PUBLIC NOTICE

CITY OF ROCKWALL
PLANNING AND ZONING DEPARTMENT
PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

Property Owner and/or Resident of the City of Rockwall:

You are hereby notified that the Historic Preservation Advisory Board will consider the following application:

Case No. H2025-003: Certificate of Appropriateness (COA) for 603 E. Rusk Street

Hold a public hearing to discuss and consider a request by Kelli Walker for the approval of a Certificate of Appropriateness (COA) for an Addition to a Low Contributing Property being a 0.25-acre tract of land identified as Block 120E of the B. F. Boydston Addition, City of Rockwall, Rockwall County, Texas, situated within the Old Town Rockwall (OTR) Historic District, zoned Single-Family 7 (SF-7) District, addressed as 603 E. Rusk Street, and take any action necessary.

For the purpose of considering the effects of such a request, the Historic Preservation Advisory Board will hold a public hearing on Thursday, February 20, 2025 at 6:00 PM. This hearing will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

Bethany Ross
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by Thursday, February 20, 2025 at 4:00 PM to ensure they are included in the information provided to the Historic Preservation Advisory Board.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

--- PLEASE RETURN THE BELOW FORM ---

Case No. H2025-003: Certificate of Appropriateness (COA) for 603 E. Rusk Street

Please place a check mark on the appropriate line below:

- I am in favor of the request for the reasons listed below.
- I am opposed to the request for the reasons listed below.

Name:

Address:

Tex. Loc. Gov. Code, Sec. 211.006 (d) If a proposed change to a regulation or boundary is protested in accordance with this subsection, the proposed change must receive, in order to take effect, the affirmative vote of at least three-fourths of all members of the governing body. The protest must be written and signed by the owners of at least 20 percent of either: (1) the area of the lots or land covered by the proposed change; or (2) the area of the lots or land immediately adjoining the area covered by the proposed change and extending 200 feet from that area.

PLEASE SEE LOCATION MAP OF SUBJECT PROPERTY ON THE BACK OF THIS NOTICE

Abstract No. 14
B.F. Boydston Survey
City of Rockwall, Rockwall County, Texas

GENERAL FOUNDATION NOTES:

- 1) These foundation notes and details are not applicable when a post tensioned slab is specified. Please refer to the Engineer's notes and details.
- 2) These notes and details were taken from the Dallas, Texas area office of the U.S. Department of Housing and Urban Development, Type "C" Foundation.
- 3) Provide a min. of 4" sand fill except in areas with a high water table. Where a high water table occurs use gravel, crushed stone or comparable material.
- 4) All beams shall penetrate a minimum of 6" into undisturbed soils.
- 5) No "dead end" beams shall be allowed.
- 6) All beams and slab reinforcement to extend within 1-1/2" of exterior forms.
- 7) All concrete shall have a 28 day ultimate compressive strength of 3,000 p.s.i.
- 8) Slab reinforcing shall be tied and supported every 48" or less.
- 9) Lap all bar reinforcing 40 diameters. That's 15" with 3/8" rebars.
- 10) This foundation detail sheet is provided for your convenience. Use at your own risk. It is advised that a qualified licensed Professional Engineer review this foundation design and the soils report to assure this foundation design is correct for the soils it is to be built on.

- Notes:
- All electrical work shall be done in accordance with National Electric Code, Latest Edition.
 - Provide a J-Box below counter for dishwasher, ice machine, compactor and range.
 - Provide waterproof covers on all exterior outlets and ground fault interrupter receptacles in all wet and exterior locations.
 - All Fixtures shall be UL Approved.
 - Provide "button" at entry doors and door chimes.
 - Verify water heater and HVAC electrical requirements prior to construction.
 - Verify all outlet, switch, fixture, television and telephone locations with owner prior to construction.
 - Provide light fixtures and outlets in attic as per owners instructions.
 - Verify all light fixtures and plug type and location with owner prior to installation.
 - Center all light fixtures in each room.

FLOOR + ELECTRICAL PLAN
SCALE 1/4" = 1'-0"

Doors Schedule:

ID#	Size	Description	Quantity
1	2868	Exterior I-Lite Glass Door	1
2	2868	Interior as Selected	1
3	2066	Interior as Selected	1
4	6068	Exterior Atrium Unit	1

