Date: 1/16/2018

To assist the Planning Department in evaluating the attached request, we are sending it to you for your review and comments. Please return any comments and/or plan mark-ups to us within five (5) days. Internal staff will also be required to have all comments input into CRW no later than Friday, 01/19/2018. Planning staff will assemble all comments received in time for our regularly scheduled DRC meeting on 1/30/2018 at 2:00 p.m. The Planning and Zoning Commission work session will be held on 1/30/2018 at 6:00 p.m. You are welcome to attend both meetings. If you have any questions, please contact us at (972) 771-7745.

Project Reviews.rpt Page 2 of 4

Discuss and consider a request by Matthew Peterson of D. B. Contractors, Inc. on behalf of Jeff Fleming of J. R. Investments, LLC for the approval of a manufacturing facility on an 11.155-acre parcel of land identified as a portion of Lot 6 and all of Lot 7, Block D, Rockwall Technology Park Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located at the southwest corner of the intersection of Innovation Drive and Observation Trail, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, February 6, 2018. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

- ** Planning Department General Comments to be addressed:
- 1. Adherence to Engineering and Fire Department standards shall be required.
- 2. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO).
- 3. Label all revised site plan documents with "Case No. SP2018-002" at the lower right corner of each plan.
- 4. All exterior signage requires submittal and approval of a separate building permit through the Building Inspections Department.

VARIANCES AND EXCEPTIONS TO BE CONSIDERED BY CITY COUNCIL:

- ** The following requests require approval by a simple majority vote of Council**
- 1. Sec. 5.1.A.1, of Art. V, of the UDC requires exterior walls to consist of 90 percent masonry materials...on walls which are visible from a public street or open space, including a minimum of 20 percent stone. Exceptions to this requirement, including the allowance for concrete tilt-up wall construction, may be permitted on a case by case basis by the council upon submission and approval of elevation drawings.
- 2. Sec. 5.1.A.1, of Art. V, of the UDC requires a minimum of 20% natural (or quarried) stone on all facades. The proposed building elevations do not indicate the use of stone on any facade. The variance would allow for not meeting the stone requirement for the south, east, and west facades and requires approval of a simple majority vote of the City Council.
- 3. Sec. 6.5.B. Table 3, of Art. VI, of the UDC requires a minimum parking standard of one (1) parking space for each 500 square feet of manufacturing use, one (1) space for each 1,000 square feet of warehouse use, and one (1) space parking space for each 300 square feet of office space and requires 380 parking spaces. The applicant is requesting to reduce the amount of parking required by 197 parking spaces and providing a total of 183 parking spaces and requires a variance to allow for not meeting the standards as prescribed in the UDC.

EXCEPTION TO THE UDC TO BE CONSIDERED BY THE PLANNING AND ZONING COMMISSION:

- 1. Per Sec. 1.5.2, of Article V, of the UDC, The access area of all refuse storage areas for trash dumpsters shall be screened with an opaque gate and shall not face a public street unless otherwise approved during site plan approval process.
- a. Where is the trash dumpster enclosure located? Will this exception be requested?
- ** Please address the following Planning Comments for each plan and resubmit revised plans by date requested above:

Site Plan:

- 1. Re-label all firelane as "24-ft Firelane, Public Access and Utility Easement" as appropriate.
- 2. Is there a trash dumpster? If so, where is it located? Dumpster enclosure walls are to be a minimum of 6-ft in height with materials to match the primary

- ** Please address the following Planning Comments for each plan and resubmit revised plans by date requested above:

Site Plan:

- 1. Re-label all firelane as "24-ft Firelane, Public Access and Utility Easement" as appropriate.
- 2. Is there a trash dumpster? If so, where is it located? Dumpster enclosure walls are to be a minimum of 6-ft in height with materials to match the primary

Project Reviews.rpt Page 3 of 4

structure; including the use of an opaque gate and a self-latching mechanism. Provide detail and label as such.

- 3. Based on the parking provided, a variance will be required in order to reduce the minimum amount required. See variance request above.
- 4. Approval of an exception by the City Council is required in order to construct the building with tilt-up wall construction. See exception above.
- 5. Provide a hatch for the sidewalk area to better delineate.
- 6. Delineate and label the required landscape buffer strips along all roadways.

Landscape Plan:

- 1. Resubmit corrected landscape plan that does not indicate the contour lines.
- 2. Delineate and label the required landscape buffer along Observation Trail and Innovation Drive.
- 3. What is the width of the sidewalk?
- 4. Provide a hatch for the sidewalk area to better delineate.

Treescape Plan:

1. The treescape plan as submitted meets or exceeds the requirements of the UDC.

Photometric Plan:

- 1. The lighting pole standards are not to exceed a maximum overall height of 30-ft includes pole, base, fixtures, etc.) per the UDC standards. Provide detail.
- 2. In order to reduce glare, all exterior lighting fixtures are to be shielded. Provide cut sheets for all exterior light fixtures.

Building Elevations:

- 1. All roof-top mechanical equipment requires screening from rights-of-way and adjacent properties. Provide a roof plan indicating location of units and dash-in RTU's on elevations. Provide detail of screening mechanism to be used.
- 2. Are there any other architectural elements being incorporated with the building [e.g. accents (other than paint), articulated elements, stamped concrete walls, etc.
- 5. Horizontal articulation is required for all facades. Based on elevations submitted, this requires approval of a variance by City Council for not meeting this requirement along the south elevation (rear).
- 6. The following requires approval by the City Council as indicated above:
- A) To allow for the use of concrete tilt-up wall construction, and
- B) To allow for not meeting the 20% stone requirement for south (0%), east (11.8%), and west (10.3%) facades, which are visible from a public street or open space.
- ** The following are scheduled meeting dates that you and/or your representative(s) are required to attend regarding the Site Plan request. If you have any questions regarding this case, please feel free to contact David Gonzales, AICP with the PlanningDepartment at 972-771-7745.

