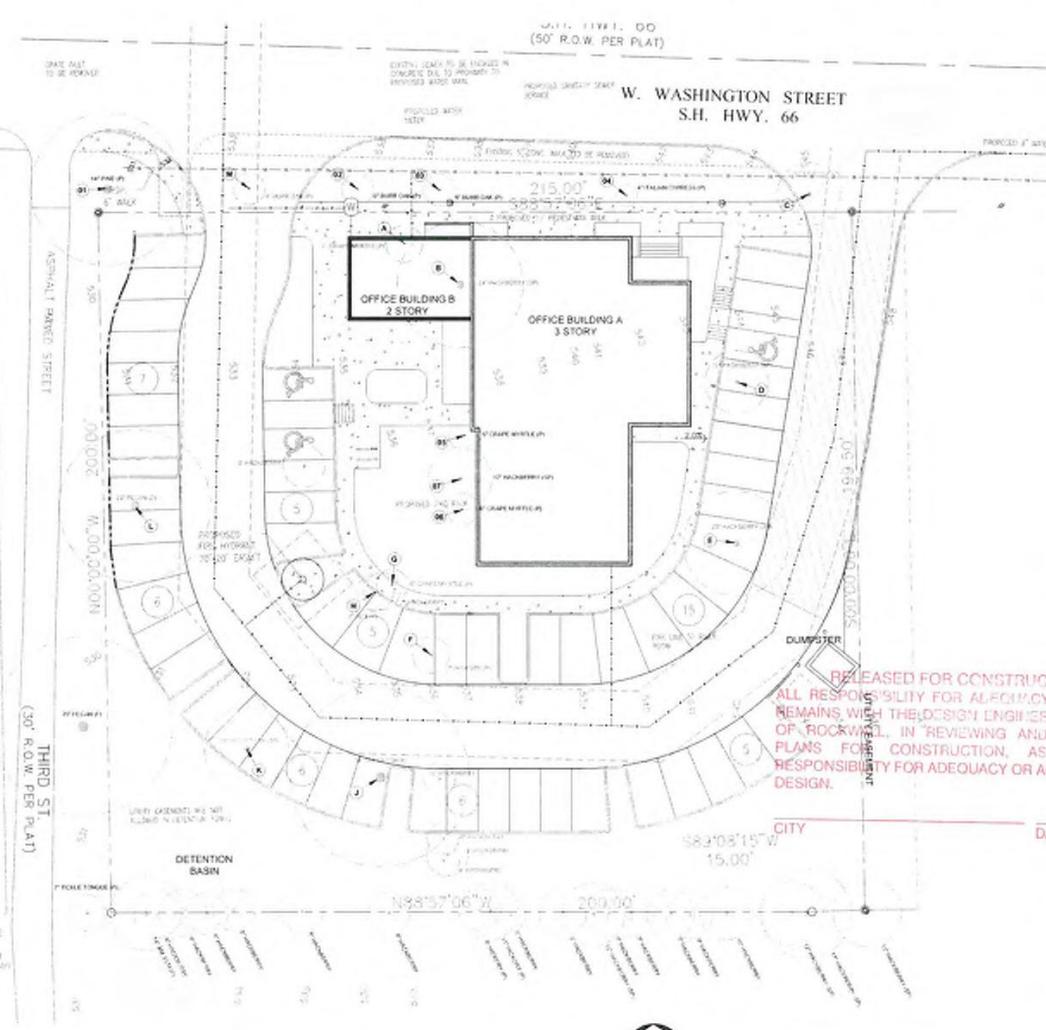

(a) The developer/property owner can provide the required number of three-inch-caliper DBH minimum-on-the subject property to offset the total mitigation balance (e.g. if the total mitigation balance is new inches, three three-inch caliper trees could be planted on site to satisfy the mitigation requirements).

(b) The developer/property owner may petition the park and recreation department to accept the required number of three three-inch caliper DBH minimums to offset the total mitigation balance (e.g. if the total mitigation balance is nine inches then three three-inch caliper trees could be submitted to the park and recreation department to satisfy the mitigation requirements). Developers/property owners shall submit a letter to the park and recreation department requesting a petition prior to accepting the trees.

(c) Tree preservation credits may be purchased at a rate of \$200.00 per inch for up to 25 percent of the total mitigation inches (e.g. if total mitigation required was 100 inches the developer/property owner could pay a total of \$4,000.00 (i.e. $(25\% \times 100) \times \$200.00 = \$4,000.00$) into the city's tree fund; however, the developer/property owner would still be required to plant 100 inches of mitigation trees on the subject property). The developer/property owner plants a tree on the property for which the tree preservation credit was assessed or (ii) a location that is mutually agreed upon by the city and the developer/property owner. The developer/property owner shall be eligible for a reduction in the cost of tree preservation credits of up to 50 percent. These funds will be deposited in the city's tree mitigation fund and will be used for planting trees in the city's parks, medians, street right-of-way, or other similar areas as determined by the parks and recreation department.

(d) Trees required by article VIII, landscape standards, of the Unified Development Code shall be permitted to be substituted from the total mitigation balance if provided on site as part of the required landscaping.

6. Alternative tree mitigation settlement agreements. In certain cases, the city engineer's recommendation for the planning and zoning commission may consider alternative tree mitigation agreements when due to feasibility, the applicant is unable to meet the requirements of this article or where it is determined that adherence to the tree mitigation requirements will create a hardship for an applicant. Those funds will be deposited in the city's tree mitigation fund and will be used for planting trees in the city's parks, medians, street right-of-way, or other similar areas as determined by the parks and recreation department.

TOTAL CALIPER INCHES OF TREES TO BE REMOVED: 158"

158 x 20% = 31.6 - 125" minimum to be planted as mitigation

A licensed arborist has determined that tree #1 is diseased and should be removed to prevent property damage.

The intent of this drawing is to show existing trees to be preserved or removed in order to develop the proposed project. Property owner will be responsible for any fees or penalties levied at the discretion of The City of Rockwall. Demolition contractor is responsible for ensuring all required permits and paperwork from the City of Rockwall are in place before beginning demolition.