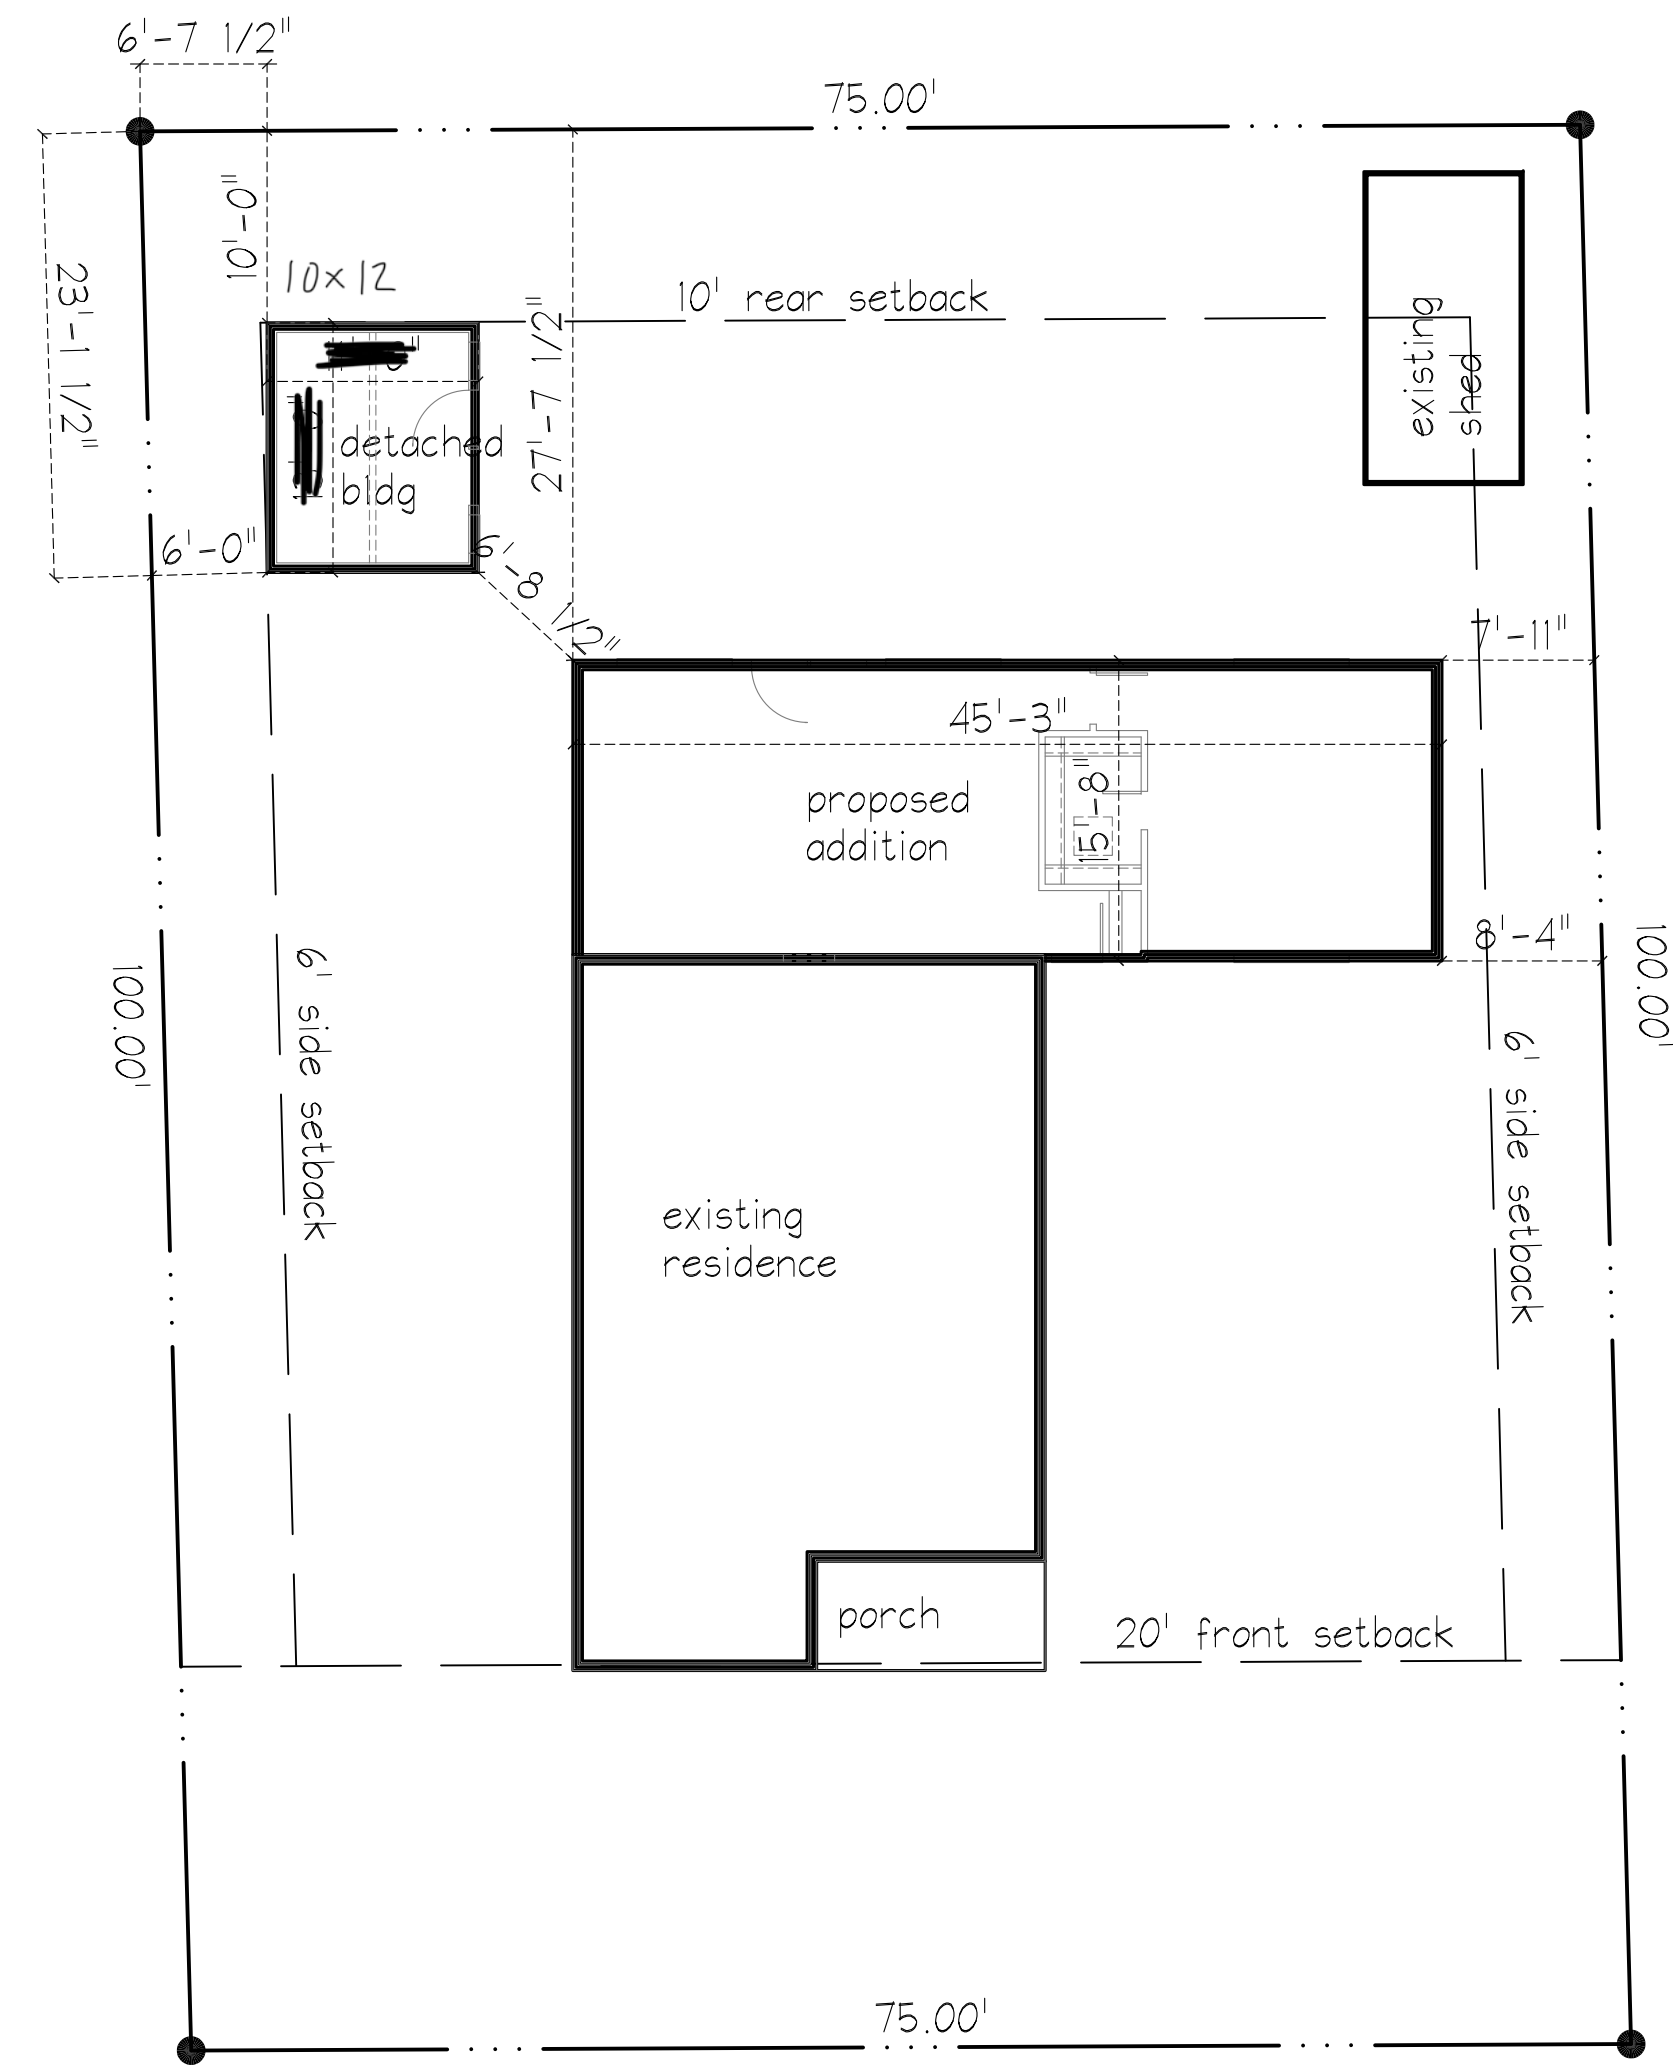

Windows Schedule:

ID#	Size	Description	Quantity
A	Pair 3050	Single Hung	4

All windows in wet areas, in stairwell, and/or closer than 24" to a door to have tempered glass.

Areas:

Existing HVAC Area	850 sq. ft.
New HVAC Area	701 sq. ft.
Total HVAC Area	1,551 sq. ft.

PLOT PLAN
SCALE 1" = 10'-0"

Notes:

- Do not scale drawings, follow dimensions only. All structural information shown for reference purposes only. Contractor shall have licensed structural engineer review and design all structural elements such as all framing walls, beams, connections, headers, joists and rafters.
- All dimensions are from face of stud to face of stud unless otherwise noted.
- Window sizes indicated on plans are noted by approximate rough openings size. Verify window sizes and "owner furnish windows" with owner prior to construction. Refer to plans and exterior elevations for window types.
- All framing shall be done in accordance with IBC latest edition.
- Spread studs at tub ends to accommodate plumbing and provide blocking, top and bottom, at shower to secure plumbing.
- Exterior sheathing shall be 5/8" OSB.
- All interior walls shall be covered with 1/2" gypsum board with metal corner reinforcing. Drywall finish should include taping over joints, applying joint compound and sanding the compound for a smooth finish. Verify with owner the level of drywall texturing.
- All walls and ceilings in garage and garage storage areas to have 5/8" Type-X gypsum board with 1-hour fire rating. All exterior doors in garage and attic access to be metal or solid core with a 20 minute fire rating.
- Provide 1/2" moisture resistant gypsum board at all wet locations.
- All finishes to be chosen and verified by owner.
- Contractor shall field verify all cabinet dimensions before fabrication.
- All millwork to be chosen and verified by owner. Contractor shall submit "shop drawings" at owners request.