Meeting Dates to Attend:

Architectural Review Board: January 30, 2018 (5:00 p.m.) [Applicant to receive recommendations from ARB]

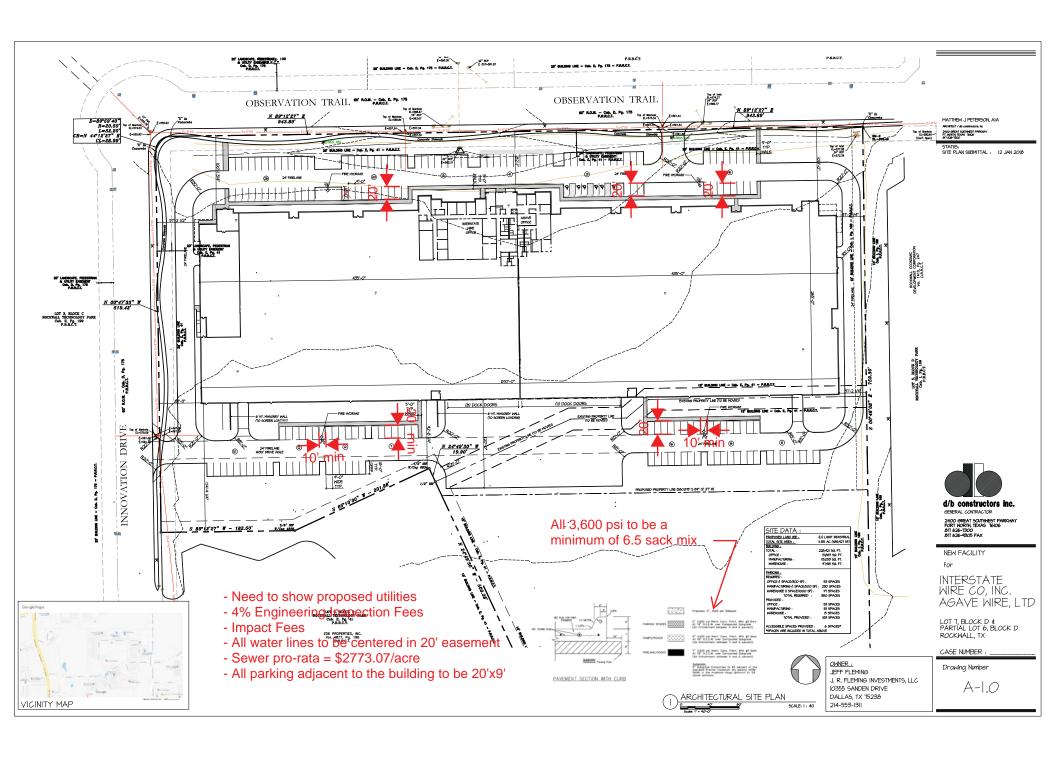

Planning - Work Session: January 30, 2018 (6:00p.m.) [Applicant to present/discuss project to P&Z]

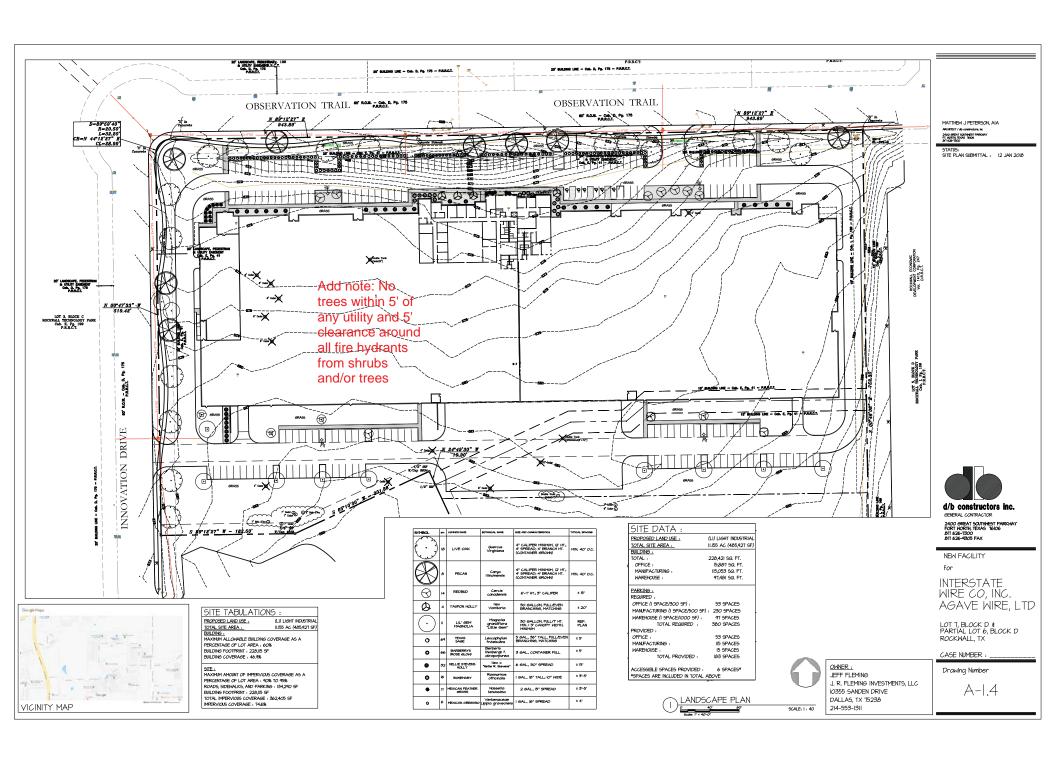

Architectural Review Board: February 13, 2018 (5:00 p.m.) [Subsequent meeting if necessary]

