Fence Permit App, Survey, and photos

Tanya,

I am providing in this email the completed Permit Application, survey and photos of the backyard fence. My neighbor at 5539 Canada Court and I share a common fence. Early on before I had the fence built I contacted my HOA, only because my neighbor ALWAYS causes me grief and is hard to get along with. I asked HOA if it's okay to replace broken fence pickets and also to add board to make a board-on-board in areas to keep privacy from my peering neighbor. They approved. I had no idea whatsoever I needed a permit to put in a new fence. Mainly I assumed that because it was in my back yard and I was under impression in our back yards we could do whatever.

A few weeks later my son-in-law offered to give me six brand-new eight-foot fence panels he had and did not need. They are pine and well built. Instead of mending my very, very old existing fence that all pickets had shrunk with age and weathered over time (had big gaps) had turned black with age, and was so rotten and dried out in places some pickets were breaking. I was excited to have new panels and had a construction man I use to tear down the approx 40-ft section and put in new panels and I purchased some

additional wood to finish out the fence.

I planned to have stained (on my side of fence) the new fence panels. We have had so much rain this season, I could not find a time for the fence wood to dry out from daily rains enough to stain fence and have it set-in for another day or so to dry. Then the covid-19 came along and I have not invited the worker to stain yet. The HOA called last week and said my file was missing the building permit. I told them I had not requested one because I did not know it was required. Therefore, now I am submitting to see how I can work out this issue With permits department.

So that's the story I need to discuss with on-site inspector. I have more to share on the issue in person. Please have inspector to contact me to schedule a time to come to my condo to view. My cell is best and they can also text if I miss a call. Thank you.

Subject: Fence Permit Application

Dear Ms. Mullenix.

Pursuant to our phone conversation today, please find attached a *Building Permit Application* and a copy of your survey on file at [5541 Canada Ct.](#) **Please complete the permit application for your fence replacement and email it back to us at permits@rockwall.com along with the fence replacement section highlighted on the survey.** Once received we will submit for review and approval. Please allow approximately 5 business days. We will email you once approved. Thank you.

City Council approved an [Amended Fence Ordinance](#) this week on Monday, April 6, 2020. I have copied the ordinance for you below:

Fence Standards for Existing and Infill Single-Family and Duplex Properties.

All fences being proposed in established residential areas (i.e. established single-family or duplex subdivision or areas) -- that are not regulated by a Planned Development District ordinance -- shall be architecturally compatible with the design, materials, and colors of the existing fences in the area; however, the following minimum standards shall apply to all fences requiring a fence permit in these areas: (1) Solid Fencing. All solid fencing shall be constructed utilizing standard cedar fencing materials (spruce fencing is prohibited) that are a minimum of ½-inch or greater in thickness. Fences shall be constructed a minimum of six (6) feet in height and a maximum of eight (8) feet in height. Posts, fasteners, and bolts shall be formed from hot dipped galvanized or stainless steel. All cedar pickets shall be placed on the public side and all posts and/or framing shall be placed on the private side when adjacent to a public street (excluding alleyway), open space, public park, and/or neighboring properties. Painting a fence with oil or latex based paint shall be prohibited.

If questions, please contact our office during normal business hours Monday – Friday, 8am – 5pm at 972-771-7709.

Best regards,

Tanya Buehler
