Mr. Miller,

On behalf of Structured Real Estate and Gatehouse Capital, we are reaching out to discuss our collaborative endeavor—the development of a Home2 Suites by Hilton hotel on Fit Sport Life Blvd., Rockwall, Texas. This project is envisioned as a complementary facility to the Fit Sport Life building and is poised to meet the accommodation needs of families visiting for Amerisports tournaments and other local events. We are submitting this letter as our formal application for a Specific Use Permit (SUP), as guided by our pre-development meeting with your office.

The Home2 Suites brand, a contemporary addition to Hilton's collection, has been carefully selected for its proven appeal to both guests and developers. Its design philosophy, emphasizing guest comfort and safety, aligns with the city's standards for temporary lodging. Notably, the Home2 Suites model is distinct from traditional extended-stay hotels, offering short-term lodging without incentives for long-term stays, thereby aligning more closely with the "Limited-Service Hotel" classification as per Article 13 of the Unified Development Code.

Our market research underscores a substantial demand for quality lodging in Rockwall, with Amerisports projecting an annual requirement of 10,000 to 28,000 room nights. The Home2 Suites hotel is strategically positioned to address this need, enhancing Rockwall's capacity to host visitors and support local economic development.

In addition to serving the weekend family and sports traffic generated by Amerisports tournaments, we anticipate that the Home2 Suites hotel will also cater to the business travel needs of the thriving Rockwall Technology Park and its neighboring companies to the south.

As the Rockwall Technology Park continues to expand and welcome new companies, we anticipate a growing demand for midweek business travel accommodations. The Home2 Suites hotel, with its proximity to the park and its suite of business-friendly amenities, is well-positioned to meet this demand, complementing the weekend family and sports traffic.

The proposed hotel will feature guest-friendly amenities such as a fitness center with Peloton bikes, daily complimentary breakfast, and a swimming pool, all of which are designed to serve the families and sports teams that frequent our city. The hotel's operational model, with an average stay of only 2.7 nights, is tailored to the short term nature of our guests' visits, further distinguishing it from the "Residence Hotel" category.

We are committed to providing a safe, welcoming environment for our guests, with 24/7 staffing and internal corridor access to all guestrooms. This commitment extends to the economic well-being of Rockwall, as the hotel is expected to generate jobs and stimulate local spending.

In light of the above, we respectfully request the City of Rockwall's Planning and Zoning Department's favorable consideration of our SUP application for the Home2 Suites by Hilton hotel. We are enthusiastic about the potential of this project to contribute positively to the Rockwall community and are available to provide any further information or engage in discussions at your convenience.

We appreciate your attention to this matter and look forward to the opportunity to contribute to the city's vibrant future.

Sincerely,

Conor Keilty

Studio Suite

The Studio Suite Defined

The Studio Suite was designed with the core Extended Stay guest in mind. It purposefully provides ample space for multiple guests and is the most prominent type of suite in the Home2 guest suite room mix. Defined zones of functionality and experience allow guests to spread out and make the space their own.

Ample storage, lighting, and convenient power throughout support the typical activities taking place in most homes. Working, studying, gaming, surfing the internet, watching TV, reading, or gathering as a family, each guest can claim their spot.

The luggage bench and hooks above offer different places for guests to store their belongings.

With the potential for four guests in this room, the required operable drapery panel allows guests to visually separate the room into two sleeping areas. This provides a degree of privacy, as well as the flexibility to begin or end their day at separate times.

The required signature kitchen provides ample storage for guests' items as well as cookware, dishware and cutlery. A portable cooktop allows guests more flexibility for meal preparation.

The furniture is **hyper functional** and **flexible** to accommodate all guest experiences throughout the day.