- Provide 1/2" cement board for tile backer.
- Provide min. 4 - gang 2x4 studs at glue-lam bearing.
- All work shall be in accordance with National Plumbing Code, Latest Edition.
- Contractor shall provide HVAC "duct layout" for approval prior to fabrication. For coordination with fixtures and diffuser location.
- Verify all column type, size, and material with owner prior to construction.
- Prefabricated fireplace construction shall meet or exceed all applicable codes regarding use of fire separations, clearances, etc. It is the contractor's responsibility to ensure that all items and construction meet or exceed code. Overall flue height shall be coordinated to match height shown on plans and shall not exceed the top of chimney chase as constructed. All fireplace chase walls shall be insulated inside and outside. Provide horizontal "draft stops" at each floor level by packing 6" (R19) insulation between 2x4 joists.
- Provide combustion air vents with screen and back damper for fireplaces, wood stoves and any appliance with an open flame.
- All bath and toilet area walls shall have water resistant gypsum boards.
- All plumbing walls shall be 2x6.
- Bedroom windows shall have a minimum net clear opening of 5.7 square feet, a minimum net clear openable width of 20", a minimum net clear openable height of 24", and have a maximum finish sill height of 42" from finished floor. All glass located within 18" of floor, 24" of a door or located within 60" of floor at bath tubs, whirlpools, showers, saunas, steam rooms, or hot tubs shall be tempered.
- Attic HVAC units shall be located within 20' of its service opening. Return air grills shall not be located within 10' of a gas fired appliance.
- All exposed insulation shall have a flame spread rating of less than 25 and a smoke density rating of less than 450.