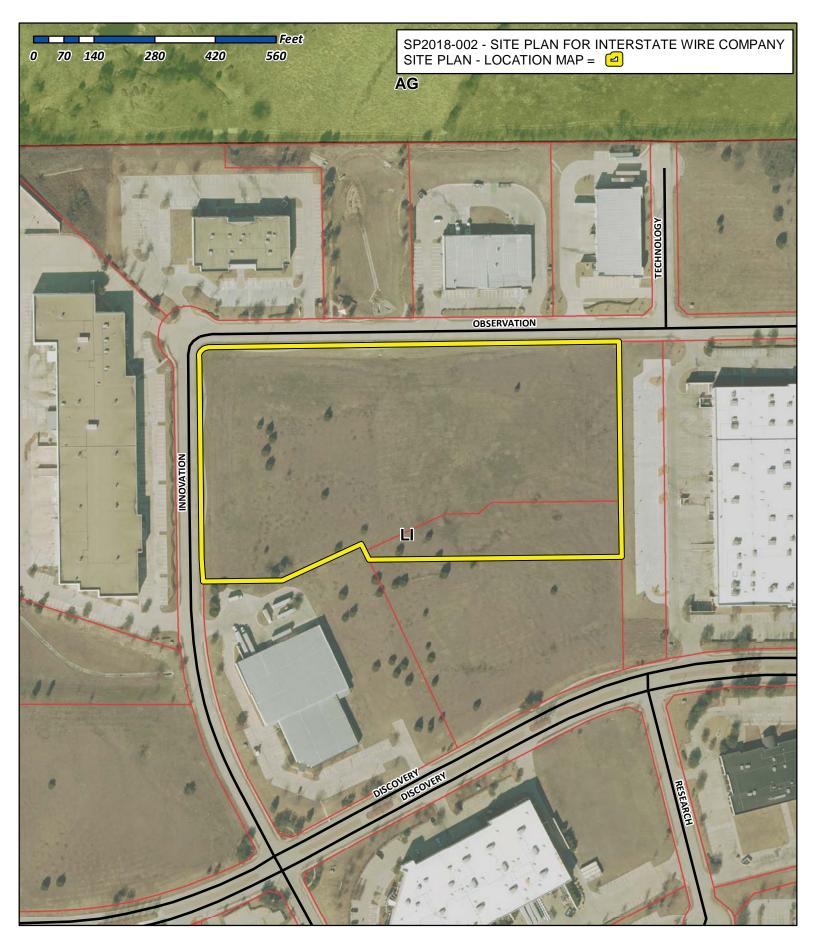

Planning - Action: February 13, 2018 (6:00p.m.) [P&Z to take action (i.e. approve, approve with conditions, deny)]

City Council - Action: Monday, February 19, 2018 (6:00 p.m.) [FOR VARIANCE AND EXCEPTION REQUESTS ONLY]

CITY OF ROCKWALL PLANNING AND ZONING COMMISSION MEMO

AGENDA DATE: 02/13/2018

APPLICANT: Matthew Peterson; D. B. Contractors, Inc.

AGENDA ITEM: SP2018-002; Site Plan for *Interstate Wire Co., Inc.*

SUMMARY:

Discuss and consider a request by Matthew Peterson of D. B. Contractors, Inc. on behalf of Jeff Fleming of J. R. Investments, LLC for the approval of a manufacturing facility on an 11.155-acre parcel of land identified as a portion of Lot 6 and all of Lot 7, Block D, Rockwall Technology Park Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located at the southeast corner of the intersection of Innovation Drive and Observation Trail, and take any action necessary.

PURPOSE AND BACKGROUND:

The applicant is requesting approval of a site plan for the purpose of constructing an approximately 228,421 SF warehouse/manufacturing/office [i.e. Interstate Wire Co., Inc.] facility within the REDC Technology Park. The proposed facility will be situated on an 11.155- acre tract of land identified as a portion of Lot 6 and all of Lot 7, Block D, Rockwall Technology Park Addition. The site is located at the southeast corner of the intersection of Innovation Drive and Observation Trail, north of Discovery Boulevard, and is zoned Light Industrial (LI) District.

DENSITY AND DIMENSIONAL REQUIREMENTS:

According to Section 1, Land Use Schedule, of Article IV, Permissible Uses, of the Unified Development Code (UDC), a warehouse/manufacturing/office is a permitted by-right use in a Light Industrial (LI) District. The subject property proposes two (2) ingress and egress access points, one (1) along Innovation Drive and one (1) along Observation Trail, meeting the distance requirements from existing driveway approaches per the Engineering Standards of Design Manual.