Refer to The City of Rockwall - Article IX - TREE PRESERVATION

also The City of Rockwall - Article VIII - LANDSCAPE STANDARDS

THE ARE THREE EXISTING FEATURE TREES ON THIS SITE (ie. 25" caliper or more of the protected species) THESE TREES ARE TO BE REMOVED.

NOTE:
ALL BOUNDARY TREES ALONG THE SOUTH PROPERTY LINE ARE TO REMAIN. PROTECT ANY TREES THAT ARE CLOSE PROXIMITY TO GRADING OR CONSTRUCTION ACTIVITIES.

SECTION 5 - TREE MITIGATION REQUIREMENTS

The tree mitigation requirement for all properties that do not fall under the exemptions listed in section I.3. Exemptions, of this article. In addition, if a tree mitigation requirement is placed above the number of a protected or feature tree, the applicant and/or property owner shall account for the number of inches of tree being removed using the following criteria:

1. Primary protected trees. Primary protected trees measuring four inches through 25 inches DBH shall be replaced on an inch for inch basis (i.e. the total number of caliper inches of trees being replaced shall equal the total number of inches of inches being replaced).

2. Secondary protected trees. Hawkberry and Live Oak trees measuring 11 inches through 24 inches DBH shall be replaced with a half-inch for every inch removed (i.e. the total number of inches of trees being replaced shall be half of the inches being removed).

3. Feature trees. Feature trees (i.e. all trees greater than 25 inches) shall be replaced with twice the number of inches being removed (i.e. the total number of caliper inches of trees being replaced shall be twice the number of caliper inches being removed).

4. Non-protected trees. Non-mitigation will be required for the removal of any tree that is less than four inches DBH or less than 11 inches DBH for hickory and cedar trees. In addition, no mitigation shall be required for the removal of any tree that is less than 11 inches DBH for all other trees.

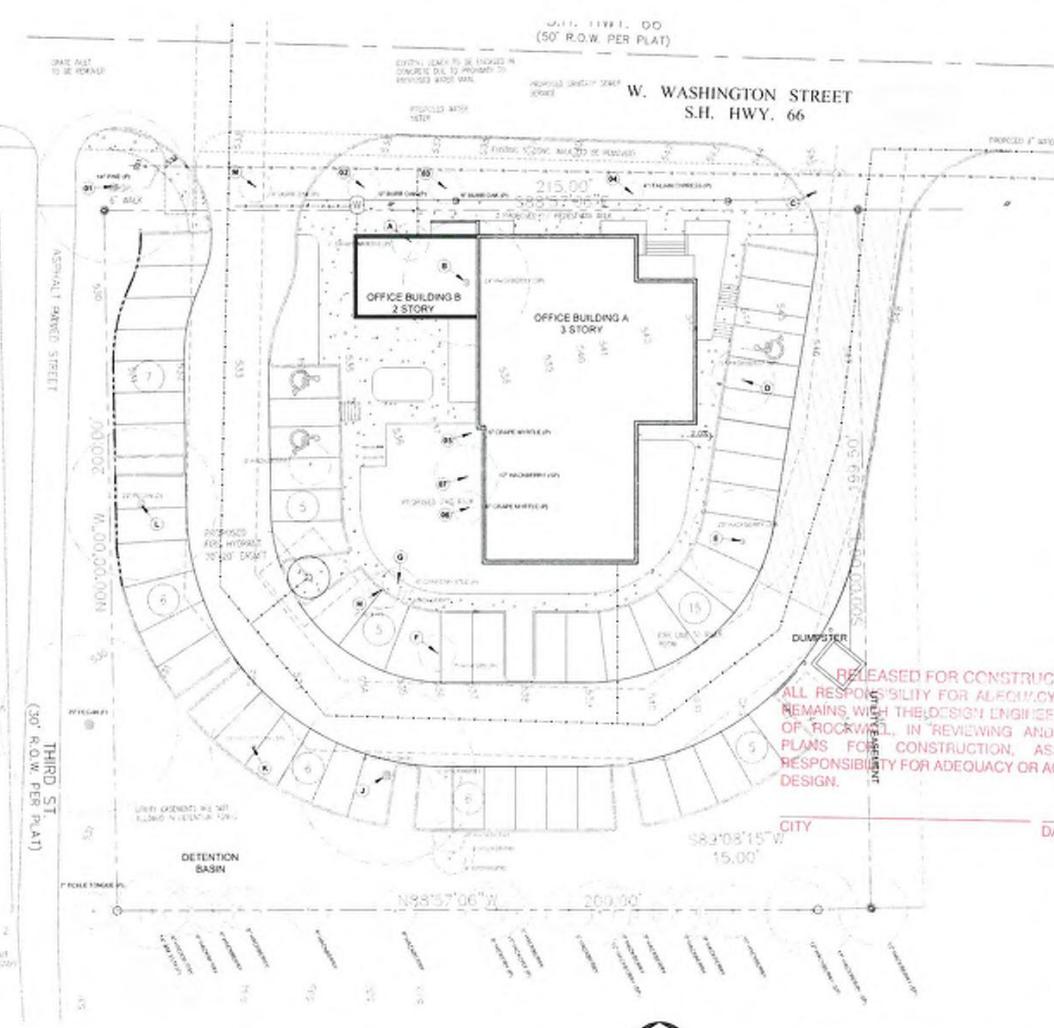

5. Tree mitigation credits. For each tree removed, one or more trees 25 inches or greater in diameter or greater the mitigation balance can be reduced on an inch-for-inch basis up to 70 percent of the total mitigation balance (i.e. total mitigation balance - Total eligible tree preservation credits = Total mitigation balance). Total mitigation balance (i.e. mitigation balance - tree preservation credits + Total mitigation balances may be satisfied through one or a combination of the following:

(i) The developer/property owner can provide the required number of trees three-inch caliper DBH minimum on the subject property to offset the total mitigation balance (e.g. if the total mitigation balance is new inches, three three-inch caliper trees could be planted on site to satisfy the mitigation requirements).