Project Description:

We are requesting approval for an addition to our primary residence that will improve its functionality while maintaining its original character. Our proposed project includes:

- A 701-square-foot addition, which will add a living room and a bedroom to the home. Our current home currently lacks a dedicated living room space. With this addition, the home will also become a three-bedroom residence that will better fit our family. The total square footage of the home will increase to 1551 square feet.
- A 10x12 detached home office, intended for remote work. This space will serve solely as a private workspace, with no in-person client visits or business-related foot traffic.

We will ensure the front exterior integrates with the existing home by using matching siding, windows, and roofing materials.

HISTORIC PRESERVATION ADVISORY BOARD CASE MEMO

PLANNING AND ZONING DEPARTMENT

385 S. GOLIAD STREET • ROCKWALL, TX 75087

PHONE: (972) 771-7745 • EMAIL: PLANNING@ROCKWALL.COM

TO: Historic Preservation Advisory Board
DATE: February 20, 2025
APPLICANT: Kelli Walker
CASE NUMBER: H2025-004; *Small Matching Grant for 603 E. Rusk Street*

On January 31, 2025, staff received applications for a Certificate of Appropriateness (COA) [Case No. H2025-003], a Small Matching Grant [Case No. H2023-004], and a Building Permit Fee Waiver [Case No. H2025-005] from the property owner -- Kelli Walker -- for the purpose of constructing an addition to the existing single-family home on the subject property. The subject property is located at 603 E. Rusk Street and is designated as a Low-Contributing Property. According to Section 08, *Small Matching Grants*, of Article 11, *Development Applications and Review Procedures*, of the Unified Development Code (UDC), (t)he Small Matching Grants Program was established for eligible properties located within the City's Historic Districts for the purpose of encouraging small improvement and beautification projects." This section of the code goes on to state that, residential properties located within the Old Town Rockwall (OTR) Historic District or the Southside Residential Neighborhood Overlay (SRO) District that are *Contributing* (i.e. *High, Medium, or Low Contributing*) shall be eligible for a total grant amount up to \$1,000.00."

The subject property is located within the Old Town Rockwall (OTR) District and is classified as a *Low-Contributing Property*. The applicant's purpose is to expand the existing historical structure by 75.70% (i.e. $926 \text{ SF Home} + 701 \text{ SF Addition} = 1,627 \text{ SF}$), which has the potential to change the contributing nature of this property. In addition, the scope of work does not appear to be for the purpose of restoration of the existing home. The property's current *Low-Contributing* designation does make this project eligible for matching funds; however, as recommended in the Certificate of Appropriateness (COA) case memo, staff is recommending that the designation of the property be changed from *Low-Contributing* to *Non-Contributing*. If approved, this would change the total eligible matching grant amount from a maximum of \$1,000.00 to \$500.00. The total valuation of the project provided by the applicant is \$110,000.00, which makes this project eligible for the maximum amount if the Historic Preservation Advisory Board (HPAB) determines that the project is for beautification purposes in conformance with the Small Matching Grant program. The approval of this request and the amount granted to the applicant is a discretionary decision for the Historic Preservation Advisory Board (HPAB). As of October 1, 2024, the Historic Preservation Advisory Board (HPAB) has not received applications for or approved any *Small Matching Grants* for FY2025. Should this request be approved, the *Small Matching Grants Fund* would be reduced by the amount granted by the board.

PUBLIC NOTICE

CITY OF ROCKWALL
PLANNING AND ZONING DEPARTMENT
PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

Property Owner and/or Resident of the City of Rockwall:

You are hereby notified that the Historic Preservation Advisory Board will consider the following application:

Case No. H2025-004: Small Matching Grant for 603 E. Rusk Street

Hold a public hearing to discuss and consider a request by Kelli Walker for the approval of a Small Matching Grant for an Addition to a Low Contributing Property being a 0.25-acre tract of land identified as Block 120E of the B. F. Boydston Addition, City of Rockwall, Rockwall County, Texas, situated within the Old Town Rockwall (OTR) Historic District, zoned Single-Family 7 (SF-7) District, addressed as 603 E. Rusk Street, and take any action necessary.

For the purpose of considering the effects of such a request, the Historic Preservation Advisory Board will hold a public hearing on Thursday, February 20, 2025 at 6:00 PM. This hearing will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

Bethany Ross
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by Thursday, February 20, 2025 at 4:00 PM to ensure they are included in the information provided to the Historic Preservation Advisory Board.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

--- PLEASE RETURN THE BELOW FORM ---

Case No. H2025-004: Small Matching Grant for 603 E. Rusk Street

Please place a check mark on the appropriate line below:

I am in favor of the request for the reasons listed below.

I am opposed to the request for the reasons listed below.

Four horizontal grey bars for providing reasons for support or opposition.