The treescape plan provided by the applicant indicates all trees being removed from the site are not protected trees and do not require mitigation. The trees being removed are either Cottonwood, Bois d Arc, or Cedar trees less than 11 inch DBH and are not protected. With the exception of the variances being requested the submitted site plan, landscape plan, treescape plan, photometric plan, and building elevations generally conform to the technical requirements contained within the Unified Development Code (UDC) for properties located within the Light Industrial (LI) District. A summary of the density and dimensional requirements for the subject property are as follows:

Ordinance Provisions	Zoning District Standards	Conformance to the Standards
Minimum Lot Area	12,500 SF	11.155-Acres; In Conformance
Minimum Lot Frontage	100-Feet	x>943-Feet; In Conformance
Minimum Lot Depth	125-Feet	x>519-Feet; In Conformance
Minimum Front Yard Setback	25-Feet	x>25-Feet; In Conformance
Minimum Rear Yard Setback	0-Feet + ½ H ¹	x>92-Feet; In Conformance
Minimum Side Yard Setback	0-Feet + ½ H 1	x>37-Feet; In Conformance

Ordinance Provisions	Zoning District Standards	Conformance to the Standards
Maximum Building Height	120-Ft ²	39-Feet; In Conformance
Max Building/Lot Coverage	60%	~46.9%; In Conformance
Minimum Masonry Requirement	90%	x>90%; In Conformance
Minimum Number of Parking Spaces	380	183 Provided; Variance
Minimum Stone Requirement (SH205 OV)	20% Each Facade	X<20%; Variance
Minimum Landscaping Percentage	10%	x>10%; In Conformance
Maximum Impervious Coverage	85-90%	x=74.6%; In Conformance

VARIANCE REQUESTS:

The applicant is requesting variances to the Unified Development Code (UDC) for the sections outlined below. It should be noted that an exception and variance requests require passage by a simple majority vote of those City Council members present to the standards of the UDC. The requests are as follows:

- Section 5.1.A.1, of Article V, of the UDC requires a minimum of 20% stone on all facades which
 are visible from a public street or open space. The proposed building elevations do not meet the
 minimum stone requirement on the south, east and west facades. A variance to this section of
 the UDC would require approval of a <u>simple majority</u> vote of the City Council members present.
- 2) Section 6.5, Table 3, of Article VI, Parking and Loading Standards of the UDC require a minimum of 1/1,000 SF of warehouse space, 1/500 SF of manufacturing space, and 1/300 SF of office space. Based on the proposed site plan, the development of a 228,421 SF facility [i.e. warehouse/manufacturing/office facility] has a minimum parking requirement of 380 parking spaces. Currently, the site plan indicates 183 parking spaces are to be provided; however, the applicant has stated that the facility will use less parking than is required based on the maximum number of employees that will be on site. A variance to the parking requirement requires a simple majority vote by the City Council for approval.
- 3) Section 5.1.A.1, of Article. V, of the UDC requires exterior walls consist of 90% masonry materials on walls which are visible from a public street or open space. Exceptions to this requirement, including allowing for the use of concrete tilt-up walls may be permitted on a case-by-case basis by the City Council upon submission and approval of elevation drawings. The applicant is requesting a variance for the purpose of utilizing concrete tilt-up wall construction for this facility. An exception to allow for the use of tilt-up wall construction requires approval of a simple majority vote by the City Council.
- 4) Sections 5.1.C.a & 5.1.C.b, of Article V, of the UDC requires a buildings design to provide horizontal and vertical articulation on all facades. The applicant is requesting to allow for the building design to not meet the intent of these requirements for the south facing facade. A variance to allow for the building design to not meet the intent horizontal and vertical articulation requires approval of a <u>simple majority</u> vote by the City Council.

ARCHITECTURAL REVIEW BOARD RECOMMENDATION:

On January 30, 2018, the Architectural Review Board (ARB) reviewed the proposed building elevations for the site. The ARB had no concerns with the elevations as proposed and made a motion to recommend approval of the elevations, which included the exception and variance requests. The motion passed by a vote of 5 to 0 with Board Members Craddock and Neill absent.

RECOMMENDATIONS:

If the City Council and Planning and Zoning Commission choose to approve the applicant's request then staff would recommend the following conditions of approval:

- 1) All technical comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit;
- 2) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

Project Reviews.rpt Page 1 of 6 (1/22/2018 2:24 PM KC)

The required turning radius of a fire apparatus access road shall be in accordance with:

- a) For buildings less than 30-feet and less than 3 stories in height:
- i)20-feet (inside) for turns less than or equal to 90 degrees
- ii)25-feet (inside) for turns greater than 90 degrees
- b) For buildings 30-feet or more and/or 3 or more stories in height minimum interior turning radius of 30 feet.

Size and location of the underground water line servicing the fire sprinkler system shall be indicated on the plans.

The proposed location of the Fire Department Connection (FDC) shall be indicated on the plans. The FDC is required to be along the fire lane and within 100-feet as the hose lays, of a fire hydrant.

A minimum of a 5-foot wide sidewalk or other approved "all-weather" pathway shall be provided from the fire lane to the FDC. Parking/loading spaces are not considered a clear pathway.

Discuss and consider a request by Matthew Peterson of D. B. Contractors, Inc. on behalf of Jeff Fleming of J. R. Investments, LLC for the approval of a manufacturing facility on an 11.155-acre parcel of land identified as a portion of Lot 6 and all of Lot 7, Block D, Rockwall Technology Park Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located at the southwest corner of the intersection of Innovation Drive and Observation Trail, and take any action necessary.