(ii) The developer/property owner may petition the park and recreation department to accept the required number of trees three-inch caliper DBH minimum to offset the total mitigation balance (e.g. if the total mitigation required was 100 inches the developer/property owner could pay a total of \$4,000.00 (i.e. 125% x 100) + \$250.00 = \$4,000.00) into the city's tree fund; however, the park and recreation department reserves the right to accept or decline the offer. Once accepted, the developer/property owner plants a tree on the property for which the tree preservation credit was assessed or (iii) a location that is mutually agreed upon by the city and the developer/property owner, the developer/property owner shall be eligible for a reduction in the cost of tree preservation credits of up to 50 percent. These funds will be deposited in the city's tree mitigation fund and will be used for planting trees in the city's parks, medians, street right-of-way, or other similar areas as determined by the parks and recreation department.

(iv) Trees required by article VIII, landscape standards, of the United Development Code shall be permitted to be substituted from the total mitigation balance if provided on site as part of the required landscaping.

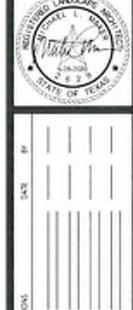

T. Alternative tree mitigation settlement agreements. In certain cases, the city engineer's recommendation for the planning and zoning commission may consider alternative tree mitigation agreements when due to feasibility, the applicant is unable to meet the requirements of this article or where it is determined that adherence to the tree mitigation requirements will create a hardship for an applicant. Those funds will be deposited in the city's tree mitigation fund and will be used for planting trees in the city's parks, medians, street right-of-way, or other similar areas as determined by the parks and recreation department.

CITY OF ROCKWALL

PLANNING AND ZONING COMMISSION MEMORANDUM

PLANNING AND ZONING DEPARTMENT

385 S. GOLIAD STREET • ROCKWALL, TX 75087

PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO: Planning and Zoning Commission
FROM: Bethany Ross, Planner
DATE: February 25, 2025
SUBJECT: SP2025-004; Site Plan for 409 W. Washington

The applicant, Marlin Smith of Washington Place on Highway 66, LP, is requesting the approval of a Site Plan for a three (3) story, 14,789 SF *office building*. The subject property was annexed prior to 1959, is zoned Downtown (DT) District, and is situated within the SH-66 Overlay (SH-66OV) District. On July 6, 2020, the City Council approved a replat [Case No. P2020-025] of Lots 4 & 5, Block A, Washington Place Addition. On January 14, 2020, the Planning and Zoning Commission approved a Site Plan [Case No. SP2019-044] for a three (3) story 14,789 SF *office building* on the subject property. The site plan approval was set to expire on January 14, 2022 in accordance with Subsection 03.05(A), *Site Plan Expiration*, of Article 11, *Development Applications and Review Procedures*, of the Unified Development Code (UDC); however, at that time the applicant had an active Engineering submittal [Case No. E2020-010]. The Engineering Plans were approved on August 31, 2020, and were considered to be valid for a period of one (1) year. On June 23, 2021, the applicant submitted a building permit [Case No. COM2021-3194]; however, this permit expired due to inactivity on June 23, 2022.

In response to this expiration, the applicant resubmitted the same Site Plan on February 14, 2025. The submitted Site Plan was the same as the original Site Plan approved under Case No. SP2019-044, with the exception of minor changes being made to the Photometric Plan. As part of the review for this case, staff has indicated to the applicant that the Photometric Plan will need to be changed to meet the lighting and photometric standards of the Unified Development Code (UDC), and this is considered a condition of approval for this case. Staff has attached the original Site Plan case memo since nothing has changed in the requirements of the Downtown (DT) District that would affect the approval of this case. As part of this case, the Planning and Zoning Commission will be tasked with reviewing the previous Site Plan approval -- *including the variances/exceptions that were granted* -- and determining if the proposal meets the criteria for Site Plan approval as outlined in Subsection 03.04, *Site Plan Review*, of Article 11, *Development Applications and Review Procedures*, of the Unified Development Code (UDC). In addition, staff will be taking the proposed building elevations back to the Architectural Review Board (ARB) prior to the meeting on February 25, 2025, and will provide an updated recommendation from the ARB to the Planning and Zoning Commission. Should the Planning and Zoning Commission have any questions concerning the applicant's request, staff and the applicant will be available at the February 25, 2025 Planning and Zoning Commission meeting.

TO: Planning and Zoning Commission
DATE: January 14, 2020
APPLICANT: Steven Reyes; *Ramsay and Reyes Architecture, LLC*
CASE NUMBER: SP2019-044; *Site Plan for 409 W. Washington Street*

SUMMARY

Discuss and consider a request by Steven Reyes of Ramsay & Reyes, LLC on behalf of Jimmy McClintock of LMGC, LLC for the approval of a site plan for an office building on a 0.739-acre tract of land identified as a portion of Lot 14 of the Lowe & Allen Addition [0.4590-acres] and Lot 2-R, Block A, Washington Place Addition [0.28-acres], City of Rockwall, Rockwall County, Texas, zoned Downtown (DT) District, situated within the SH-66 Overlay (SH-66 OV) District, addressed as 409 W. Washington Street, and take any action necessary.

BACKGROUND

The subject property was annexed prior to 1959, is zoned Downtown (DT) District, is situated within the SH-66 Overlay (SH-66 OV) District, and is considered to be a part of one of the original areas of the City of Rockwall. On May 26, 2017, a building permit was issued [BLD2017-1600] for to allow the demolition of a single-family home on the subject property. Subsequently, in 2018, a building permit was issued [BLD2018-0900] to allow the demolition of a carport, a garage, and a barn on the subject property. Since that time, the property has remained vacant.

PURPOSE

The applicant has submitted a request for approval of a site plan for an office building on the subject property. The proposed office building will be approximately 16,502 SF, will be clad with brick, and will utilize a flat roof system, which is typical of the existing buildings within the Downtown (DT) District. The proposed building is designed to give the appearance of two (2) attached buildings with one (1) building being two (2) stories in height and the other building being three (3) stories in height.

ADJACENT LAND USES AND ACCESS

The subject property is located at 409 W. Washington Street. The land uses adjacent to the subject property are as follows:

North: Directly north of the property is W. Washington Street, which is identified as a *P3U (principle arterial, three [3]-lane, undivided roadway)* on the City's Master Thoroughfare Plan. Following this, there is a vacant tract of land and W. Rusk Street, which is identified as a *P3U (principle arterial, three [3]-lane, undivided roadway)* on the City's Master Thoroughfare Plan. Beyond this, there are several single-family homes. These areas are zoned Downtown (DT) and Single-Family 7 (SF-7) District.