Name: [Grey box for name entry]

Address: [Grey box for address entry]

Tex. Loc. Gov. Code, Sec. 211.006 (d) If a proposed change to a regulation or boundary is protested in accordance with this subsection, the proposed change must receive, in order to take effect, the affirmative vote of at least three-fourths of all members of the governing body. The protest must be written and signed by the owners of at least 20 percent of either: (1) the area of the lots or land covered by the proposed change; or (2) the area of the lots or land immediately adjoining the area covered by the proposed change and extending 200 feet from that area.

PLEASE SEE LOCATION MAP OF SUBJECT PROPERTY ON THE BACK OF THIS NOTICE

These plans are intended to provide the basic construction information necessary to substantially complete this structure. Like most home designers, this firm, J. Karlovich Home Design, does not provide structural or engineering services. The responsibility for structural or engineering design integrity, load calculations, and code compliance shall be the responsibility of the contractor and governmental agencies. If any error or omission does occur it is the sole responsibility of the contractor and/or the owner to correct the error and/or omission at his own expense and not the responsibility of J. Karlovich Home Design. These plans are intended to be a one time use for this address ONLY.

LEFT ELEVATION

SCALE 1/4" = 1'-0"

Foundations of exterior walls or piers exposed more than ten inches above the adjacent ground level shall be clad in the primary exterior finish material, such as lap siding, and painted to complement the primary exterior finish material.

FRONT ELEVATION

SCALE 1/4" = 1'-0"

Foundations of exterior walls or piers exposed more than ten inches above the adjacent ground level shall be clad in the primary exterior finish material, such as lap siding, and painted to complement the primary exterior finish material.

RIGHT ELEVATION

SCALE 1/4" = 1'-0"

Foundations of exterior walls or piers exposed more than ten inches above the adjacent ground level shall be clad in the primary exterior finish material, such as lap siding, and painted to complement the primary exterior finish material.

REAR ELEVATION

SCALE 1/4" = 1'-0"

Foundations of exterior walls or piers exposed more than ten inches above the adjacent ground level shall be clad in the primary exterior finish material, such as lap siding, and painted to complement the primary exterior finish material.

GENERAL FOUNDATION NOTES:

- 1) These foundation notes and details are not applicable when a post tensioned slab is specified. Please refer to the Engineer's notes and details.
- 2) These notes and details were taken from the Dallas, Texas area office of the U.S. Department of Housing and Urban Development, Type "C" Foundation.
- 3) Provide a min. of 4" sand fill except in areas with a high water table. Where a high water table occurs use gravel, crushed stone or comparable material.
- 4) All beams shall penetrate a minimum of 6" into undisturbed soils.
- 5) No dead end beams shall be allowed.
- 6) All beams and slab reinforcement to extend within 1-1/2" of exterior forms.
- 7) All concrete shall have a 28 day ultimate compressive strength of 3,000 p.s.i.
- 8) Slab reinforcing shall be tied and supported every 48" or less.
- 9) Lap all bar reinforcing 40 diameters. That's 15" with 3/8" rebars.
- 10) This foundation detail sheet is provided for your convenience. Use at your own risk. It is advised that a qualified licensed Professional Engineer review this foundation design and the soil report to assure this foundation design is correct for the soils it is to be built on.