The following staff comments are to be addressed and resubmitted no later than Tuesday, February 6, 2018. Please provide three large copies [24" X 36" FOLDED] and one PDF version for a subsequent review by staff:

- ** Planning Department General Comments to be addressed:
- 1. Adherence to Engineering and Fire Department standards shall be required.
- 2. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO).
- 3. Label all revised site plan documents with "Case No. SP2018-002" at the lower right corner of each plan.
- 4. All exterior signage requires submittal and approval of a separate building permit through the Building Inspections Department.

VARIANCES AND EXCEPTIONS TO BE CONSIDERED BY CITY COUNCIL:

- ** The following requests require approval by a simple majority vote of Council**
- 1. Sec. 5.1.A.1, of Art. V, of the UDC requires exterior walls to consist of 90 percent masonry materials...on walls which are visible from a public street or open space, including a minimum of 20 percent stone. Exceptions to this requirement, including the allowance for concrete tilt-up wall construction, may be permitted on a case by case basis by the council upon submission and approval of elevation drawings.
- 2. Sec. 5.1.A.1, of Art. V, of the UDC requires a minimum of 20% natural (or quarried) stone on all facades. The proposed building elevations do not indicate the use of stone on any facade. Thevariance would allow for not meeting the stone requirement for the south, east, and west facades and requires approval of a simple majority vote of the City Council.
- 3. Sec. 6.5.B. Table 3, of Art. VI, of the UDC requires a minimum parking standard of one (1) parking space for each 500 square feet of manufacturing use, one (1) space for each 1,000 square feet of warehouse use, and one (1) space parking space for each 300 square feet of office space and requires 380 parking spaces. The applicant is requesting to reduce the amount of parking required by 197 parking spaces and providing a total of 183 parking spaces and requires a variance to allow for not meeting the standards as prescribed in the UDC.

EXCEPTION TO THE UDC TO BE CONSIDERED BY THE PLANNING AND ZONING COMMISSION:

- 1. Per Sec. 1.5.2, of Article V, of the UDC, The access area of all refuse storage areas for trash dumpsters shall be screened with an opaque gate and shall not face a public street unless otherwise approved during site plan approval process.
- a. Where is the trash dumpster enclosure located? Will this exception be requested?
- ** Please address the following Planning Comments for each plan and resubmit revised plans by date requested above:

Site Plan:

- 1. Re-label all firelane as "24-ft Firelane, Public Access and Utility Easement" as appropriate.
- 2. Is there a trash dumpster? If so, where is it located? Dumpster enclosure walls are to be a minimum of 6-ft in height with materials to match the primary

Project Reviews.rpt Page 3 of 6

structure; including the use of an opaque gate and a self-latching mechanism. Provide detail and label as such.

- 3. Based on the parking provided, a variance will be required in order to reduce the minimum amount required. See variance request above.
- 4. Approval of an exception by the City Council is required in order to construct the building with tilt-up wall construction. See exception above.
- 5. Provide a hatch for the sidewalk area to better delineate.
- 6. Delineate and label the required landscape buffer strips along all roadways.

Landscape Plan:

- 1. Resubmit corrected landscape plan that does not indicate the contour lines.
- 2. Delineate and label the required landscape buffer along Observation Trail and Innovation Drive.
- 3. What is the width of the sidewalk?
- 4. Provide a hatch for the sidewalk area to better delineate.

Treescape Plan:

1. The treescape plan as submitted meets or exceeds the requirements of the UDC.

Photometric Plan:

- 1. The lighting pole standards are not to exceed a maximum overall height of 30-ft includes pole, base, fixtures, etc.) per the UDC standards. Provide detail.
- 2. In order to reduce glare, all exterior lighting fixtures are to be shielded. Provide cut sheets for all exterior light fixtures.

Building Elevations:

- 1. All roof-top mechanical equipment requires screening from rights-of-way and adjacent properties. Provide a roof plan indicating location of units and dash-in RTU's on elevations. Provide detail of screening mechanism to be used.
- 2. Are there any other architectural elements being incorporated with the building [e.g. accents (other than paint), articulated elements, stamped concrete walls, etc.
- 5. Horizontal articulation is required for all facades. Based on elevations submitted, this requires approval of a variance by City Council for not meeting this requirement along the south elevation (rear).
- 6. The following requires approval by the City Council as indicated above:
- A) To allow for the use of concrete tilt-up wall construction, and
- B) To allow for not meeting the 20% stone requirement for south (0%), east (11.8%), and west (10.3%) facades, which are visible from a public street or open space.
- ** The following are scheduled meeting dates that you and/or your representative(s) are required to attend regarding the Site Plan request. If you have any questions regarding this case, please feel free to contact David Gonzales, AICP with the PlanningDepartment at 972-771-7745.

Meeting Dates to Attend:

Architectural Review Board: January 30, 2018 (5:00 p.m.) [Applicant to receive recommendations from ARB]

Planning - Work Session: January 30, 2018 (6:00p.m.) [Applicant to present/discuss project to P&Z]

Architectural Review Board: February 13, 2018 (5:00 p.m.) [Subsequent meeting if necessary]

Planning - Action: February 13, 2018 (6:00p.m.) [P&Z to take action (i.e. approve, approve with conditions, deny)]

City Council - Action: Monday, February 19, 2018 (6:00 p.m.) [FOR VARIANCE AND EXCEPTION REQUESTS ONLY]

The following staff comments are to be addressed and resubmitted no later than Tuesday, February 27, 2018. Please provide one large copies [24" X 36" FOLDED] and one PDF version for a final review by staff:

- ** Planning Department General Comments to be addressed:
- 1. Adherence to Engineering and Fire Department standards shall be required.
- 2. Submittal and approval of a Civil Engineering Plans and Final Plat prior to issuance of a Certificate of Occupancy (CO).