South: Directly south of the subject property, there is a cemetery that is owned by the City of Rockwall. Following this, there are two (2) single-family residential subdivisions (*i.e. Stonebridge Meadows, Phases 4, 3, & 2; and Ridgeview Subdivisions*) and a condominium complex (*i.e.*

Bent Tree Condominiums). These areas are zoned Cemetery (CEM), Single-Family 7 (SF-7) and Multi-Family 14 (MF-14) Districts.

East: Directly east of the subject property, there is a vacant tract of land, a real estate office (*i.e. Gold Key Realty*), and a daycare facility (*i.e. Marigold Learning Academy*). Following this, there are several vacant tracts of land, a city-owned parking lot, and N. Goliad Street, which is identified as a *P3U (principle arterial, three [3]-lane, undivided roadway)* on the City's Master Thoroughfare Plan.

West: Directly west of the subject property, there is a single-family home and a City-owned cemetery. Following this, there is a daycare facility (*i.e. Children's Park Day Care*), a vacant tract of land, an office building, and a veterinary hospital (*i.e. Avery Veterinary Clinic*). Beyond this, there is a retail store with gasoline sales (*i.e. Shell*), a single-family residential subdivision (*i.e. Stonebridge Meadows, Phases 4 & 5*) and S. Lakeshore Drive, which is identified as a minor collector on the City's Master Thoroughfare Plan. These areas are zoned Downtown (DT), Cemetery (CEM), General Retail (GR), Single-Family 7 (SF-7), and Single-Family 10 (SF-10) Districts.

DENSITY AND DIMENSIONAL REQUIREMENTS

According to Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*, of the Unified Development Code (UDC) the proposed office building is permitted by-right in the Downtown (DT) District. With the exception of the minor waivers being requested, the submitted site plan, landscape plan, treescape plan, photometric plan, and building elevations generally conform to the technical requirements contained within the UDC for a property located within the Downtown (DT) District. A summary of the density and dimensional requirements for the subject property are as follows:

Ordinance Provisions	Zoning District Standards	Conformance to the Standards
<i>Building Height</i>	Min. 2 Stories Max. 4 Stories	X=2 Stories and 3 Stories; <i>In Conformance</i>
<i>Minimum Front Yard Setback</i>	24-Feet	X=24-Feet; <i>In Conformance</i>
<i>Pedestrian Walkway Width</i>	10-Feet	X=10-Feet; <i>In Conformance</i>
<i>Minimum Masonry Requirement</i>	100%	X=100%; <i>In Conformance</i>
<i>Minimum Number of Parking Spaces</i>	55 Spaces	X=55 Spaces; <i>In Conformance</i>

TREESCAPE PLAN

The applicant has indicated that there are no protected trees requiring mitigation on the subject property.

CONFORMANCE WITH THE CITY'S CODES

The proposed office building conforms to the requirements stipulated in Subsection 4.07, *Downtown (DT) District*, of Section 4, *Commercial Districts*, of Article V, *District Development Standards*, of the Unified Development Code (UDC) as follows:

- (1) Function/Land Use. Retail, personal service, residential, and office uses shall be allowed throughout the district. In this case, the proposed use is an office building and conforms to this requirement.
- (2) Block Face. Building walls should be continuous along block faces to create a strong edge to the street and contribute to creating an attractive and active pedestrian environment. In this case, the building utilizes a design that gives the appearance of two (2) buildings with a continuous block face. The building will also utilize contrasting brick patterns/colors to give the appearance of two (2) attached buildings.

- (3) *Building Form*. Buildings shall be designed and constructed in a tri-partite architecture to that they have a distinct base, middle, and top. The proposed building elevations appear to conform to this requirement.
- (4) *External Façade Materials*. Ground floor exterior walls, excluding windows and doors, shall be constructed of 100% brick, natural or cast stone. The applicant is proposing to utilize 100% brick.
- (5) *Color*. The dominant color of all buildings shall be muted shades of warm grey, red, green, beige, or brown. Black, gold, and stark white shall not be used except as an accent color. The submitted building elevations indicate that the brick will be brown.
- (6) *Non-residential at Grade*. The ground floor entry must be located at the approximate elevation of the adjacent sidewalk. All of the proposed entryways conform to this requirement.

VARIANCES/EXCEPTIONS REQUESTED BY THE APPLICANT

Based on the information submitted by the applicant, staff has identified the following exception to the requirements of the Unified Development Code (UDC):

(1) Building Standards

- (a) *Architectural Features*. According to Subsection 4.07, *Downtown (DT) District*, of Section 4, *Commercial Districts*, of Article V, *District Development Standards*, of the Unified Development Code (UDC), each building and separate lease space at grade along the street edge shall have a functioning primary entry from the sidewalk. Such entries must be inset from the front building plane by at least five (5)-feet. Secondary entries may be set back as little as three (3)-feet. Functioning entries must be located no greater than 30-feet apart. The applicant is providing two (2) primary entries adjacent to W. Washington street; however, the entryways are not recessed five (5) feet behind the building plane. Alternatively, the applicant has provided a stoop with a canopy at the entryway located closest to the eastern property line and a canopy at the entryway closest to the western property line. Additionally, the distance between the two (2) entries is greater than 30-feet (*i.e. approximately 60-feet*). Since this does not meet the requirements stipulated in the Unified Development Code (UDC), approval of a minor waiver is required. The Unified Development Code gives staff the ability to approve minor waivers administratively; however, staff felt it necessary to allow the Architectural Review Board (ARB) and the Planning and Zoning Commission to review the request and determine if approval of a minor waiver is necessitated.