4	6068	Exterior Atrium Unit	1

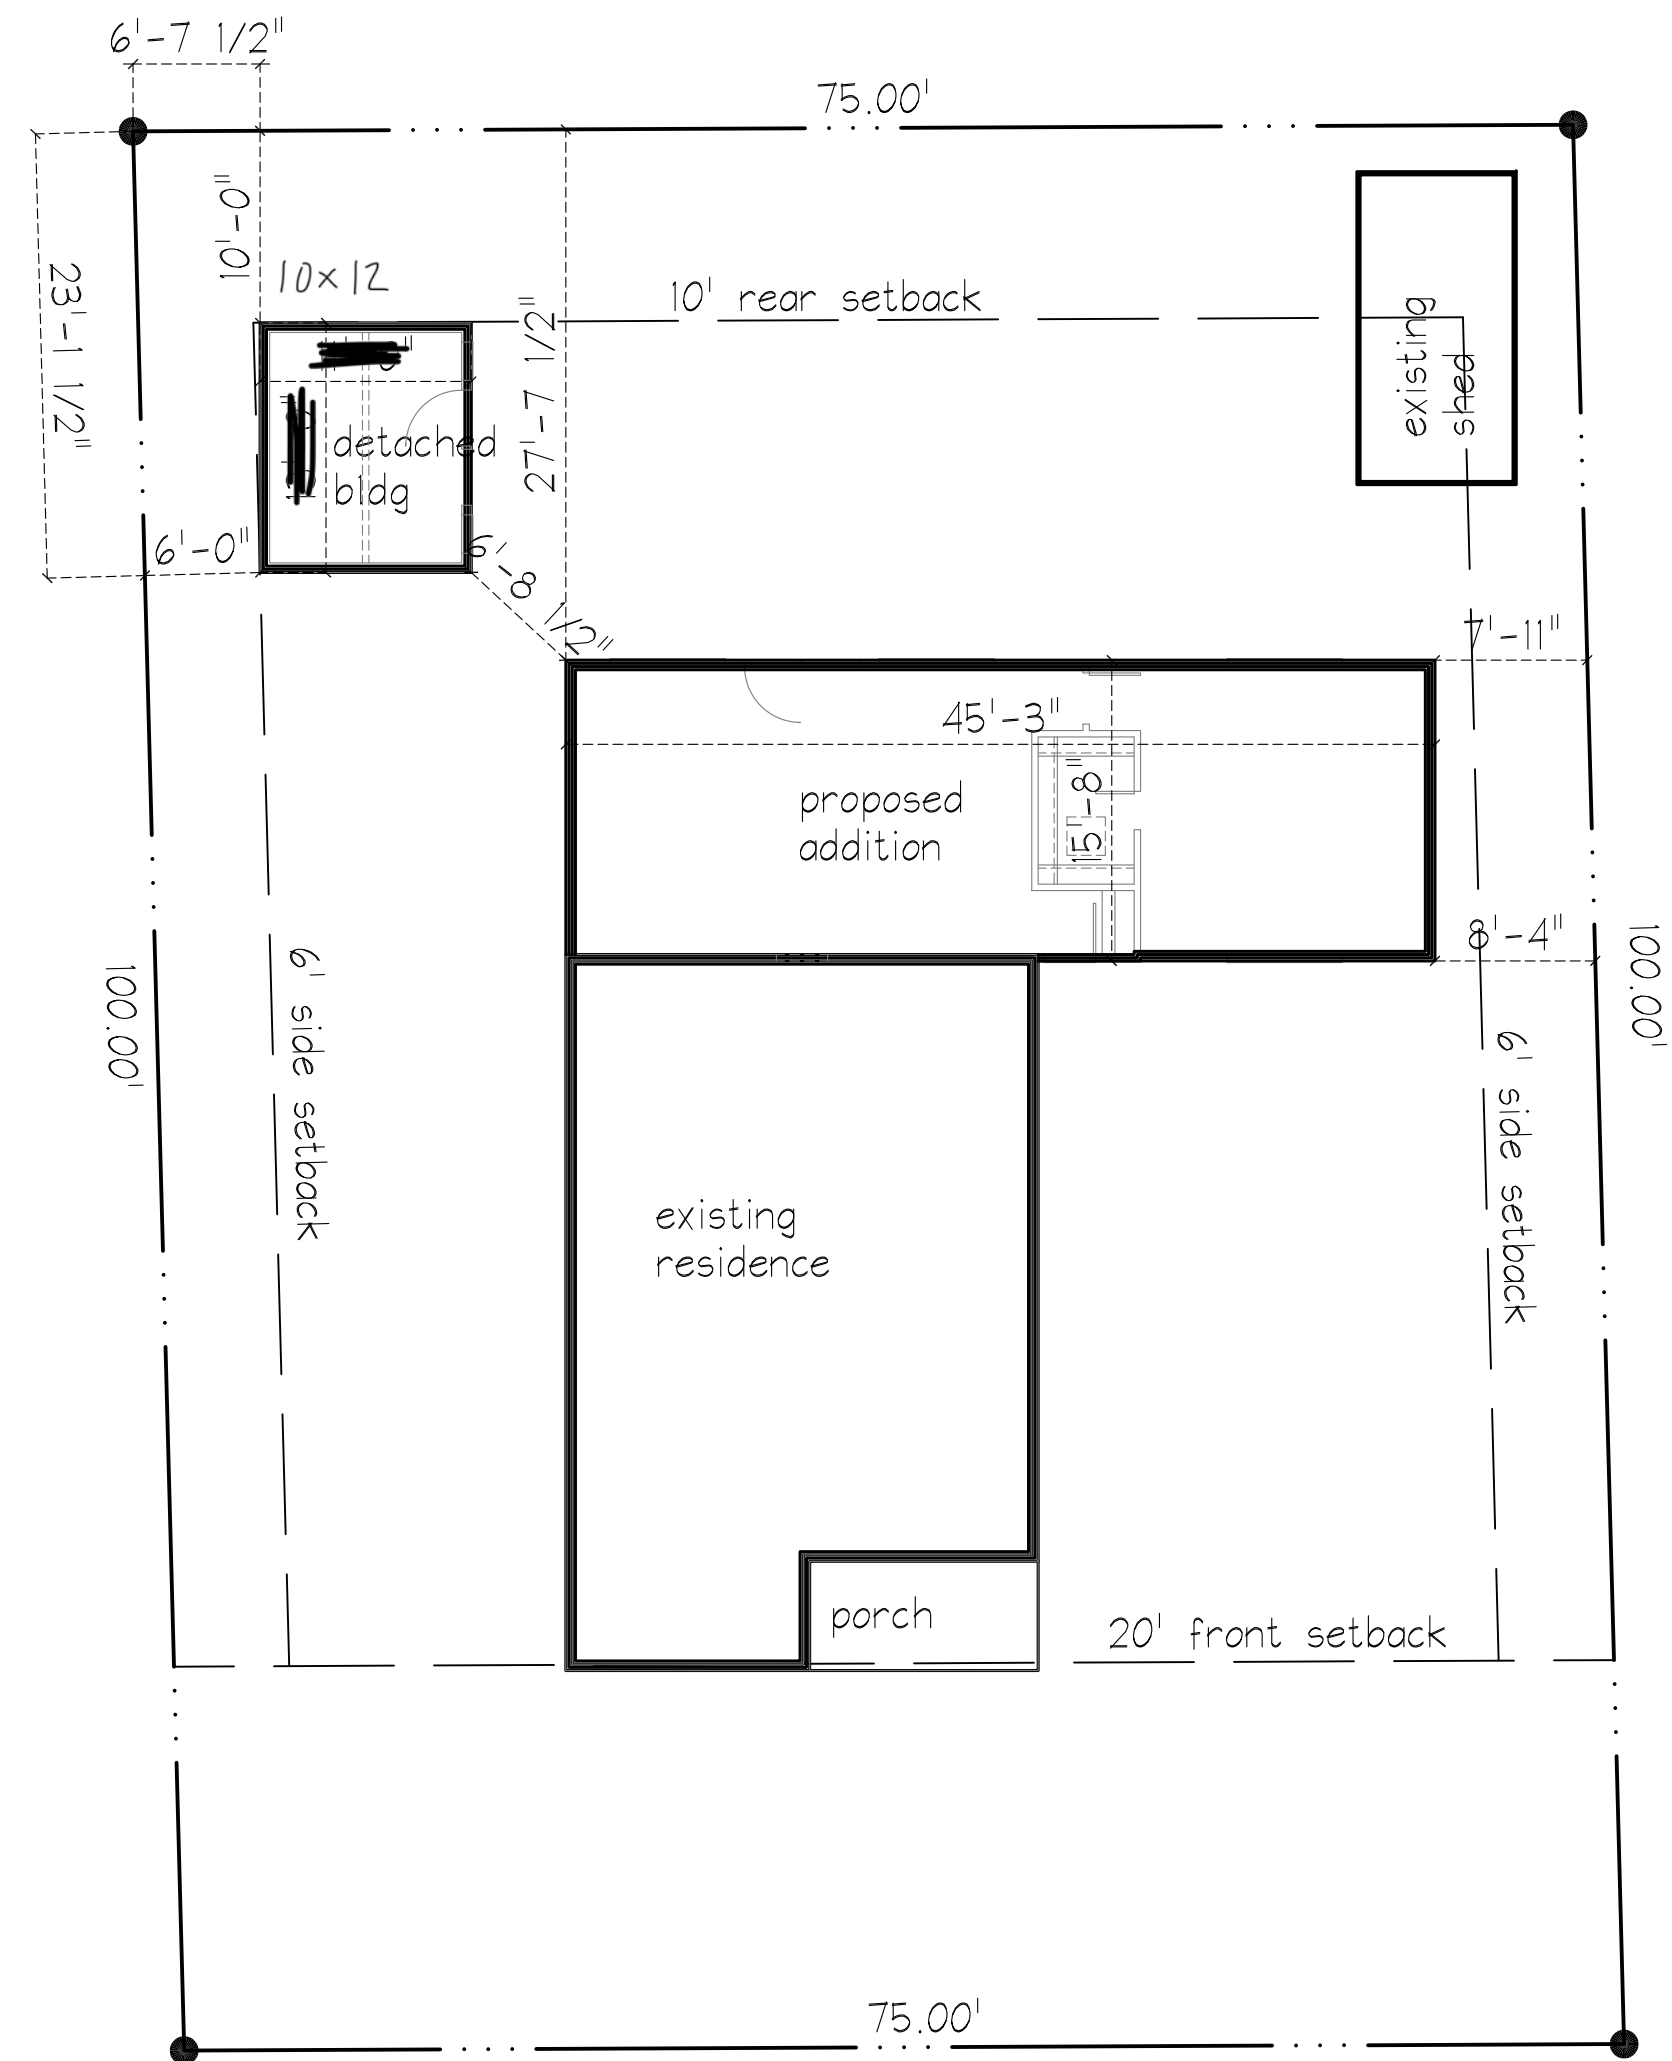

Windows Schedule:

ID#	Size	Description	Quantity
A	Pair 3050	Single Hung	4

****All windows in wet areas, in stairwell, and/or closer than 24" to a door to have tempered glass.****

Areas:

Existing HVAC Area	850 sq. ft.
New HVAC Area	701 sq. ft.
Total HVAC Area	1,551 sq. ft.

PLOT PLAN
SCALE 1" = 10'-0"

Notes:

- Do not scale drawings, follow dimensions only. All structural information shown for reference purposes only. Contractor shall have licensed structural engineer review and design all structural elements such as all framing walls, beams, connections, headers, joists and rafters.
- All dimensions are from face of stud to face of stud unless otherwise noted.
- Window sizes indicated on plans are noted by approximate rough openings size. Verify window sizes and "owner furnish windows" with owner prior to construction. Refer to plans and exterior elevations for window types.
- All framing shall be done in accordance with IBC latest edition.
- Spread studs at tub ends to accommodate plumbing and provide blocking, top and bottom, at shower to secure plumbing.
- Exterior sheathing shall be 5/8" OSB.
- All interior walls shall be covered with 1/2" gypsum board with metal corner reinforcing. Drywall finish should include taping over joints, applying joint compound and sanding the compound for a smooth finish. Verify with owner the level of drywall texturing.
- All walls and ceilings in garage and garage storage areas to have 5/8" Type-X gypsum board with 1-hour fire rating. All exterior doors in garage and attic access to be metal or solid core with a 20 minute fire rating.
- Provide 1/2" moisture resistant gypsum board at all wet locations.
- All finishes to be chosen and verified by owner.
- Contractor shall field verify all cabinet dimensions before fabrication.