VARIANCES AND EXCEPTIONS TO BE CONSIDERED BY CITY COUNCIL:

- ** The following requests require approval by a simple majority vote of Council**
- 1) Section 5.1.A.1, of Article V, of the UDC requires a minimum of 20% stone on all facades which are visible from a public street or open space. The proposed building elevations do not meet the minimum stone requirement on the south, east and west facades. A variance to this section of the UDC would require approval of a simple majority vote of the City Council members present.
- 2) Section 6.5, Table 3, of Article VI, Parking and Loading Standards of the UDC require a minimum of 1/1,000 SF of warehouse space, 1/500 SF of manufacturing space, and 1/300 SF of office space. Based on the proposed site plan, the development of a 228,421 SF facility [i.e. warehouse/manufacturing/office facility] has a minimum parking requirement of 380 parking spaces. Currently, the site plan indicates 183 parking spaces are to be provided; however, the applicant has stated that the facility will use less parking than is required based on the maximum number of employees that will be on site. A variance to the parking requirement requires a simple majority vote by the City Council for approval.
- 3) Section 5.1.A.1, of Article. V, of the UDC requires exterior walls consist of 90% masonry materials on walls which are visible from a public street or open space. Exceptions to this requirement, including allowing for the use of concrete tilt-up walls may be permitted on a case-by-case basis by the City Council upon submission and approval of elevation drawings. The applicant is requesting a variance for the purpose of utilizing concrete tilt-up wall construction for this facility. An exception to allow for the use of tilt-up wall construction requires approval of a simple majority vote by the City Council.
- 4) Sections 5.1.C.a & 5.1.C.b, of Article V, of the UDC requires a buildings design to provide horizontal and vertical articulation on all facades. The applicant is requesting to allow for the building design to not meet the intent of these requirements for the south facing facade. A variance to allow for the building design to no meet the intent horizontal and vertical articulation requires approval of a simple majority vote by the City Council.
- ** Please see the following general Planning Comments for each revised plan:

Site Plan:

- 1. Based on the parking provided, a variance will be required in order to reduce the minimum amount required. See variance request above.
- 2. Approval of an exception by the City Council is required in order to construct the building with tilt-up wall construction. See exception above.

Landscape Plan:

1. The landsape plan as submitted meets or exceeds the requirements of the UDC.

Treescape Plan:

1. The treescape plan as submitted meets or exceeds the requirements of the UDC.

Project Reviews.rpt Page 5 of 6

Photometric Plan:

1. The photometric plan as submitted meets or exceeds the requirements of the UDC.

Building Elevations:

- 1. Horizontal and vertical articulationare required for all facades. Based on elevations submitted, this requires approval of a variance by City Council for not meeting this requirement along the south elevation (rear).
- 2. The following requires approval by the City Council as indicated above:
- A) To allow for the use of concrete tilt-up wall construction, and
- B) To allow for not meeting the 20% stone requirement for south (0%), east (11.8%), and west (10.3%) facades, which are visible from a public street or open space.
- ** The following are scheduled meeting dates that you and/or your representative(s) are required to attend regarding the Site Plan request. If you have any questions regarding this case, please feel free to contact David Gonzales, AICP with the PlanningDepartment at 972-771-7745.

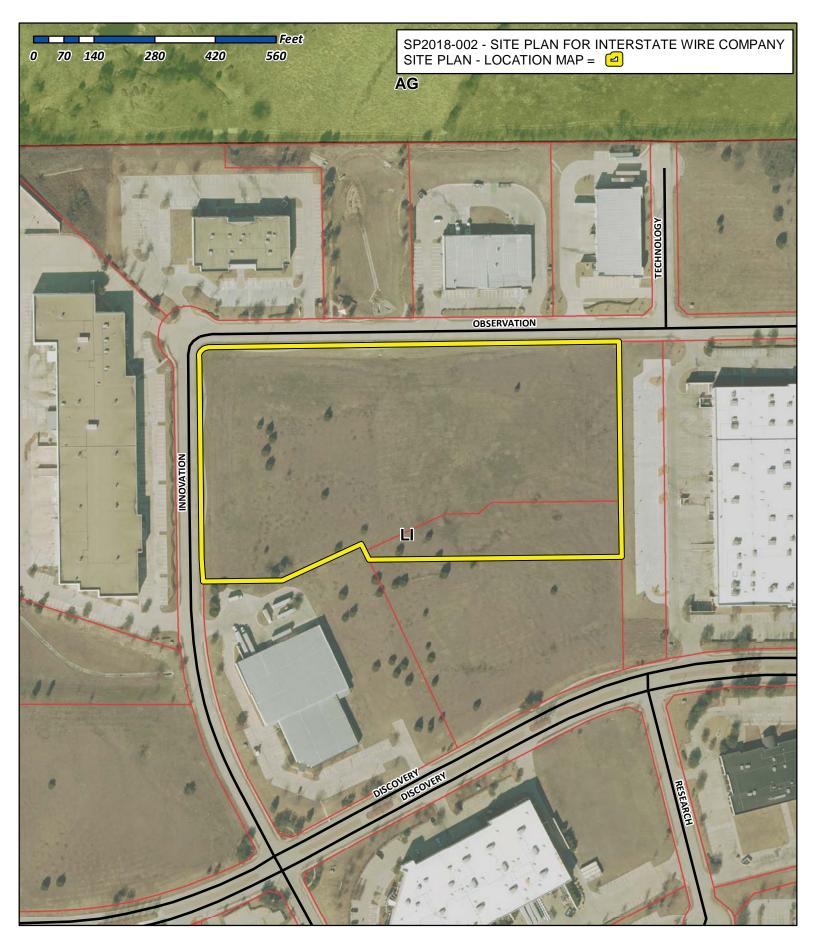

Meeting Dates to Attend:

Architectural Review Board: February 13, 2018 (5:00 p.m.) [Subsequent meeting if necessary]

Planning - Action: February 13, 2018 (6:00p.m.) [P&Z to take action (i.e. approve, approve with conditions, deny)]

CITY OF ROCKWALL CITY COUNCIL MEMO

AGENDA DATE: 02/19/2018

APPLICANT: Matthew Peterson; D. B. Contractors, Inc.