CONFORMANCE WITH OURHOMETOWN VISION 2040 COMPREHENSIVE PLAN

The Future Land Use Plan adopted with the OurHometown Vision 2040 Comprehensive Plan, indicates that the subject property is located within the Downtown District and is designated for *Downtown (DT)* land uses. The Downtown District is considered to be the cultural heart of the community and embodies the small-town atmosphere that is characteristic of the City of Rockwall. Being the original town area, this district is significantly developed and contains the City's oldest residential and commercial buildings. It is expected that the Downtown District will continue to prosper through investments in appropriate infill development and adaptive reuse of existing structures. New development in this area should be held to a higher level of scrutiny than other areas of the City to ensure that the district retains its small-town character. The *Downtown (DT)* land use designation should include a combination of land uses that are complementary to the existing development pattern and are intended to add the attractive, pedestrian-oriented environment of Rockwall's historic downtown. In addition, this area is the historic core of the City and should continue to be a symbol of community life in Rockwall. Primary land uses include office, retail restaurant, and residential land uses while secondary land uses include institutional and civic land uses. In this case, the proposed office building is considered to be a primary use within the Downtown District and appears to be in conformance with the policies and goals contained in the Comprehensive Plan.

ARCHITECTURAL REVIEW BOARD (ARB):

On November 26, 2019, the Architectural Review Board (ARB) reviewed the proposed building elevations and requested that the applicant provide additional windows for balance, to provide primary entryways adjacent to W. Washington Street, to increase the smaller building to two (2) stories, to raise the parapet on the rear of the building, and to provide an updated rendering. The applicant has provided revised plans that appear to generally conform to these requests.

On December 30, the Architectural Review Board (ARB) was unable to make a quorum, and as a result, the proposed building elevations have not been reviewed. The Architectural Review Board (ARB) will review the proposed building elevations and forward a recommendation to the Planning and Zoning Commission at the meeting on January 14, 2020.

CONDITIONS OF APPROVAL

If the Planning and Zoning Commission choose to approve the applicant's request to, then staff would propose the following conditions of approval:

- (1) All comments provided by the Planning, Engineering, and Fire Department must be addressed prior to the submittal of a building permit;
- (2) Any construction resulting from the approval of this site plan shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

DEPARTMENT	REVIEWER	DATE OF REVIEW	STATUS OF PROJECT
PLANNING	Bethany Ross	02/19/2025	Approved w/ Comments

02/19/2025: SP2025-004; Site Plan for 409 W. Washington Street

Please address the following comments (M= Mandatory Comments; I = Informational Comments)

I.1 This is a request by Marlin Smith of Washington Place on Highway 66, LP for the approval of a Site Plan for an Office Building on a 0.99-acre parcel of land identified as Lot 4, Block A, Washington Place Addition, City of Rockwall, Rockwall County, Texas, zoned Downtown (DT) District, situated within the SH-66 Overlay (SH-66 OV) District, and addressed as 409 W. Washington Street.

I.2 For questions or comments concerning this case please contact Bethany Ross in the Planning Department at (972) 772-6488 or email bross@rockwall.com.

M.3 For reference, include the case number (SP2025-004) in the lower right-hand corner of all pages of all revised plan submittals. (Subsection 01.02(D), Article 11, UDC)

I.4 On January 14, 2020, the Planning and Zoning Commission approved a Site Plan [Case No. SP2019-044] for a three (3) story 14,789 SF office building on the subject property. The site plan approval was set to expire on January 14, 2022 in accordance with Subsection 03.05(A), Site Plan Expiration, of Article 11, Development Applications and Review Procedures, of the Unified Development Code (UDC); however, at that time the applicant had an active Engineering submittal [Case No. E2020-010]. The Engineering Plans were approved on August 31, 2020, and were considered to be valid for a period of one (1) year. On June 23, 2021, the applicant submitted a building permit [Case No. COM2021-3194]; however, this permit expired due to inactivity on June 23, 2022.

M.5 Photometric Plan. Please provide a photometric plan that meets the requirements of the UDC. The allowable maximum light intensity measured at the property line of any non-residentially zoned lot shall be 0.2 of one (1) footcandle or 0.2 FC.

I.6 Please note that failure to address all comments provided by staff by 3:00 PM on March 4, 2024 will result in the automatic denial of the case on the grounds of an incomplete submittal. No refund will be given for cases that are denied due to an incomplete submittal, and a new application and fee will be required to resubmit the case.

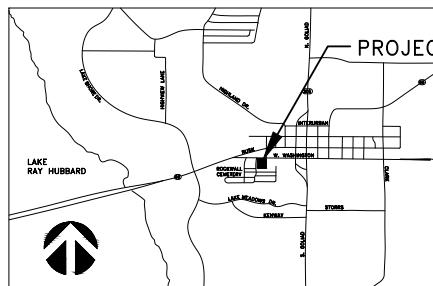

I.7 Please note the scheduled meetings for this case:

(1) Planning & Zoning Work Session meeting will be held on February 25, 2025.

