Roy,

Here at Jessup Housing, we use LP Smart Panel which is a wood-based product for exteriors on our homes. Most of the manufacturers within the state and in the manufactured housing industry in general are using Smart Panel as well. The reason behind this is when using a Hardi Board or other concrete based products they tend to crack and break when being installed. There are also cracking/breaking issues when the homes are being transported from the manufacturing plant to their destination. Another benefit for the end buyer when buying a Smart Panel home is the warranty the producers of the Smart Panel can offer. We buy LP Smart Panel that offers a 50-year limited warranty. Both are great products, Smart Panel is just a much easier application that has fewer issues and a great warranty. Hopefully this helps.

Regards,

Jason Bearden
