PRE-APPLICATION MEETING INFORMATION

A Pre-Application Meeting is strongly recommended prior to submittal of a development application. These meetings are held on Thursday morning's beginning at 9:00 AM, by appointment. Representatives from Engineering, Planning, Fire, Parks (if necessary) and Building Departments attend the meeting in an effort to assist you with your project by answering any questions you may have and explaining the development process and timelines.

Due to the number of requests for Pre-Application meetings that are received, staff cannot guarantee an appointment at the next scheduled meeting. We recommend requesting an appointment a minimum of one (1) week in advance. To best facilitate discussion during the meeting, include all conceptual drawings, site plans or other schematics with your completed request. For assistance with this form or other questions, please contact the Planning Department at (972) 771-7745 or at planning@rockwall.com.

PHASE ONE

DEVELOPMENT PROCESS

City of Rockwall Planning and Zoning Department 385 S. Goliad Street Rockwall, Texas 75087

PRE-DEVELOPMENT MEETING

The purpose of the Pre-Development Meeting is to allow the applicant to become more familiar with the City's development codes and procedures and to ensure that the application will contain all the required information. Pre-development meetings are not intended to provide every detail associated with the development process; it is a tool to exchange information between City staff and the applicant. We want the applicant to obtain an understanding of the next steps of the process, be made aware of any major issues, and understand which ordinances apply.

ZONING/SPECIFIC USE PERMIT PROCESS

A requirement for a Specific Use Permit (SUP) or a change in zoning may be necessary to accommodate a proposed use or development. You may consult City staff to obtain zoning information at (972) 771-7745. Once you have determined the zoning classification of your property, consult the Permissible Use Chart located in Article IV, Permissible Uses, of the Unified Development Code located within the City's Municode (link on the City's website) for a list of permitted uses for each zoning classification. If your proposed use is not allowed in your current zoning classification or if it requires a Specific Use Permit (SUP), contact the Planning department about the possibility of a change in zoning.

PHASE FOUR

MASTER PLAT PROCESS

The purpose of a master plat is to delineate the sequence and timing of a development within a proposed subdivision. Additionally, master plats determine compliance with the City's Comprehensive Plan and the availability and capacity of public improvements need to serve a development. Approval of a master plat authorizes an applicant to submit an application for the approval of a preliminary subdivision plat. Please check with City staff to see if a master plat is required for a development proposal.

PRELIMINARY PLAT PROCESS

A preliminary plat is intended to provide sufficient information to evaluate and review the general design of a development and to ensure compliance with the City's Comprehensive Plan, Unified Development Code, Thoroughfare Plan, and the Subdivision Ordinance [Chapter 38 of the Code of Ordinances]. Additionally, when a master plat is required the preliminary plat must conform to the approved master plat.

SITE PLAN PROCESS

Generally, site plan approval is required for all new non-residential and multi-family residential developments (including parking lots) and expansions that enlarge the building footprint and/or parking area by more than 50%. Site plans will be reviewed for conformance with all zoning, subdivision and development regulations of the City.

ENGINEERING PROCESS

TIME: 45 Days Once a project has an approved site plan the project engineer may submit engineering plans to the Engineering Department. After the submittal the staff will prepare comments and relay these comments to the project engineer. Once all staff comments have been adequately addressed and plans have been revised to reflect these changes the plans will be released. For a full scope of the Engineering Department's process and for copies of their application forms please visit the City of Rockwall's website at www.rockwall.com.

PHASE EIGHT

FINAL PLAT PROCESS

After the preliminary plat has been tentatively approved by the city council, a final plat, in the form of a record, shall be prepared in accordance with the conditions of approval and submitted to the city's engineer and planning director for review and transmission to the Planning & Zoning Commission for recommendation to City Council. Staff will be responsible for filing all approved plats with the County. For questions about filing requirements contact City staff at (972) 771-7745.

BUILDING PERMIT PROCESS

Building permits are required before commencing site construction. A Certificate of Occupancy (CO) is issued to the business following the conclusion of your construction activities and must be issued before the facility may be occupied.

NOTE: Not every project will progress through all of the phases above.

DEVELOPMENT BOARDS & COMMISSIONS

City of Rockwall Planning and Zoning Department 385 S. Goliad Street Rockwall, Texas 75087

ARCHITECTURAL REVIEW BOARD (ARB):

The Architectural Review Board is a seven (7) member committee with the purpose of reviewing all site plans within the City. The ARB may require additional information for site plans in an Overlay district, including but not limited to, building materials / color samples, color elevations, artistic renderings, etc. Check with Planning Staff prior to submittal to see if your project will be required to be reviewed by the ARB.

The ARB holds their meetings at 5:00 PM in the City Council Meeting Room (adjacent to the City Council Chambers) on the same evening as the Planning & Zoning Commission Work Session. The ARB Chairman will generally provide the committee's recommendation directly to the Planning & Zoning Commission and applicant at the Planning & Zoning Commission Work Session.

PLANNING & ZONING COMMISSION (P&Z):

The City of Rockwall Planning & Zoning Commission is a seven (7) member commission of appointed officials that holds their meetings at 6:00 PM in the City Council Chambers twice a month. It is imperative that you or your representatives attend both meetings to answer questions the Commission may have. Failure to attend these meetings may delay the application. The first meeting is the Planning & Zoning Work Session. This is an informal meeting that gives the Commission an opportunity to review the request, ask questions of the applicant and recommend any changes at this meeting. As part of the regular development cycle, no action is taken at the Work Session Meeting. The second meeting is the Planning & Zoning Commission's regularly scheduled meeting/public hearing. This is a formal meeting where action is taken on the application. As a part of the decision-making proceeds, the Commission may receive comments during the meeting from the applicant and those interested in issues affecting the City. To ensure that the meeting proceeds in an orderly manner the Commission generally follows the following format:

- (1) The Chairman will call the Commission to order. The minutes of the proceeding meeting shall be submitted for approval.
- (2) The Chairman shall direct attention to the items on the agenda.
- (3) The Commission will receive summary comments from Planning Staff.
- (4) The Chairman will declare the public hearing open if the item is a public hearing.
- (5) The Chairman will announce time for the applicant/representative to come forward to make comments and answer questions regarding the application.
- (6) At this time, the applicant/representative should address the Commission from the podium. Clearly state name and address for the record and proceed with comments. The applicant/representative should be prepared to present sufficient documentation and evidence to justify the proposal.
- (7) If the item is a public hearing the public will be given a chance to address the Commission.
- (8) The applicant will be given a rebuttal.
- (9) The Commission will deliberate and return a verdict.

CITY COUNCIL [1ST & 2ND READINGS]:

The City of Rockwall City Council has two meetings a month that are held at 6:00 PM on the 1st and 3rd Mondays of each month. The City Council is a legislative body that governs the City of Rockwall and is composed of seven (7) members including the Mayor, Mayor Pro-Tem, and five (5) council members. All members of the City Council are elected 'at large' since the City of Rockwall is not divided into specific precincts or districts for municipal elevations. Certain cases may require the approval of the City Council (e.g. Zoning, Platting, and Special Exceptions). In most platting cases, one (1) City Council meeting will be required for approval; however, in cases where a project has an ordinance associated with it a second City Council meeting will be required to have a second reading of the ordinance to satisfy state and local requirements (this is most common with Zoning Cases).

For Questions Concerning this Information Please Contact the Planning & Zoning Department at (972) 771-7745.

Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or