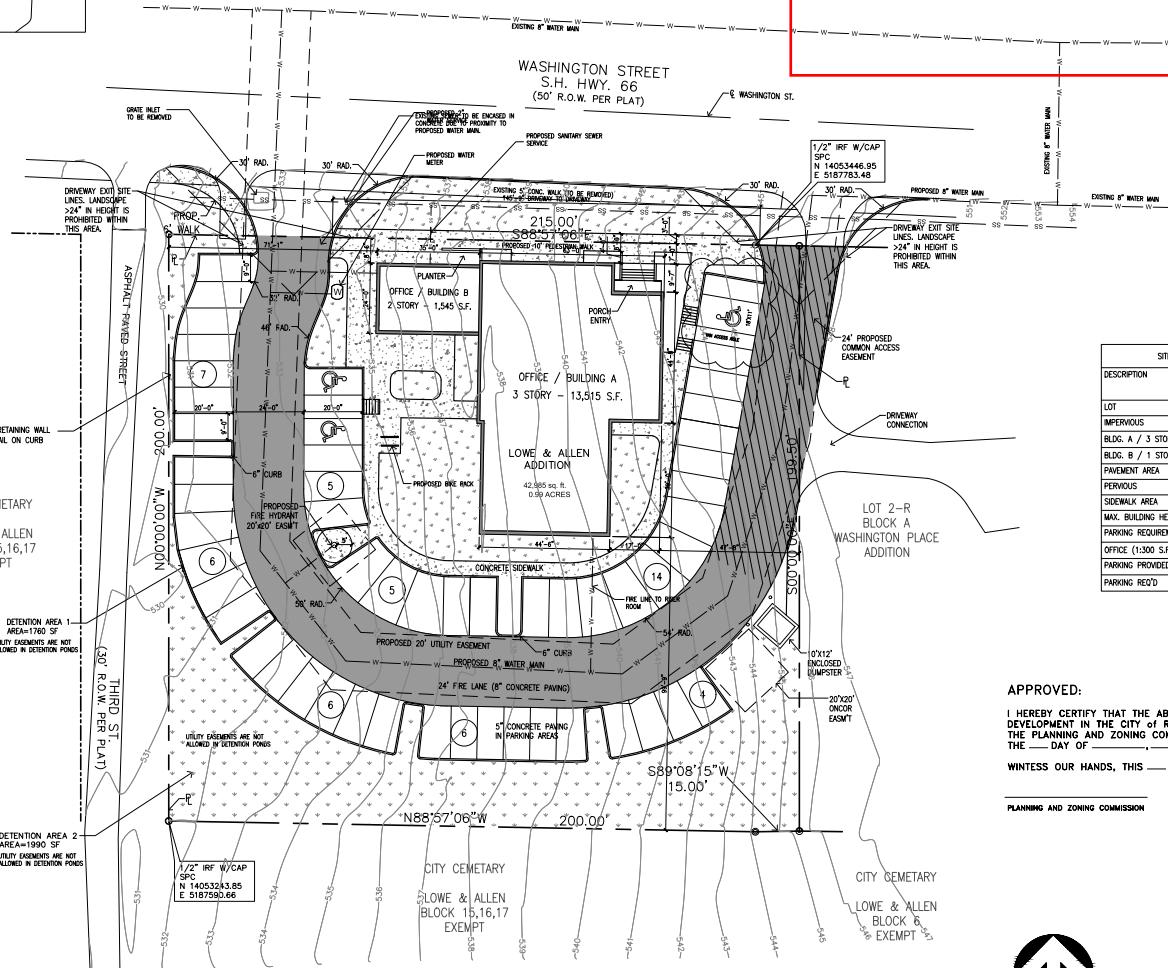

I.8 All meetings will be held in person and in the City's Council Chambers. All meetings listed above are scheduled to begin at 6:00 p.m. (P&Z). The City requires that a representative(s) be present for these meetings. During the upcoming work session meeting with the Planning and Zoning Commission, representative(s) are required to present their case and answer any questions the Planning Commission may have regarding this request.

DEVELOPMENT APPLICATION

City of Rockwall
Planning and Zoning Department
385 S. Goliad Street
Rockwall, Texas 75087

STAFF USE ONLY
PLANNING & ZONING CASE NO.

NOTE: THE APPLICATION IS NOT CONSIDERED ACCEPTED BY THE CITY UNTIL THE PLANNING DIRECTOR AND CITY ENGINEER HAVE SIGNED BELOW.

DIRECTOR OF PLANNING:
CITY ENGINEER:

PLEASE CHECK THE APPROPRIATE BOX BELOW TO INDICATE THE TYPE OF DEVELOPMENT REQUEST [SELECT ONLY ONE BOX]

PLATTING APPLICATION FEES:

- MASTER PLAT (\$100.00 + \$15.00 ACRE)¹
- PRELIMINARY PLAT (\$200.00 + \$15.00 ACRE)¹
- FINAL PLAT (\$300.00 + \$20.00 ACRE)¹
- REPLAT (\$300.00 + \$20.00 ACRE)¹
- AMENDING OR MINOR PLAT (\$150.00)
- PLAT REINSTATEMENT REQUEST (\$100.00)

SITE PLAN APPLICATION FEES:

- SITE PLAN (\$250.00 + \$20.00 ACRE)¹
- AMENDED SITE PLAN/ELEVATIONS/LANDSCAPING PLAN (\$100.00)

ZONING APPLICATION FEES:

- ZONING CHANGE (\$200.00 + \$15.00 ACRE)¹
- SPECIFIC USE PERMIT (\$200.00 + \$15.00 ACRE)¹⁺²
- PD DEVELOPMENT PLANS (\$200.00 + \$15.00 ACRE)¹

OTHER APPLICATION FEES:

- TREE REMOVAL (\$75.00)
- VARIANCE REQUEST/SPECIAL EXCEPTIONS (\$100.00)²

NOTES:

¹ IN DETERMINING THE FEE, PLEASE USE THE EXACT ACREAGE WHEN MULTIPLYING BY THE PER ACRE AMOUNT FOR REQUESTS ON LESS THAN ONE ACRE, ROUND UP TO ONE (1) ACRE.
² A \$1,000.00 FEE WILL BE ADDED TO THE APPLICATION FEE FOR ANY REQUEST THAT INVOLVES CONSTRUCTION WITHOUT OR NOT IN COMPLIANCE TO AN APPROVED BUILDING PERMIT

TOTAL CALIPER INCHES OF TREES TO BE REMOVED: 158"

158 x 20% = 31.6 - 125" minimum to be planted as mitigation

A licensed arborist has determined that tree #1 is diseased and should be removed to prevent property damage.

The intent of this drawing is to show existing trees to be preserved or removed in order to develop the proposed project. Property owner will be responsible for any fees or penalties levied at the discretion of The City of Rockwall. Demolition contractor is responsible for ensuring all required permits and paperwork from the City of Rockwall are in place before beginning demolition.

Refer to The City of Rockwall - Article IX - TREE PRESERVATION

also The City of Rockwall - Article VIII - LANDSCAPE STANDARDS

THE ARE THREE EXISTING FEATURE TREES ON THIS SITE (ie. 25" caliper or more of the protected species) THESE TREES ARE TO BE REMOVED.

NOTE:
ALL BOUNDARY TREES ALONG THE SOUTH PROPERTY LINE ARE TO REMAIN. PROTECT ANY TREES THAT ARE CLOSE PROXIMITY TO GRADING OR CONSTRUCTION ACTIVITIES.