AGENDA ITEM: SP2018-002; Site Plan for *Interstate Wire Co., Inc.*

SUMMARY:

Discuss and consider a request by Matthew Peterson of D. B. Contractors, Inc. on behalf of Jeff Fleming of J. R. Investments, LLC for the approval of exceptions and variances in conjunction with an approved site plan for a manufacturing facility on an 11.155-acre parcel of land identified as a portion of Lot 6 and all of Lot 7, Block D, Rockwall Technology Park Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located at the southeast corner of the intersection of Innovation Drive and Observation Trail, and take any action necessary.

PURPOSE AND BACKGROUND:

The applicant is requesting approval of variances to the Unified Development Code (UDC) as outlined in this report. The request is in conjunction with an approved site plan and would allow for the construction of an approximately 228,421 SF warehouse/manufacturing/office [i.e. Interstate Wire Co., Inc.] facility within the REDC Technology Park. The proposed facility will be situated on an 11.155- acre tract of land identified as a portion of Lot 6 and all of Lot 7, Block D, Rockwall Technology Park Addition. The site is located at the southeast corner of the intersection of Innovation Drive and Observation Trail, north of Discovery Boulevard, and is zoned Light Industrial (LI) District.

DENSITY AND DIMENSIONAL REQUIREMENTS:

According to Section 1, Land Use Schedule, of Article IV, Permissible Uses, of the Unified Development Code (UDC), a warehouse/manufacturing/office is a permitted by-right use in a Light Industrial (LI) District. With the exception of the variances being requested the submitted site plan, landscape plan, treescape plan, photometric plan, and building elevations generally conform to the technical requirements contained within the Unified Development Code (UDC) for properties located within the Light Industrial (LI) District. A summary of the density and dimensional requirements for the subject property are as follows:

Ordinance Provisions	Zoning District Standards	Conformance to the Standards
Minimum Lot Area	12,500 SF	11.155-Acres; In Conformance
Minimum Lot Frontage	100-Feet	x>943-Feet; In Conformance
Minimum Lot Depth	125-Feet	x>519-Feet; In Conformance
Minimum Front Yard Setback	25-Feet	x>25-Feet; In Conformance
Minimum Rear Yard Setback	0-Feet + ½ H 1	x>92-Feet; In Conformance
Minimum Side Yard Setback	0-Feet + ½ H 1	x>37-Feet; In Conformance
Maximum Building Height	120-Ft ²	39-Feet; In Conformance
Max Building/Lot Coverage	60%	~46.9%; In Conformance
Minimum Masonry Requirement	90%	x>90%; In Conformance
Minimum Number of Parking Spaces	380	183 Provided; Variance
Minimum Stone Requirement (SH205 OV)	20% Each Facade	X<20%; Variance

Ordinance Provisions	Zoning District Standards	Conformance to the Standards
Minimum Landscaping Percentage	10%	x>10%; In Conformance
Maximum Impervious Coverage	85-90%	x=74.6%; In Conformance

VARIANCE REQUESTS:

The applicant is requesting variances to the Unified Development Code (UDC) for the sections outlined below. It should be noted that an exception and variance requests require passage by a simple majority vote of those City Council members present to the standards of the UDC. The requests are as follows:

- 1) Section 5.1.A.1, of Article V, of the UDC requires a minimum of 20% stone on all facades which are visible from a public street or open space. The proposed building elevations do not meet the minimum stone requirement on the south, east and west facades. A variance to this section of the UDC would require approval of a <u>simple majority</u> vote of the City Council members present.
- 2) Section 6.5, Table 3, of Article VI, Parking and Loading Standards of the UDC require a minimum of 1/1,000 SF of warehouse space, 1/500 SF of manufacturing space, and 1/300 SF of office space. Based on the proposed site plan, the development of a 228,421 SF facility [i.e. warehouse/manufacturing/office facility] has a minimum parking requirement of 380 parking spaces. Currently, the site plan indicates 183 parking spaces are to be provided; however, the applicant has stated that the facility will use less parking than is required based on the maximum number of employees that will be on site. A variance to the parking requirement requires a simple majority vote by the City Council for approval.
- 3) Section 5.1.A.1, of Article. V, of the UDC requires exterior walls consist of 90% masonry materials on walls which are visible from a public street or open space. Exceptions to this requirement, including allowing for the use of concrete tilt-up walls may be permitted on a case-by-case basis by the City Council upon submission and approval of elevation drawings. The applicant is requesting a variance for the purpose of utilizing concrete tilt-up wall construction for this facility. An exception to allow for the use of tilt-up wall construction requires approval of a simple majority vote by the City Council.
- 4) Sections 5.1.C.a & 5.1.C.b, of Article V, of the UDC requires a buildings design to provide horizontal and vertical articulation on all facades. The applicant is requesting to allow for the building design to not meet the intent of these requirements for the south facing facade. A variance to allow for the building design to not meet the intent horizontal and vertical articulation requires approval of a <u>simple majority</u> vote by the City Council.