- All millwork to be chosen and verified by owner. Contractor shall submit "shop drawings" at owners request.
- Provide 1/2" cement board for tile backer.
- Provide min. 4 - gang 2x4 studs at glue-lam bearing.
- All work shall be in accordance with National Plumbing Code, Latest Edition.
- Contractor shall provide HVAC "duct layout" for approval prior to fabrication. For coordination with fixtures and diffuser location.
- Verify all column type, size, and material with owner prior to construction.
- Prefabricated fireplace construction shall meet or exceed all applicable codes regarding use of fire separations, clearances, etc. It is the contractor's responsibility to ensure that all items and construction meet or exceed code. Overall flue height shall be coordinated to match height shown on plans and shall not exceed the top of chimney chase as constructed. All fireplace chase walls shall be insulated inside and outside. Provide horizontal "draft stops" at each floor level by packing 6" (R19) insulation between 2x4 joists.
- Provide combustion air vents with screen and back damper for fireplaces, wood stoves and any appliance with an open flame.
- All bath and toilet area walls shall have water resistant gypsum boards.
- All plumbing walls shall be 2x6.
- Bedroom windows shall have a minimum net clear opening of 5.7 square feet, a minimum net clear openable width of 20", a minimum net clear openable height of 24", and have a maximum finish sill height of 42" from finished floor. All glass located within 18" of floor, 24" of a door or located within 60" of floor at bath tubs, whirlpools, showers, saunas, steam rooms, or hot tubs shall be tempered.
- Attic HVAC units shall be located within 20' of its service opening. Return air grills shall not be located within 10' of a gas fired appliance.
- All exposed insulation shall have a flame spread rating of less than 25 and a smoke density rating of less than 450.