SECTION 5 - TREE MITIGATION REQUIREMENTS

The tree mitigation requirement for all properties that do not fall under the exemptions listed in section I.3. Exemptions, of this article. In addition, if a tree mitigation requirement is placed above the number of a protected or feature tree, the applicant and/or property owner shall account for the number of inches being removed using the following criteria:

1. Primary protected trees. Primary protected trees measuring four inches through 25 inches DBH shall be replaced on an inch for inch basis (i.e. the total number of caliper inches of trees being replaced shall equal the total number of inches being removed).

2. Secondary protected trees. Secondary protected trees measuring 11 inches through 24 inches DBH shall be replaced with a half-inch for every inch removed (i.e. the total number of inches being removed shall be half of the inches being removed).

3. Feature trees. Feature trees (i.e. all trees greater than 25 inches) shall be replaced with twice the number of inches being removed (i.e. the total number of caliper inches being replaced shall be twice the number of inches being removed).

4. Non-protected trees. Non-mitigation will be required for the removal of any tree that is less than four inches DBH or less than 11 inches DBH for hickory and cedar trees. In addition, no mitigation shall be required for the removal of any tree that is less than 25 inches DBH for trees being removed.

5. New mitigation. For each tree removed or cut down, one new tree 25 inches DBH or greater the mitigation balance can be reduced on an inch-for-inch basis up to 70 percent of the total mitigation balance (i.e. total mitigation balance - 20 percent = Total eligible tree preservation credits).

6. Mitigation balance. The total mitigation balance (i.e. mitigation balance - tree preservation credits + total mitigation balances) may be satisfied through one or a combination of the following:

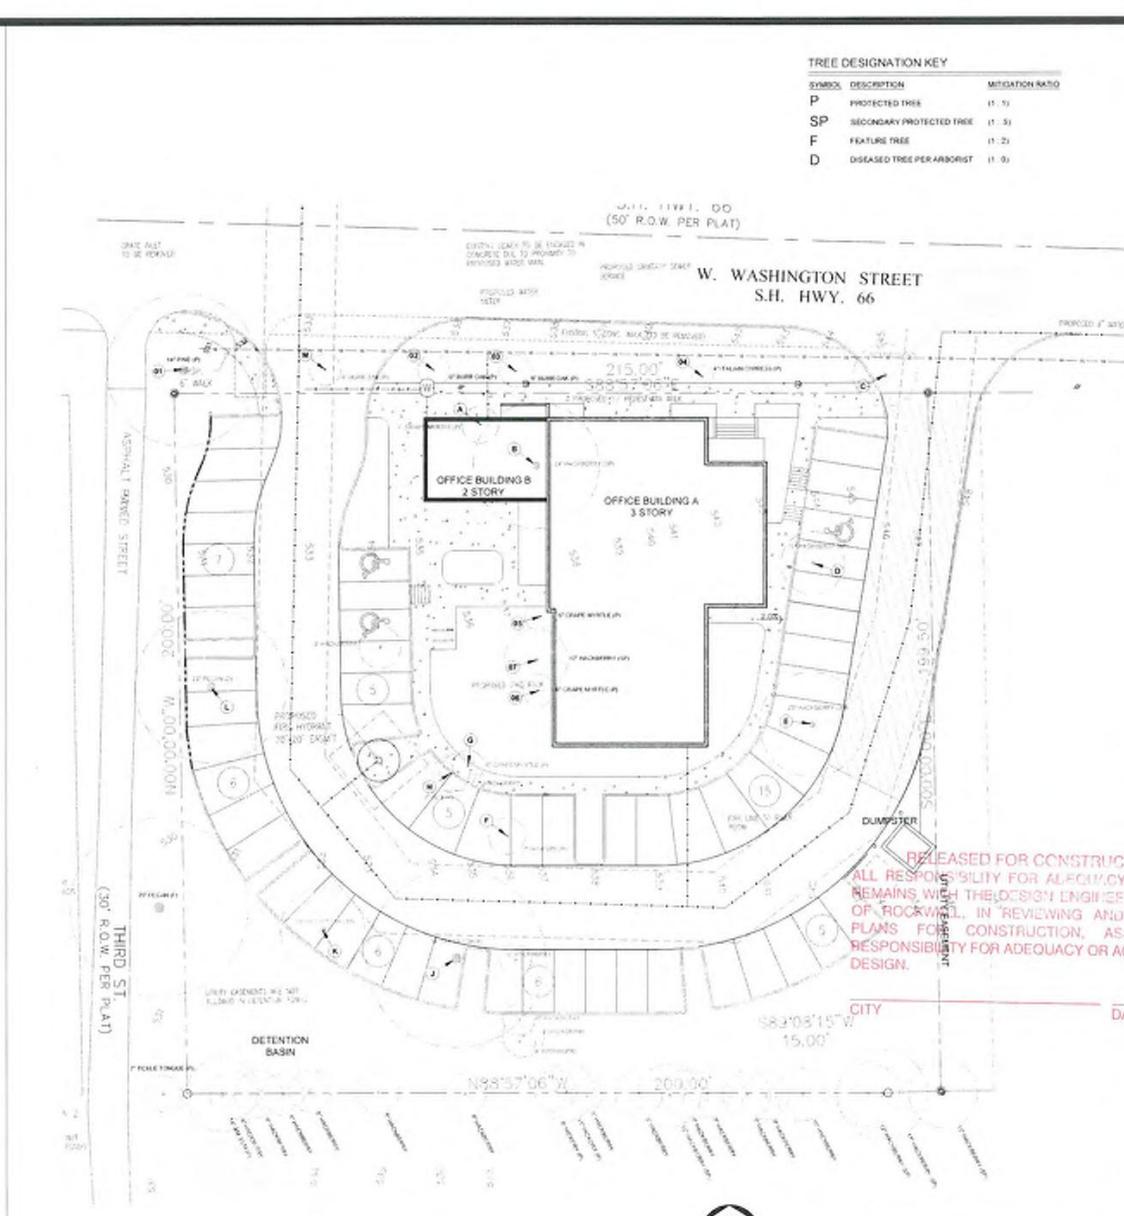

(a) The developer/property owner can provide the required number of trees three-inch caliper DBH minimum on the subject property to offset the total mitigation balance (e.g. if the total mitigation balance is new inches, three three-inch caliper trees could be planted on site to satisfy the mitigation requirements).