ARCHITECTURAL REVIEW BOARD RECOMMENDATION:

On January 30, 2018, the Architectural Review Board (ARB) reviewed the proposed building elevations for the site. The ARB had no concerns with the elevations as proposed and made a motion to recommend approval of the elevations, which included the exception and variance requests. The motion passed by a vote of 5 to 0 with Board Members Craddock and Neill absent.

RECOMMENDATIONS:

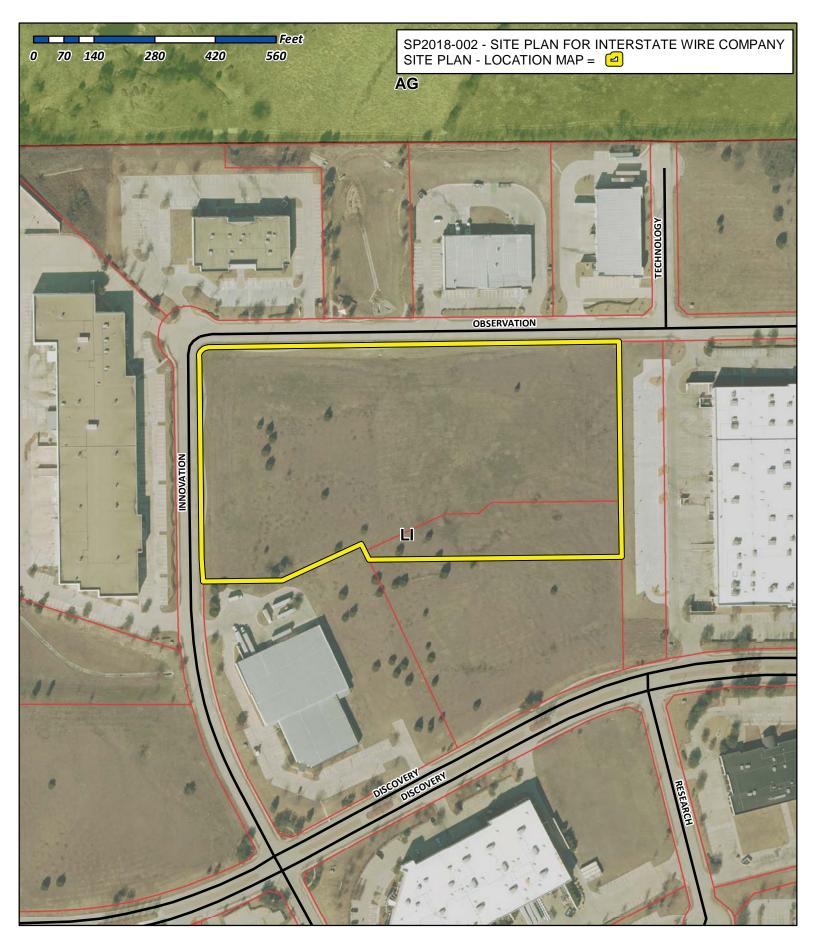

If the City Council chooses to approve the applicant's request then staff would recommend the following conditions of approval:

1) All technical comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit;

2) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION RECOMMENDATION:

On February 13, 2108, the Planning and Zoning Commission's motion to approve the site plan with staff conditions and Architectural Review Board (ARB) recommendations passed by a vote of 5 to 0 with Commissioners Chodun and Fishman absent. Additionally, the motion included a recommendation of approval of the exception and variances being requested as outlined in staff's report.

ATTN: MATHEW PETERSON DB CONSTRUCTORS INC 2400 GREAT SOUTHWEST PKWY, FORT WORTH, TX 76106

RE: SITE PLAN (SP2018-002), Interstate Wire Company

Dear Applicant:

This letter serves to notify you that the above referenced case that you submitted before the City of Rockwall was approved by the City Council on 02/19/2018. The following is a record of all recommendations, voting records and conditions of approval:

ARCHITECTURAL REVIEW BOARD RECOMMENDATION:

On January 30, 2018, the Architectural Review Board (ARB) reviewed the proposed building elevations for the site. The ARB had no concerns with the elevations as proposed and made a motion to recommend approval of the elevations, which included the exception and variance requests. The motion passed by a vote of 5 to 0 with Board Members Craddock and Neill absent.

RECOMMENDATIONS:

If the City Council chooses to approve the applicant's request then staff would recommend the following conditions of approval:

- 1) All technical comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit;
- 2) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On February 13, 2108, the Planning and Zoning Commission's motion to approve the site plan with staff conditions and Architectural Review Board (ARB) recommendations passed by a vote of 5 to 0 with Commissioners Chodun and Fishman absent. Additionally, the motion included a recommendation of approval of the exception and variances being requested as outlined in staff's report.

CITY COUNCIL:

On February 19, 2018, the City Council's motion to approve all variance requests to allow for not meeting the following a) minimum 20% stone, b) vertical and horizontal articulation on south elevation, c) minimum parking standard, and d) use of tilt-up wall construction in association with an approved

site plan and with staff conditions passed by a vote of 5 to 0 with Council Members Macalik and Townsend absent.

For information about the procedures and required materials to file a plat, or for any other additional questions on this matter, please contact Planning staff at (972) 771-7745.

Sincerely,

David Gonzales, AICP Senior Planner

Planning & Zoning Department