Abstract No. 14
B.F. Boydston Survey
City of Rockwall, Rockwall County, Texas

This Concrete Slab Foundation is required to be structurally engineered by a Licensed Professional Engineer. Use this sheet for dimension control only.

FOUNDATION PLAN
SCALE 1/4" = 1'-0"

- Roofing Notes:**
- All roof rafters shall be 2x6's @ 24" o.c. unless otherwise noted.
 - All ridges and valleys shall be 2x8's unless noted otherwise.
 - Purlins shall be placed to reduce rafter spans to 11'-4" or less.
 - Rafters, ridges, and valleys over 9'-6" spans shall be #2 S.Y. Pine or equal. Spans 9'-6" or less may be #3 S.Y. Pine.
 - Furr down 2x6 rafters with 2x2's in all areas of sloped ceilings. Attach with 3-1/2" screws @ 6" o.c.
 - Beam and purlin loads shall be distributed to walls or double ceiling joists by T columns of 2-2x6's.
 - Collar ties shall be placed @ 48" o.c. max at ridges.
 - Struts shall be 2-2x4's at an angle greater than 46 degrees.
 - All ceiling joists to be 2x6's @ 24" o.c. unless otherwise noted.
 - Ceiling joists span for #2 S.Y. Pine or equal shall not exceed the following:
 - 2x6 - 11'-0" @ 24" o.c.
 - 2x8 - 14'-2" @ 24" o.c.
 - 2x10 - 17'0" @ 24" o.c., 20'-9" @ 16" o.c.
 - Ceiling joists span for #3 S.Y. Pine or equal shall not exceed the following:
 - 2x6 - 8'-6" @ 24" o.c.
 - 2x8 - 10'-10" @ 24" o.c.
 - 2x10 - 21'-10" @ 24" o.c., 15'-8" @ 16" o.c.
 - Vent stacks shall be placed on roof planes not visible from street. All vent stacks and roof vents that are visible from street shall be painted to match roofing material.
 - Provide gutters around entire house. Gutter and downspouts to be installed according to owner preference. Splash blocks shall be installed at all downspouts.
 - Roofing material to be selected by owner.
 - Final roof material to be installed on 30 lbs felt on 5/8" OSB plywood.

ROOF PLAN

These plans are intended to provide the basic construction information necessary to substantially complete this structure. Like most home designers, this firm, J. Karlovich Home Design, does not provide a structural or engineering firm stands no liability for structural or mechanical design integrity. For all construction, all materials and methods used are correct and governmental regulations have been met. If any error or omission does occur it is the sole responsibility of the contractor and/or the owner to correct the error and/or omission at his own expense and not the responsibility of J. Karlovich Home Design. These plans are intended to be a one time use for this address ONLY.

Project Description:

We are requesting approval for an addition to our primary residence that will improve its functionality while maintaining its original character. Our proposed project includes:

- A 701-square-foot addition, which will add a living room and a bedroom to the home. Our current home currently lacks a dedicated living room space. With this addition, the home will also become a three-bedroom residence that will better fit our family. The total square footage of the home will increase to 1551 square feet.
- A 10x12 detached home office, intended for remote work. This space will serve solely as a private workspace, with no in-person client visits or business-related foot traffic.

We will ensure the front exterior integrates with the existing home by using matching siding, windows, and roofing materials.

- GENERAL FOUNDATION NOTES:**
- 1) These foundation notes and details are not applicable when a post tensioned slab is specified. Please refer to the Engineer's notes and details.
 - 2) These notes and details were taken from the Dallas, Texas area office of the U.S. Department of Housing and Urban Development, Type "C" Foundation.
 - 3) Provide a min. of 4" sand fill except in areas with a high water table. Where a high water table occurs use gravel, crushed stone or comparable material.
 - 4) All beams shall penetrate a minimum of 6" into undisturbed soils.
 - 5) No dead end beams shall be allowed.
 - 6) All beam and slab reinforcement to extend within 1-1/2' of exterior forms.
 - 7) All concrete shall have a 28 day ultimate compressive strength of 3,000 p.s.i.
 - 8) Slab reinforcing shall be tied and supported every 48" or less.
 - 9) Lap all bar reinforcing 40 diameters. That's 15" with 3/8" rebars.
 - 10) This foundation detail sheet is provided for your convenience. Use at your own risk. It is advised that a qualified licensed Professional Engineer review this foundation design and the soils report to assure this foundation design is correct for the soils it is to be built on.

SUBJECT: H2025-004; Small Matching Grant for 603 E. Rusk Street

Kelli:

This letter serves to notify you that the above referenced case that you submitted for consideration by the City of Rockwall was approved by the Historic Preservation Advisory Board (HPAB) on February 20, 2025. The following is a record of all recommendations, voting records and conditions of approval:

Staff Recommendations

Any construction resulting from the approval of this request shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Historic Preservation Advisory Board

On February 20, 2025, the Historic Preservation Advisory Board (HPAB) approved a motion to approve a Small Matching Grant of \$500.00 by a vote of 5-2, with Board Members Miller and Gaskin dissenting.

Small Matching Grant

The total valuation of the project provided by the applicant is \$110,000.00, and would be qualified for a small matching grant of \$500.00.

Important Small Matching Grant Issuance Information: Once the proposed project has been completed, the applicant shall submit a sworn statement of completion acknowledging that the project has been completed in accordance with the application submitted and approved by the HPAB. In addition, the applicant will be required to submit all receipts for the cost of the project. Within 15-days of the receipt of the sworn statement of completion, staff shall verify that the improvements have been completed as required by the HPAB and document the improvements for the City's records. If the improvements have been completed as approved, staff will issue a check request in the applicant's name to the Finance Department for the full amount approved by the HPAB.

Should you have any questions or concerns regarding your zoning case, please feel free to contact me a (972) 772-6488.

Sincerely,

Bethany Ross