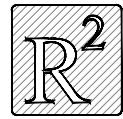

(b) The developer/property owner may petition the park and recreation department to accept the required number of trees three-inch caliper DBH minimum to offset the total mitigation balance (e.g. if the total mitigation balance is nine inches then three three-inch caliper trees could be submitted to the park and recreation department to satisfy the mitigation requirements). Developers/property owners desiring to have trees being submitted the director of parks and recreation designs could require a signed petition in accepting the trees.

(c) Tree preservation credits may be purchased at a rate of \$200.00 per inch for up to 25 percent of the total mitigation inches (e.g. if total mitigation required was 100 inches the developer/property owner could pay a total of \$4,000.00 (i.e. (25% x 100) x \$200.00 = \$4,000.00) into the city's tree fund; however, the developer/property owner would still be required to plant 100 inches of mitigation trees on the subject property). The developer/property owner plants a tree on the property for which the tree preservation credit was assessed or (ii) a location that is mutually agreed upon by the city and the developer/property owner. The developer/property owner shall be eligible for a reduction in the cost of tree preservation credits of up to 50 percent. These funds will be deposited in the city's tree mitigation fund and will be used for planting trees in the city's parks, medians, street right-of-way, or other similar areas as determined by the parks and recreation department.

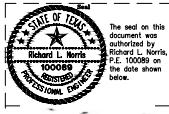

(d) Trees required by article VIII, landscape standards, of the Unified Development Code shall be permitted to be deducted from the total mitigation balance if provided on site as part of the required landscaping.

7. Alternative tree mitigation settlement agreements. In certain cases, the city engineer's recommendation for the planning and zoning commission may consider alternative tree mitigation requirements which allow the applicant to meet the requirements of this article or where it is determined that adherence to the tree mitigation requirements will create a hardship for an applicant those funds will be deposited in the city's tree mitigation fund and will be used for planting trees in the city's parks, medians, street right-of-way, or other similar areas as determined by the parks and recreation department.

American Revolution
Series 247 and 247 Cutoff
50-150W HPS, 100-175W MH

PRODUCT OVERVIEW

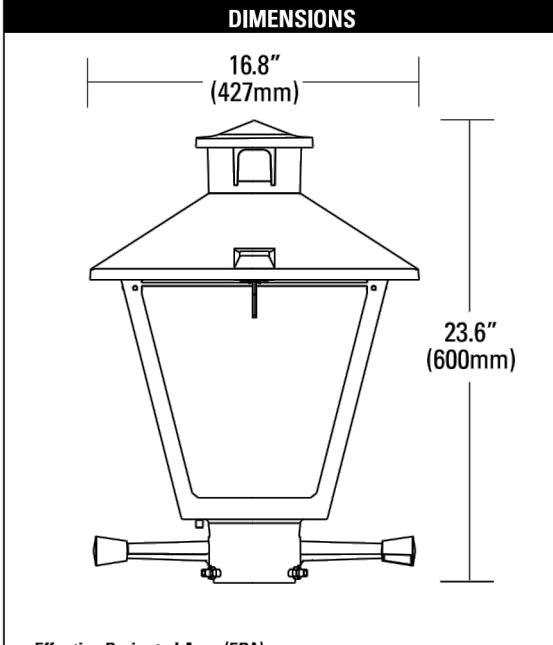

Features:
Die-cast aluminum housing and hood for long-life performance
Die-cast trigger latch (TL) option available for easy access to internal components
Optical assembly designed for maximum performance
Hinged hood and captive screw provision afford quick, easy access to electrical and optical area for relamping or servicing
Slipfitter with three set screws allows secure installation to pole sizes 2-3/8" or 3" O.D.
E39 mogul base socket standard
All electrical components warranted by American Electric Lighting's 6-year guarantee
Complies with ANSI: C136.2, C136.10, C136.15, C136.31 (regular only), C136.16 (FC only)
Suitable for -30°C MH & / +40°C HPS

Applications:
Streetscape
Walkways
Pathways
Parks

ANTIQUES STREET LAMPS

RESONANCE™ BOLLARD 1.0 HID
TLRCB10

CONSTRUCTION:
The luminaire is die cast and permanent mold aluminum. The roof has an internal hinge, hidden from view. Roof and ballast lids are sealed with silicone gaskets. All exposed hardware is weather resistant. FINISH: The luminaire has a powder coat finish utilizing a premium GIC polyester powder. The finish is a three-stage process that consists of drying, powder coating, and curing. Before coating, all parts are treated with a five-stage pretreatment process, consisting of a heated alkaline cleaner, rinse, phosphate coating, rinse and sealer.

Electrical:
The Resonance bollard offers a patented impact-resistant mounting and leveling design ensuring lifelong performance. Three leveling pads within the base mounting plate are easily accessible through the access panel. The leveling pads provide full contact with the concrete pad, providing a high degree of stability. The base mounting plate is fully welded to the bollard post, providing complete structural support from all directions, giving the bollard superior vandal resistance.

Listings:
The luminaire is tested to and meets all NRTL's outdoor requirement standards, wet location use, through the fully accredited and approved CSA laboratory.

FROM: Bethany Ross
City of Rockwall Planning and Zoning Department
385 S. Goliad Street
Rockwall, TX 75087

SUBJECT: SP2025-004; *Amended Site Plan for 409 W. Washington Street*

Jimmy,

This letter serves to notify you that the above referenced case (*i.e. Site Plan*) that you submitted for consideration by the City of Rockwall was approved by the Planning and Zoning Commission on February 25, 2025. The following is a record of all recommendations, voting records:

Staff Recommendations:

The applicant is required to provide an updated photometric plan that meets the requirements of the UDC before the submittal of engineering plans.

Planning and Zoning Commission

On February 25, 2025, the Planning and Zoning Commission approved a motion to approve the *Amended Site Plan* by a vote of 5-0, with Commissioners Deckard and Thompson absent.

Should you have any questions or concerns regarding your site plan case, please feel free to contact me at (972) 772-6488.

Sincerely,

Bethany Ross, Planner
City of Rockwall Planning and Zoning Department
